

BRANDON.

McLean Bros., hardware merchants, have also gone up.

Samuel Parish has almost completed his elevator on Sixth street.

Several fire alarms were sounded last week, but nothing serious happened.

Trade has been very fair this week, notwithstanding that the farmers are very busy.

McMillan & Co. have started their elevator, which is to be built on the C.P.R. east of First street.

The frost of last week did no damage to grain in this district; the vegetables, however, were badly cut.

Building is going on very rapidly, and a number of stores are being put up on Rosser avenue, between 8th and 11th streets.

Geo. Ripple & Co. have made an assignment to a Winnipeg paint and oil firm. It is not yet known if the business will be closed out yet.

The new exhibition buildings are approaching completion, and are very pretty, reflecting great credit on the Agricultural Board for this district.

The firemen resigned in a body last week, and a new company has been formed. The mayor and Aldermen are now members of the force.

The survey of the Rapid City Central Railway is being pushed forward rapidly. The C. P.R. will supply a train service as soon as the iron is down.

Quigley Bros. have gone under. The failure has been looked for for some time, as they had cut prices down to nothing, and everyone knew what that meant.

The American Lumber Co. have sold their yard here to D. P. McLaren. On account of the low prices they have decided to close out the Manitoba and Northwest business. They hold \$15,000 worth of stock at Regina, which they are trying to sell.

The Brandon Mail has been bought by Mr. Cliffe, late of the Portage Review, from Mr. Amos Rowe, of the Winnipeg Times. The sheet is a smart daily paper edited by able writers, and promises to be a valuable addition to the town.

The Rapid City Central Railway by-law will be voted on on the 6th October. It is proposed to change the name, as the road will not now run into Rapid City, but will cross the river twelve miles west of that point. Work will be begun at once, and considerable work will be done before snow flies.

MINNEDOSA.

Buildings in course of erection are being pushed on with all possible force, in order to give plastering completed before cold weather. Plasterers are in demand, and high wages are being paid.

Fessrs. Head and Dewar have completed work for the Council Chamber and lock-up and work will be proceeded with at once. The thing is to be of brick two storeys in height though mansard roof and clock-tower, and will be than for on the market square. On the ground during addition to the cells and Police office, and high

there will be several offices for grain buyers, while the council-chamber will comprise the whole of the upper floor.

The man Roach mentioned in last week's issue, as about to start a large dairy farm, turns out to be an adventurer, the wayward son of respectable parents in Hamilton, Ont. After making contracts for large quantities of lumber, hardware, horses, &c., for none of which he paid, and setting up a champagne supper for "the boys," he suddenly left town without settling his hotel bill, and when last heard of was travelling afoot to Chater "to bring up his cattle."

A SYNDICATE of capitalists is being formed in Cleveland, Ohio, to develop iron mines in Central Ontario. The iron ranges to be opened are nine miles from Lake Ontario, with an area of 6,000 acres. The Central Ontario Railway now being built will open a way to the market. The mines have been located, and the output for the first year is estimated at 100,000 tons.
