James V. Russell,
871 MAIN STREET, ST. JOHN.
SUNDAY SCHOOL ANNIVERSARY.
Coburg street Christian church celebrated its anniversary last night by giving an entertainment which was enjoyed by a large audience. After an opening address by the pastor, a programme was rendered consisting of recitations by Jennie Dalton, May Barbour, Pearl Ingraham, Percy Blackletter, Celia Canney, Eunice Blackletter, Arthur Colwell, Bonnie Sanderson, Florence Tompkins, Marion Flagler, Blanche Giddard, Lillian Garnett, Allen Wilson, Miss Davis, Mabel Craig, John McKay and Annie Bolton, solos by Pearl Ingraham, Miss Vaughan and Miss Murray, duets by the Misses Colwell and Mrs. Davis and Mrs. Williams, a dialogue by the Misses Cunningham and several hymns by the children of the school. After the completion of the programme refreshments were served to the children of the school in the vestry.

THE ST. JOHN STAR is published by THE SUN PRINTING COMPANY (LTD.), at St. John, New Brunswick, every afternoon (except Sunday) at 10 a year.

ST. JOHN STAR.
ST. JOHN, N. B., MARCH 16, 1901.

THE STAR'S SUCCESS.
The Star is increasing in public favor, a fact that is proved by increasing circulation. The citizens realize that it is not so much its quality that they want in an evening paper, and the Star suits them. This paper contains the most news of interest to St. John people. That is the verdict of its readers, and of any who care to make comparisons day by day. The criticism that it is only a one-cent paper falls in view of the fact that the one-cent is better value than the two-cent paper. Advertisers will do well to note the ever growing popularity of the Star, and secure space in which to tell its readers the merits of the goods they have to sell. No advertisements in this paper are hidden out of sight or overshadowed. That is an advantage the wide-awake advertiser cannot fail to appreciate.

THE MONUMENT FUND.
Thus far the contributions to the proposed monument at St. John to the memory of New Brunswick soldiers who fell in South Africa amounts to about \$35. This has been contributed by much less than three hundred people. There are thousands in this city to whom the appeal has not been brought home with sufficient force to prompt them to add their names to the list. Yet there is not a citizen but is in full sympathy with the idea of a monument, and it is certain that in the end it will be erected. There are, it is true, many calls upon the people this winter—many more than usual—but there are many quarters which might be diverted to this Quarter Dollar Fund without injury to any other deserving cause. The Star will cheerfully continue to keep the subject to the front. A citizen called yesterday to leave twenty quarters. His example is worthy of emulation, whether there be twenty quarters or only one.

A SAD SPECTACLE.
Nothing more pathetic has been recorded in local history than the failure of Hon. Dr. Pugsley, Mr. Milligan and Mr. Gilliland to hunt down the forgers of the Rotherham list. The attorney general, backed by the powerful moral support of the other two, is said to have strained his legal eyesight to the point of collapse in his stultic efforts to discover the criminals. He is understood to have lost so much sleep over the problem that he seems haggard and absent-minded, and scarcely able to attend to other matters, however important. He feels keenly the insult and wrong done to the county he represents, and is believed to fret in his sleep over his inability to catch the rascals and hurry them before the cad. The other two gentlemen are sympathetically perturbed, and are said to pine much in secret over the state of utter helplessness in which they find themselves. If the criminals were less hardened, they would surely be moved to tears by the pitiable spectacle which these worthy men present, and give themselves up to justice. If they fail to do so they will have much to answer for. It is a dreadful thing for a criminal to hide himself from punishment in this brutal way, when he knows that his course causes so great grief in the hearts of good men.

THE GLOBE TURNED DOWN.
The valued Globe must have been somewhat astonished at the result of the deliberations of the Board of Trade yesterday. Our contemporary on Thursday discussed the proposal to limit the preferential tariff to goods reaching Canada by way of Canadian ports, and found no merit whatever in the plan. In view of the declaration of the board the Globe's remarks are worth quoting in full:
The proposition is one that ought not to be entertained by men of free trade principles. Of course, it has the merit of selfishness, and it may seem to appeal with considerable force to places situated as are Halifax and Montreal. It would be of no advantage whatever to St. John, for the immediate result would be action on the part of the United States government to prevent the carriage of goods entering at this port and carried across Maine for other places in Canada from being so carried, and in all probability the refusal to allow Canadian goods to be carried across Maine for shipment from this port to the United Kingdom. The real object of the movement is to destroy the value of the preferential tariff to the Canadian purchaser of English goods. Some Canadian manufacturers are already crying out that the tariff is too easy, and under this selfish form of appeal to local ports they are seeking to enlarge protection. The people should insist upon getting cheap goods, no matter through what port they come in.

The Globe's anxiety lest something should be done that would wound the feelings of its friends the Americans is even more pathetic than its fear that the manufacturers would reap some benefit. But the members of the Board of Trade are more concerned

about the welfare of this port and the development of Canadian trade than about either the United States or free trade principles, and therefore the Globe was turned down. Was it not Sir Wilfrid Laurier who proposed to sit up nights till every pound of Canadian freight was carried through Canadian channels?

GAMBLING IN SOCIETY.
The rector of Grace church, New York, Dr. William R. Huntington, who has always been considered one of the most conservative clergymen in that city, severely rebuked society card-playing in his sermon on Sunday last. Following this he said, "My references to gambling in high places were not merely a statement of my own opinions on the subject. I intended to have them mark the beginning of an uprising of public sentiment, which will put an end to society gambling, at least among men and women who call themselves Christians." Dr. Huntington's emphatic remarks were addressed to the New England society, which, he says, stands for the twentieth century survival of the Puritan conscience. The society has a membership of 1,400, and the reverend doctor is of the opinion that their combined influence aroused against this gaming iniquity ought to be a strong factor in its suppression. Dr. Huntington says that facts regarding gambling in society have come to his notice from reliable sources. He says that it seems to him a self-evident proposition that gambling in pool-rooms and public resorts can never be suppressed till it is first put down in social circles. This society gambling has become quite a fad, and many indulge in it merely because it is the fashion in their set or circle of friends. One society leader in New York, when interviewed on the subject, said that she heartily approved of Dr. Huntington's statements. Her which appears to have swept over New York appears to have swept over New York over its origin to bridge what, which has become a fad. It is almost invariably played immediately after dinner or luncheon. One of the worst features of this matter is that there is a great deal of card-playing on Sundays. If St. John's social leaders are free from these charges, they will at least sympathize with Dr. Huntington in his praiseworthy undertaking; if they are in the least guilty, perhaps they will now cry "pshaw!" and turn over a new leaf, as the New York ladies will possibly do.

The Maine house of representatives has rejected by a vote of 44 to 19 the resolution for a new vote of the people on the prohibitory law. Maine has had this law fifty years, and for a large part of that time it has been a part of the state constitution. Whatever may be said elsewhere as to the effect of the law the people of Maine are not yet tired of it.

In an editorial this morning the Sun says that the ships which came to Sand Point last winter could have handled 2,000,000 tons of merchandise. This is evidently a misprint for 200,000 tons.

LOCAL LEGISLATURE.
FREDERICTON, N. B., March 15.
The house opened at 3 o'clock. Hon. Mr. Burchill presented the report of the committee on corporations, recommending bills No. 15 and 17, with amendments.
Mr. Shaw gave notice of motion for Tuesday that Rule 7 be suspended for a bill to submit to the electors the proposition of the corporation of the city of St. John making a grant to the Exhibition Association.
Replying to opposition members Hon. Mr. LaBrosse gave details of the contracts for a number of bridges.
Mr. Porter gave notice of an inquiry whether the government intend to increase the indemnity of the leader of the opposition for his extra bridge services.
Mr. Purdy presented the petition for the city of St. John praying that a bill to enable the city to apply for light, heat and power and to operate a street railway may pass.
Mr. McKewen presented the petition of the city of St. John praying that a bill to authorize the city to make a grant to defray the cost of an inquiry into the subject of the assessment law may pass.
Mr. Hasen brought up his motion relative to the proceedings in Albert County before Justice Blight with respect to the trial of G. R. Sangster and others. This is a case where a number of names of non-resident voters were said to have been added to the list. The matter was discussed by Messrs. Hasen, Ryan, Humphrey, Pugsley and Osmun, and on the promise of the attorney general to lay all correspondence between Justice Blight and the government before the house, Mr. Hasen withdrew his resolution.
Mr. Osmun moved the following resolution: "Resolved, That it is the opinion of the house that the province of New Brunswick will be materially benefited in a commercial sense if the present dominion tariff law be so amended that the preferential clause now applying to British goods imported into Canada shall apply only when such imports are made directly through a Canadian port."
Mr. Osmun said that he thought the matter was one proper to be discussed in this house. The matter had been brought up at the summer ses-

sion convening held in St. John last summer, and a resolution similar to this had been approved of. It had also met with very general approval of members who had been communicated with on the subject. Boards of Trade in several Canadian cities had also endorsed the resolution. He quoted from the New York World as to the anxious view that was taken of the effects of such an enactment in the commerce of the United States. He felt that it would be a great advantage to Canada, and particularly New Brunswick, if the idea expressed in this motion was carried out.
Mr. Copp, in seconding the resolution, said that as he had the preferential tariff, it was only fair that these goods should be imported through our own ports. These ports were quite as well equipped for this trade as foreign ports, and he believed it was proper for us to press this matter on the dominion government.
Hon. Mr. Still was in favor of the resolution, and he thought the house and the province was in favor of it. One effect of it would be to give our ports in the maritime provinces a broken stowage freight in summer. Many local industries were seriously hampered by the high rates of freight in summer. Sometimes their goods had to be sent to Montreal in summer, and all their profits were eaten up by the high rates of freight. As to the fear of the bonding privilege being done away with, he did not think that would be the case. The persons who would object to this would be parties in Western Canada, who might think Portland, Boston and New York more convenient to them to ship through than St. John and Halifax. Sir Wilfrid Laurier in a speech made not long ago said that in five years he expected to build up a great trade through the port of Montreal. That, however, would be only in summer, and in winter the trade would come to St. John, which they were all anxious to see built up. The motion was then put and carried unanimously.

On motion of Hon. Mr. Tweedie, the bill to provide for the development of the coal areas in Queens and Sunbury was re-committed. See. It was amended by limiting the amount of taxation imposed on any railway company to 15 cents on each ton of coal used by them not produced in the province.
Several bills were agreed to, including that empowering the church wardens and vestry of Trinity church St. John to dispose of lots in the new burial ground.
The distinctive quality of Red Rose tea cannot be appreciated by those who value a really choice cup of the invigorating beverage.

PARLIAMENT.
OTTAWA, March 15.—In the commons Mr. Hackett called attention to the tie up on the P. E. I. railway and the fact that trains had not been running for one week. He asked that attention be given this matter.
Mr. Borden called the attention of the government to the protest of the Halifax Board of Trade against a contract being made with the Manchester liners unless the vessels were required to call at Halifax on the homeward voyage and take 5,000 tons of freight.
The budget debate was continued by Sir Richard Cartwright, Mr. Bell, Mr. Picton, Mr. Hyman and Mr. Smith of Westmorland.
Mr. Borden moved the adjournment of the debate and gave notice of the following amendment to be offered on Monday:
That in the opinion of this house the welfare of the country requires a pronounced policy of adequate protection and encouragement at all times in labor, agricultural, manufacturing, mining and other industrial interest of Canada.
That in the opinion of this house the adoption of a policy of actual trade relations with the empire would prove of great benefit to the mother country and to the colonies, and would greatly promote the prosperity, unity and progress of the empire as a whole; and that the present time, when the Commonwealth of Australia is laying the foundation of its fiscal system, is particularly opportune for taking prompt and energetic steps towards the furtherance of this object.
This motion is further of the opinion that equivalent adequate duties should be imposed by Canada upon products and manufactures of countries not within the empire, in all cases where such countries fail to admit Canadian products and manufactures upon fair terms, and that the government should take for this purpose all such available measures as may be found necessary.

THIRD SET OF TEETH.
NORWALK, Conn., March 15.—Mrs. Eliza J. Brown, 89 years old, is surprising Fairfield county physicians and dentists by cutting a new set of teeth. The aged lady has had false teeth in her upper jaw ever since childhood. Now that natural ones are appearing the manufactured molars are cast aside.

A Chance to do Your Plumbing Cheap.
I am offering this first class, highly sanitary, up-to-date LOW DOWN
Gloset Combination.
Worth \$25 for \$14.95.
For one month only.
If you are thinking of making changes in your Bath Room or putting in new w. c., why not get one of these high class closets at the extremely low price I am selling them at.

NEWSPAPER OFFICE BURNED.
Three Proof Readers Lose Their Lives in a Fire in the Boston Advertiser Office.
BOSTON, March 15.—Three lives were sacrificed, nearly \$200,000 worth of property destroyed and many thousands of dollars' damage done as the result of a fire that started in the proof room of the Daily Advertiser and Record in the seven story granite front building in Newspaper Row about 1 o'clock this evening. The dead are: James Richardson, 47, of 15 Fowler street, proof reader; William Craft, 77, proof reader, Cambridge; Walter Luscomb, proof reader, of Salem. Among the injured are: Harry Holt, compositor, 417, broken and badly burned; D. H. Farwell, compositor, arm severely bruised by falling; Theverson, named Farwell, Hubbard and Murphy badly bruised by jumping. Four firemen were slightly cut and bruised.

How the fire started is not known, but it was first seen in the press room, and like a flash it spread to the elevator well and descended to the top so rapidly that before the occupants of the two upper floors were aware that the building was on fire their rooms were filled with flames and smoke so stifling that it was with difficulty any of them escaped.
On the upper floor were some 15 compositors and proof readers, whose situation was most critical. Panic stricken they rushed for the windows leading to the fire escape, and all but three of them succeeded in gaining the roof of the adjoining building, where they remained for a time awaiting the arrival of the fire department, and by whom they were warned not to jump, as help was at hand.
The three victims, all proof readers, were suffocated before they had time to reach the escape. Then with a gasp they saw the escapees were obliged to jump several feet to the roof of the adjoining building, and in doing so a number of them sustained injuries more or less painful, though none is likely to remain for long.

The advertiser force is tonight making up its paper in the Globe office, and will print a page paper from the Globe's premises. Stephen O'Meara of the Journal offered the afternoon's Record, and the offer was gratefully accepted. The Herald and Post also indicated their desire to do anything in their power to aid the Advertiser and Record in their misfortune.

HALIFAX.
HALIFAX, March 15.—The Shubensadde Presbyterians will call Rev. H. W. Sedgwick to fill the vacancy caused by the resignation of Mr. John Murray.
General Manager Giffins has ordered that D. A. R. trains shall not stop at stations between Westmorland and Metegan on account of the snowlock case.
A delegation from the Halifax board of trade interviewed the government today asking that the government give more than the ordinary subsidy to secure the construction of the railway between Halifax and Yarmouth along the south shore. Premier Murray said that the government had decided to do this.
The coroner's jury in the Guyaborg road, yesterday found a verdict that Edward Busch came to his death from a blow delivered by parties unknown, but naming certain men who were in his company at the time.

DISASTROUS TOBACOGGANING.
Several Young Ladies More or Less Seriously Hurt.
Barbed wire fences and toboggans make a very undesirable combination when the toboggan is on the down grade at some 75 or 100 miles per hour. A long section of barbed wire fence, the moon was not shining brightly, a party of young ladies, escorted by Mr. Turnbull, essayed tobogganing on the hillside to the rear of the Davenport school. The ladies were Miss Hanington, Miss Edith Anderson and her sister, Miss Frink and Miss Melick.
Though somewhat familiar with the ground, a mistake was made in the course, and the toboggan crashed into and actually carried by the impact a long section of barbed wire fence. Miss Hanington was the only member of the party who escaped uninjured. Miss Edith Anderson was the greatest sufferer. Her face and neck were badly lacerated, and her sister was severely bruised. Miss Frink was cut around the throat in the region of the jugular vein, and Miss Melick fainted several times from the effect of the shock. Mr. Turnbull was likewise somewhat injured. The victims were taken to Mowatt's drug store, where their injuries received temporary treatment, after which Dr. P. R. Inches rendered the necessary surgical aid. While none of the ladies are seriously injured, it will be some time before they can fully recover from the effects of the accident.

WONDERFUL MILKING RECORD.
(New Zealand Dairyman.)
The milking record from New Zealand has been put up by a Plains settler and his wife, who, without any help except what could be given by a twelve-month-old infant, milked seventy-nine cows twice daily. It is a fact, and can be vouched for, that he delivered on an average 2,000 pounds of milk a day at the factory, and not a penny was spent in wages last year.

THE POPE'S POEM.
The pope is said to be at work on a poem designed to celebrate the advent of the twentieth century. Leo XIII. intends this poem to be a Christian "Carmen Saeculare," in which he has imitated the manner of Horace.

HE HIT TOO HARD.
PHILADELPHIA, March 15.—Richard Mansfield, the actor, was arrested this afternoon, charged with striking super John Rogers over the head with a spear in the performance of "Henry V." at the Walnut street theatre last evening.

A Sledge.
The matrons of the Edison Orphanage at Lowell, Mass., U.S.A., wrote they had a sledge of whopping-cough in their institution. They said that every case was promptly relieved by Vapo-Cresolene. Its value in coughs and colds was so great they always kept it ready for use. You know how it's used, don't you? 'Tis heated by a vaporizer and you inhale it. Write us for a book that tells all about it. Vapo-Cresolene is sold by druggists everywhere. It is a sledge of whopping-cough in their institution. MONEY TO LOAN
On Freehold and Leasehold Property—repayable by monthly instalments or otherwise. Apply to CHAS. McLELLAN, Barrister, Palmer's Building, Princess street.

BOARD OF TRADE.
The meeting of the board of trade held yesterday afternoon was largely attended, and an important discussion took place. Hon. Mr. Dobell's proposed declination law was severely criticized. Delegates who are to go to Ottawa to press upon the government the necessity of dredging the mouth of the harbor, will be instructed to present the views of the board with respect to the declination bill. H. A. Drury, seconded by J. A. Likely, moved the following resolution:—
Whereas, merchandise which is a product of Great Britain or any one of her dependencies, when imported into the Dominion is subject only to a duty (except such articles as are entitled to free customs entry) of 33-1/3 per cent, less than if such merchandise were imported from any other country, whether imported direct through a port of the dominion or through a foreign port;
And whereas, if such preference were allowed only on such merchandise directly imported through Canadian ports a powerful stimulus would be given to direct trade between the ports of Great Britain and Canadian ports;
It is resolved that this board is deeply impressed with the propriety and desirability of the present customs regulations being so amended that the aforementioned tariff preference should be granted only when such merchandise is imported direct through a Canadian port.
It was discussed at considerable length by J. F. Robertson, W. F. Hawthorn, T. H. Somerville, T. H. Hall, Alderman MacRae, J. H. Thompson, W. H. Thorne, W. S. Fisher and others, and was carried. Only one vote, that of T. H. Hall, was recorded against it. H. A. Drury moved that copies of the resolution be forwarded to New Brunswick, M. P., and to the Halifax, Montreal, Toronto and Quebec boards of trade.—Carried.
The committee which will interview the government concerning these matters consists of D. J. McLaughlin, J. H. Thompson, Geo. McKean, A. D. Macrae, J. A. Likely and President G. Wetmore Merritt. They will leave for Ottawa by the C. P. R. today.

A WILD CANADIAN.
(London Mail.)
Stephen Mackay, a young Canadian, was sent to prison for four weeks by the Ramageat magistrates yesterday for army desertion.
Since enlisting a year ago, he had spent nearly the whole time in military prisons. On Wednesday he was across the Stour at Sandwich, boarded a tugboat, stole the stoker's outfit, and said he wanted to work his way back to Canada. Falling into the hands of the police, he was arrested.
