**BE CAREFUL WHAT YOU
WASH YOUR HAIR WITH**

Don't use prepared shampoos or any-
thing else, that contains too much al-
kali, for this is very injurious, as it
dries the scalp and makes the hair
brittle.
The best thing to use is just plain
mulsified coconut oil, for it is pure
and entirely greaseless. It's very
cheap, and beats anything else all to
pieces. You can get this at any drug
store, and a few ounces will last the
whole family for months.
Simply moisten the hair with water
and rub it in, about a teaspoonful is all
that is required. It makes an abun-
dant amount of rich, creamy lather, cleanses
thoroughly, and rinses out easily. The
hair dries quickly and evenly and is
soft, fresh looking, bright, fluffy, wavy
and easy to handle. Besides, it loosens
and takes out every particle of dust,
dirt and dandruff.

**Easiest Way to Remove
Ugly Hairy Growths**

(Beauty Culture.)
Here is a method for removing hair
or fuzz that is unflattering and is quite
inexpensive.—Mix a thick paste with
some powdered talcote and water and
spread on hairy surface. After 2
or 3 minutes, rub it off, wash the skin
and every trace of hair has vanished.
No harm or inconvenience results
from this treatment, but be careful to
get genuine talcote.

Pay your out-of-town accounts by
Dominion Express Money Order. Five
dollars costs three cents.
