Reports Regarding Prince Annoying In High Quarters

London, Nov. 10.—(By Canadian Associated Press Cable)—There is stated to be no truth in the reports of Matrimonial Intentions of the Prince of Wales, which, we are informed, "cause trouble and annoyance in the highest quarters."

Ottawa, Nov. 10.—One of the kindest and most graceful acts of the many His Royal Highness, the Prince of Wales, has performed in Canada, and his last official act and visit in this country was a call he paid this afternoon, on his way to the train, on Captain Leonard F. Askwith, M. C., at the residence of his father and mother, Mr. and Mrs. Thomas Askwith.

His Royal Highness was accompanied on his visit by the following members of his staff, Chief of Staff, Sir Lionel Halsey, K. C. M. G.; Military Secretary Lieutenant Colonel E. W. M. Gries, D. S. O.; Major General Sir Geoffrey Thomas, Bart. and His Equerries, Lord Claude Hamilton, Captain The Hon. F. W. Leigh and addition Lieut. L. G. Henderson and Captain Cantor of the staff of His Excellency, the Governor General, accompanied the party.

The Prince was received by Mr. and Mrs. Thomas Askwith, Captain Charles and Mrs. Askwith, Mrs. Wood Bates, and Miss Ada Askwith. His Royal Highness chatted for some time with Captain Leonard Askwith and asked him about his service in France.

"Tough luck," said the Prince, in referring to Captain Askwith's wound. In talking to Mrs. Askwith afterwards the Prince expressed his delight with his Canadian visit, and said he felt quite like a Canadian now. He also expressed his determination to visit Canada as soon as such a visit could be arranged.

SHARP DIVISION OF OPINION AT CONFERENCE

Question of Admitting Finland to International Labor Conference Stirs up Arguments.

HON. N. W. ROWELL HEADS COMMITTEE

Represents the Minority on the Question, Taking the Ground That Finland Should Not be Admitted.

Washington, Nov. 10.—(By Canadian Press.)—The case of Finland has brought a sharp division of opinion over the rights and powers of the International Labor Conference. Some days ago the conference appointed a special committee, under the chairmanship of Hon. N. W. Rowell, to report on the question of admitting Finland, Luxembourg, the Dominican Republic and Mexico. In regard to Luxembourg, the Dominican Republic and Mexico, Mr. Rowell will present to the conference this afternoon the unanimous opinion of the committee that these countries be not admitted.

The fact, says the committee's report, "that some delegates representing workers' or employers' organizations are now in Washington and have made, through some third party, a request for admission cannot be held to affect the position."

Mr. Rowell on Minority. In his minority report, Mr. Rowell says the point at issue is not whether Finland delegates should be admitted to the conference, all were agreed that they should; the issue was whether the conference had the legal authority to accept Finland, as a nation, into full membership of the International Labor Organization.

ANTI-BOLSHEVİK FORCES PLACED ON THE DEFENSIVE

The Forces of the Reds Have Been Largely Increased and Are Fighting Stubbornly.

London, Nov. 10.—Authoritative advices on the Russian military situation show that the anti-Bolshevik forces have been compelled nearly everywhere to assume the defensive, owing to the increase in the Bolsheviki forces. On the eastern sector the severest fighting continues in the direction of Tobolsk, Yalutorovsk and Kurgan, where the Reds have reached the Isham river. On the southern front the Bolsheviki are counter-attacking along the whole line between the Volga and Dnieper, and are generally advancing, except in the vicinity of Belanok, southwest of Orsk, where General Denikine is attacking.

SESSION OF PARLIAMENT JUST CLOSED WAS UNIQUE IN VERY MANY PARTICULARS

Called for a Distinct Purpose, and That Accomplished, Government Introduced Considerable More and Important Legislation—Unique in Parliamentary Leadership—Centre Party Became Closely Allied With Gov't—New Liberal Chieftain Proved a Colossal Failure—Canada Takes New Place Among Nations of World.

Special to The Standard. Ottawa, Ont., Nov. 10.—The session just closed today was unique in many particulars. Called for a distinct purpose and that accomplished, members were preparing to disperse, when the Government introduced legislation that added 5,000 miles of railway to the Government system. This was followed by a review by a special committee of the soldiers' civil re-employment system and resulted in a further expenditure of \$50,000,000 for this purpose. After several amendments to provide for complete provincial prohibition, it was in the dying hours of this session that it was accomplished. The session became one of the most momentous in our history.

It was unique in parliamentary leadership, as for a time the Prime Minister was absent, and the opposition was directed by an acting leader while the choice of the National Liberal Convention was seeking a constitution that in one sense represented the views of the so-called centre party.

Parliament was called to ratify the Peace Treaty and in addition accepted similar treaties with Austria and Poland. It probably would not have effected the accomplishment of peace with Germany if Canada had not ratified the treaty, but it would have satisfied the Canadian position with respect to the Empire. Now the responsibility of this result that the opposition failed to grasp the significance of Canada's part in the labor charter of the League of Nations.
