An Accident at St. Mary's with Almost Fatal Results.

His Case Finally Prenembed Beyestes—Hew his Restaration was Brought About.

(From the Be. Mary's Arges.)

How different are the feelings that take possession of one as they read the particulars of some great railway of steamship disaster where socree of lives with whom we have no acquaintance have been lost, and reading the particulare of the runaway of a span of horses attached to a carriage from which one of our actualintances have been thrown out and killed. In the former case, although the loss of fife have been great, you say. "Im's it terrible?" but in a lew days the affair has probably passed from mind, while in the latter instance months after you could recount the minutest particulars of the runaway. And so it is when we read the particulars of ourse really remarkable, but because we are not interested in the person restricted the facts are soon forgotten. But which a large number of our readers are familiar, it will, we are sure, be of special interest and carry conviction.

Our readers will remember that over two years ago while Mr. Gideon Elliott, James street, St. Mary's, was teaming ashes he was thrown from a load and received such severe injuries to his spine that he was unable to walk or lie down in bed. He suffered great pain in his back. For long months he lived aight and day in a chair, not able to do the slightest thing to help himself. And with no prospect of help before him he began to feel that life was a burden and he had no fesire to live. Two physicians attended him, but after exhausting their powers Mr. Elliott was told that "if he had anything he wanted settled he had better attend to it at once," the last doctor telling him he could not becured. To an Argus representative Mr. Elliott gave the above facts and said that after having suffered a great deal of pain, and not withstanding he was told he was incurable, he determined to try the Pink Pills for Pale Peuple. Inside of three weeks he began to teel the effects of the pills and now most emphatically declares that they have made hi ess."
