## BURGLARS AGAIN.

T. J. Cronin's Saloon Was Broken  
Into and Liquor Stolen—Cash  
Registers Untouched.

Once more the burglars have got in their work, and as in the case of the Eastbrook and Myers burglaries the police are in the dark.  
This latest case is the entering of the premises of the late T. J. Cronin, on Gorman street. The main entrance to the retail store is by a large single door, the upper portion of which is of glass. The large light was cut off about half way up and completely removed, also a spider was from the frame a space sufficiently large for an ordinary sized man to enter. Officer Scott and his mate while trying the doors on their last round found the break and entered through the same hole that the burglar did. They secured a lamp and carefully searched the premises but found no one. From behind a stove they took a large tin shield which they nailed over the break and made their exit by a door leading to Market Place, leaving the bar fall behind them.  
This morning when the clerks opened the place they made a careful examination of the premises to see what was missing but all that had been removed was three bottles of liquor. Before the registers were used and the drawers in use are practically empty and the money placed in a safe. The drawers of the registers are left open. In one last night there was sixty-five cents, all in copper, and in the other three dollars. This money was found untouched.

## SOME MARVELOUS FIGURES.

What Could be Done With the Rain that Fell Tuesday.  
Tuesday last was a wet day in St. John. As a matter of fact, about two and a quarter millions of tons of rain fell within the four corners of the city (a topographical error in the Star yesterday morning in the Star yesterday morning is apt to be discredited by the skeptical, but just consider a moment the facts that conclusively prove it.)

St. John has within its bounds over 3,000 acres of area, according to the official report, was 2 1/2 inches. It is an axiom with meteorologists that precipitation of one inch of rain per acre amounts to approximately 101 tons of water. On Tuesday, the precipitation was 2 1/2 inches, or 525 1/2 tons of water to the acre. By simply multiplying the area of St. John (3,000 acres) by 525 1/2, the amount of total precipitation of rain in St. John on Tuesday will be derived. It was 1,275,000 tons, or 44,625,000 gallons. What could be done with the 44,625,000 gallons of water?

It would keep No. 2 engine, which is of the most powerful type in Canada, for nearly three years, working ten hours per day, pumping water through an inch and a half nozzle. It would be enough water to run a city the size of New York for more than two days.  
It would supply all the needs of St. John for about three months.  
It would flood an acre field over a quarter of a mile deep.  
Frozen into blocks and piled into a column one hundred feet square it would make a pillar of ice extending up about one mile and a quarter into the air.

## ST. STEPHEN CHAMPIONS.

Sackville Defeated in the Deciding  
Game Last Night—Mohawks  
Beat the Neptunes.

The largest crowd that has witnessed a hockey game in this city for years was in attendance at the Queen's Rink, the principal attraction, of course, was the contest between the St. Stephen and Sackville teams to decide the New Brunswick championship. The result gives the trophy to St. Stephen, but the difference between the teams is practically nil. As far as last night's game is concerned, the boys from the border city put up the better game. They kept right on top of the puck, except when one or another would loaf off side. This was one of the distressing features of the game, and one that lovers of good hockey do not like to see. Of course, any team that will not take advantage of the opportunity is not up to much and could never expect to get in the championship class. The referee, that is, Allen, of St. Stephen, was perfectly impartial, but allowed considerable leading and side. This, however, it is understood, has not been considered a very serious offence in several provincial towns where hockey is played.  
The game was fast as far as individual play went, but was lacking in team work. It was a case of every man for himself. There was no heavy body checking, the game being tried from what at times tends to injure the sport in the eyes of some.  
To St. Stephen belongs the credit of a well deserved victory, and to Sackville, the credit of giving the provincial centres some magnificent sport during the winter. They put up a good fight for the championship and that they were equally popular with the St. Stephen boys was evidenced by the reception accorded them last evening. After 25 minutes' play, Love scored for Sackville. Hill made a great effort to stop the puck, but it went off his pads although with not sufficient force to land in the net. Still it was behind the posts. In the second half Sackville scored after two minutes' play. Their making a pretty shot. Shortly before time was up McWha scored for St. Stephen amidst the greatest excitement, getting the puck in a mix-up in front of the Sackville goal.  
The Mohawks and Neptunes crossed sticks in the third of the city championship series. The Mohawks won by a score of 2 to 1.

## POLICE COURT.

Matters Were Rushed Today—A  
Boy and a Policeman—Another  
Sheriff St. Resident.

This was civil court day and as a result matters were rushed by Police Magistrate Ritchie. Joseph Dixon was fined \$16 for resisting the police and \$8 for drunkenness.  
Daly Kilfoil, 10 years of age, but was looked up last night by Officer Silas Perry for calling the official names and otherwise conducting himself in an ungentlemanly manner. David's mother secured permission from the chief clerk to take the lad home last night on condition that he should appear this morning. David was on hand good and early and said his little piece like a man. He told the magistrate that he sold papers for a living and played marbles as a pastime. He was enjoying himself when Perry appeared on the scene, but did not call the officer any names. He would not do such a thing.  
The magistrate gave him a severe talking to and then dismissed him.  
John McDonald, 22 years of age, a native of P. E. Island, was gathered in last night by Officers Marshall and McNamee. He is charged with being a vagrant and an habitual frequenter of houses of ill repute on Sheffield street. The case will come up this afternoon.  
The police claim that McDonald is the piece like a man. He has been making that section of the city so lawless. McDonald, like Morris who was yesterday for a time boarded in a respectable house, but lately has been with a colored lady, Sadie Whalen by name, and well known to the officers.

## A GREAT OPPORTUNITY.

On next Monday evening our local theatre-goers will fill to the seats of the great English melodrama, "The Black Mask." This play has for the past three years been the sensation of England and the two companies presenting it are playing to crowded houses. "The Black Mask" is far above the ordinary run of melodrama, and it has a story and plot that is bound to interest all classes. It is a melodrama of the same class as "The Silver King," "Sherlock Holmes" and other English melodramas. New scenery has been painted and those who attend Monday evening will witness a splendid play. Already there is a large demand for seats and no doubt a large audience will welcome back their favorites.  
GOING AWAY GIFTS.  
A reception was held on Tuesday evening, at the home of Mrs. John Campbell, Prince street, West End, by a large number of young people, friends of Albert Hartley, who left yesterday morning for Portland, Me. Rev. W. Ferguson, on behalf of the young people, presented Mr. Hartley with a handsome presentation case. The Carleton F. C. Baptist Sunday school, of which Mr. Hartley was a member, presented him with a beautiful gold mounted fountain pen in token of their good wishes. Refreshments were served and music and games indulged in and the gathering broke up at a late hour.

## THE FISH MARKET.

There is a good assortment of fish for tomorrow's market, both fresh and cured. Cod and haddock are quoted at 5 cents per pound, halibut at 15 cents and smelt at 10 cents. Shad are quoted from 25 to 30 cents each, herring at 18 cents per dozen and smoked and pickled fish at the usual prices. There are very few fish being caught at present, the fishermen being occupied fitting out for the halibut season. Probably in a week or so it will be necessary to send to Boston for haddock. All shad on the market at present are from cold storage.
