

## The Shrill Small Voice

Not of conscience, but of nature. When baby awakens in the night and demands his nocturnal meal, you will find your exacting role as his obedient servant much more comfortable and less irksome if you take the precaution to have an electric milk warmer convenient. No need to leave the cosy warmth of the bedroom. Simply turn the button and "his majesty's" food is prepared in the twinkling of an eye. Finished in highly polished nickel — hygienic — simply constructed—quickly cleaned. Can be used equally well for heating any kind of liquid. Made in two sizes. Pints, \$6.50; Quarts, \$7.50.

Call and have our demonstrator show how it works—or 'phone the Comfort Number.

Triple Screw Turbine Steamers

R.M.S. "Royal Edward" and "Royal George"

HOLDERS OF ALL RECORDS BETWEEN GREAT BRITAIN AND CANADA

These steamers are equipped with the latest devices for the comfort and convenience of passengers. Marconi wireless, deep sea telephone, passenger elevators. Every room is ventilated by the thermo tank system, which warms or cools the fresh sea air and distributes it over the entire ship every five minutes. The engines are the latest type of turbine, ensuring a maximum of speed and a minimum of vibration. The private suites of apartments and the luxuriously appointed public cabins, treated after historic periods in decorative art, are unexcelled by anything on the Atlantic. The second and third cabin appointments have set a new standard of comfort and elegance for this class of accommodation. The table service throughout is the best that leading chefs and excellently appointed steward service can make it. If you desire an unbiased opinion on Ocean Travel, ask for a copy of "What People Say of Our Service." Sailings are made fortnightly between Montreal, Quebec, and Bristol in summer, and Halifax and Bristol in winter.
