

Dyspepsia For Ten Years

Constantly Hungry, William Le Mesurier, of Montreal, Dare Not Eat, and Existence Became Truly Miserable.

Then He Heard of Powley's Liquefied Ozone—The Disease Germs Were Soon Destroyed and After Taking Four Bottles He Was Completely Cured.

POWLEY'S LIQUEFIED OZONE CURES DISEASE BY DESTROYING DISEASE GERMS WHEREVER LOCATED.

Gentlemen, — I have been a great sufferer from dyspepsia for ten years. Sharp cutting pains and constant hunger made my existence truly miserable, while flatulency and gas troubled me. Despite all efforts to overcome this distressing condition it continued until August last, when I heard of Powley's Liquefied Ozone. I have used four bottles of the Ozone and can now eat anything.

I would strongly recommend it to every sufferer, as I understand it applies alike to all germ diseases.

(Signed) WILLIAM LE MESURIER, 126 Metcalfe St., Montreal.

WM. LE MESURIER, It Does Not Matter How Chronic Your Case of Dyspepsia May Have Become Ozone Will Certainly Cure You.

The action of Powley's Liquefied Ozone in cases of Dyspepsia is peculiar. With some there is almost immediate relief and the patient commences to get well at once. With others the first few doses cause nausea and the patient seems to get worse. This is merely an indication that Ozone is doing its work, but that the case is a severe one, and that there is greater difficulty in destroying the disease germs. Later the symptoms of distress become less pronounced and at fewer intervals until they cease altogether, when there is rapid improvement and the patient is soon entirely cured. There is one thing certain, however, and that is that it does not matter what the first effects of Ozone may be, if persisted in there is no case of dyspepsia that will not cure, and when we cure we mean cured for all time to come. This has been proven so often and so thoroughly that it has become an absolute certainty. The following are extracts from a few of the many letters received, testifying as to the curative qualities of Ozone:

W. J. ADAMS, 428 Wellesley street, Toronto, says: "I had dyspepsia for years. Good physicians and advertised cures did me no good. I was advised to try Ozone. Three bottles cured me and now my digestion is perfect. I feel that it was a God-send in my case."

MRS. JOSEPH ROY, 266 St. Dominique st., Montreal, says: "For six years I was troubled with indigestion, heartburn and neuralgia and used many medicines without obtaining any relief. Two months ago I commenced taking Ozone and after taking four bottles I am happy to say I am cured. I have an excellent appetite and can eat anything I wish."

E. J. DOYLE, 88 Percy street, Ottawa, says: "For ten years I suffered from stomach trouble and after trying all sorts of treatments was thoroughly discouraged. It was, therefore, with considerable doubt that I was induced to try Powley's Liquefied Ozone. In a short time I was better and soon gained 13 pounds in weight. I am working every day and feel well and hearty, with not a trace of dyspepsia left. My wife and daughter were also much benefited by Ozone and I am sure it saved the latter's life."

MISS JESSIE THOMPSON, River street, Toronto, says: "For four years I suffered from ulcerated stomach with frequent hemorrhages. I was treated by the best physicians besides using many different remedies, but continued to get worse. I was advised by Powley's Liquefied Ozone and followed carefully following directions. In a short time there was a remarkable improvement in my condition the hemorrhages ceased, my strength returned and I was much improved in every way. In buying be sure to get Powley's Liquefied Ozone. It is sold only by reliable dealers—never by peddlers. Price, 50 cents and \$1.00 per bottle. THE OZONE CO., Limited, Toronto, Ont.

FOR AUTOMOBILE WEAR.

Costumes Are Now Made of Horse and Goat Skins. Fashions in motor garments are undergoing somewhat of a change. Time was when shapeless garments of oil-skin or the hard, stiff Greenland seal were considered the only proper thing, but experience has shown us that, except when on a racing car, practically the same costumes can be worn as when one is riding in a carriage. The successful motor costume should be dustproof and warm. Those de-

FOR COUNTRY WEAR.

signed for hard wear are made entirely of horsekin, but a less expensive substitute is kidskin, the hides of young goats being utilized for the purpose. As with horsekin, the short glossy hairs resist both rain and dust, while the skin if properly dressed is as soft and supple as cloth. An extra long coat is somewhat of a necessity, especially now that autumn is here. Such a coat, suitable also for golf and country wear, is here shown. It is of striped Scotch goods and is trimmed with strappings of deep blue cloth. The hat is of gray felt, with a gray and white feather. JUDIC CHOLLET.

SEPARATE WAISTS.

They Will Not Be So Much Worn This Winter. For morning wear the separate blouse and skirt still prevail. The smart woman, however, arranges that her skirt shall harmonize with her waist in coloring. Grass green panne velvet waists are among the latest novelties. A waist of a good quality of black china silk is very smart as well as useful. Combine

AFTERNOON TOILET.

It with coarse black lace applique in quiet patterns. The flannel waist will not be worn as much this winter as formerly. It will be supplanted by serviceable unlined blouses of peau de soie, wool and silk moire and heavy unlined satin. These will be made quite simply, and the greater part of them follow the style of the summer and fasten down the back with tiny silk buttons. Red is a very popular shade. A very bright geranium tint is considered the smartest, but this should be worn with discretion. A dainty afternoon toilet is of rose broadcloth trimmed with ivory gulf lace and touches of deep red taffeta. As seen in the illustration, it is rather plain, with a wide collar, full sleeves and an overdress effect in the trimming of the skirt. JUDIC CHOLLET.

Golden Moments. She—Yes, I'll go if you promise not to get impatient while I'm dressing. You always seem to think that my appearance is a matter of no moment. He—On the contrary, my dear, it is usually a matter of a great many! Brooklyn Life.

WEAK LUNGS

Made Sound By the use of Dr. Williams' Pink Pills.

Weak lungs mean weak health, continual coughs and colds—touches of grip and bronchitis, then deadly pneumonia or lingering, hopeless consumption. Weak lungs are due to weak blood. The one sure way to strengthen weak lungs is to build up your blood with Dr. Williams' Pink Pills. Every dose makes rich, red blood, and every drop of rich, red blood adds strength, vigor and disease-resisting power to weak lungs. Thousands of weak-lunged, narrow-chested men and women have been made sound, healthy and happy by the use of Dr. Williams' Pink Pills—and they will do the same for you. Mrs. J. D. Naismith, Winnipeg, Man., says: "I contracted a severe cold, which developed into bronchitis and lung trouble. The best of doctors and many different kinds of medicine failed to help me, and my friends all thought I was going into rapid consumption. I had no appetite, was forced to take to bed, and felt that only death would release me. My brother urged me to try Dr. Williams' Pink Pills, and to please him I began them. A few boxes proved they were helping me, and I began to get real strength. I continued the use of the pills and was soon able to leave my bed and sit up. I grew stronger day by day. The cough that had racked me almost beyond endurance disappeared, my appetite returned, and I am again strong and healthy, much to the surprise of all who saw me while I was ill. Dr. Williams' Pink Pills cured me after other medicines failed and I shall always praise them."

Bear in mind that substitutes and ordinary medicines will not cure. See that the full name, "Dr. Williams' Pink Pills for Pale People," is printed on the wrapper around every box. Sold by all medicine dealers or sent post paid at 50c. a box or six boxes for \$2.50 by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont.

An Indian Superstition. Among the superstitions of the Seneca Indians was a most beautiful one. When a young maiden died, they imprisoned a young bird until it first began to try its powers of song, and then, loading it with carresses and messages, they loosed its bonds over her grave in the belief that it would not fold its wing nor close its eye until it had flown to the spirit land and delivered its precious burden of affection to the loved and lost one.

Not Broke. Harduppe—I say, old fellow, lend me a hundred, will you? Riggs—A hundred what? Harduppe—A hundred dollars. I—Riggs—Oh, stop your joking. Harduppe (earnestly)—Joking? I was never more serious in my life. I'm broke. Riggs—My dear man, you're not broke. You're cracked!

The profit of a gold mine depends, not on the amount of rock crushed under the stamps, but upon the amount of gold which can be extracted from the rock. In a similar way the value of the food which is eaten does not depend on the quantity which is taken into the stomach but upon the amount of nourishment extracted from it by the organs of nutrition. When these organs are diseased they fail to extract the nourishment in sufficient quantities to supply the needs of the several organs of the body, and these organs cannot work without nourishment. The result is heart "trouble," liver "trouble," and many another ailment. Dr. Pierce's Golden Medical Discovery, acting on every organ of the digestive and nutritive system, restores it to health and vigor. It cures diseases remote from the stomach through the stomach in which they originated. "Golden Medical Discovery" contains neither alcohol nor narcotics.

The motto of some people seems to be—Be sure you are right and then do the other thing. It has been said that to be perfectly happy we must have something to do, something to love and something to hope for.

MASONS' SUPPLIES.

We have a complete stock of Lime, Cement, Plaster, Sewer Pipe, Fire Brick, Cut Stone, Sand, Hair, Etc., of the best quality and at the lowest possible prices—give us a call.

DANGEROUS CLEAVAGE.

Is British Columbia Becoming Estranged From Canada?—Lies of Business Thicker Than Blood.

"There is to-day a very distinct and very dangerous cleavage between British Columbia and Eastern Canada," were the significant words of Rev. C. W. Gordon ("Ralph Connor") of Winnipeg, in the course of his address on Western Canada at Toronto Central Y.M.C.A. Hall on the evening of the 21st Feb. The people of the Western Province did not use the word "Canadian" as much as "British Columbian." The business interests of the cities on the Canadian coast were very closely allied with those of Seattle and other American cities in that part of the continent. He did not wish to infer, however, that the people of British Columbia were less loyal than those of other Canadian Provinces. In the South African war they had fought in the very front of the Canadian contingents.

"But business is thicker than blood," Rev. Mr. Gordon continued, "and before business, blood and water and almost everything else disappears." If the business relations between those Canadian and American cities went on increasing, then the ties of blood were in great danger of being sacrificed. "As Canadians," said the speaker, "we must set ourselves to prevent any permanent cleavage between Eastern and Western—shall I say Greater—Canada? There is a national cleavage of about 500 miles of country between the East and the West. We do not know why Providence placed that rocky belt there. Some day, however, the discovery of hidden wealth further north may solve the question."

Responsibilities of Public Men. Public men, he said, had great responsibilities in making and retaining a united Canada. "The man who ought not to be sent to Parliament or trusted as a leader," said Mr. Gordon, "and should be turned down swift and hard is the man who, under stress of party exigencies, emphasizes the difference between people and people, or Province and Province. I'm a Protestant and a citizen of Winnipeg, but my interests as a Canadian in Manitoba are not different from those of the French Roman Catholic who is a citizen of Quebec. Nor do the interests of the Pilgrim of the West, who likes to go on a ramble once a year, differ from those of any cultured gentleman of Toronto. They are both here, and each is valuable in its place. Both the man of Toronto and the Doukhobor of the plains may turn out to be equally good and honest citizens." No member of Parliament should, therefore, he said, be representative purely of manufacturers, or of farmers, or any other class. He should represent Canadians in the broadest sense of the word.

The Making of the West. Turning to the making of the West, the speaker said that schools and colleges should take an important place in this Western development. Some men failed to see the advantage of higher education. For the West they thought only self-made men were needed, men who perhaps could only read and write, or made wealth. Of what use were poets or writers of fiction, for instance, they said. "Well, if he is a bad poet," observed Rev. Mr. Gordon, "or a bad writer of fiction, he is a dangerous man; but if he writes a good poem or a good novel, he should be paid a large salary. Do not despise the unpractical man."

Ideals for Canadians. On the previous Friday afternoon, Mr. Gordon, in the Convocation Hall of Knox College, Toronto, lectured on ideals for Canadians. Summed up his talk would resolve itself into a literary sermon from the following text: "The material is a great possession, but greater than the material is the spiritual."

We have a great heritage, he said, and with it comes a great responsibility. Canada had lately been rediscovered by the Americans. A new West had sprung into life, and the Dominion had entered a second period of youth. Now was the time for forming ideals while young Canada is still in the formative period. The ideals he held for Canadians were those of self-dependence as opposed to the parasitic spirit, unwavering fidelity to duty, sympathy with others, a national unity irrespective of race, language or religion, and finally spirituality as opposed to commercialism.

The Composite West. Coming from the composite West with a growing mixture of race and creeds, the lecturer naturally emphasized the need of unity. West of the Great Lakes, said he, there were 80,000 fellow-citizens who did not speak our language, and who did not believe in our religion. This complexity of races and creeds was necessary in a new country. No one could keep out the people of other lands, who were attracted by the richness of our territory. And Canada needed just such people as the peasants of Europe, men who would do a day's work for a day's wage, who would take up willingly the work our own Canadian youth passed by. The peoples from other countries, who came to share our privileges would, he believed, if received in the proper spirit and encouraged, soon become assimilated, and prove true and worthy citizens.

Spiritual Potentialities. Lastly, the ideal he cherished most for the people of Canada was the fostering of their spiritual potentialities. Our forests and our wheat fields and our oceans of fish were a wonderfully rich possession, but beyond all it was the unseen, the spiritual life, that counted for greatness. That for which the university stood, high thinking, lofty ideals, nobility of character, held the first place among the things that would ensure for our young nation an enduring greatness.

SURPRISE SOAP
