"The fair wages resolve"

Letter of Belfast Trades Union Council -

unanimous resolution
"That, in the opinion of this Council, the report of the select committee
appointed to investigate the working of the fair wages resolution of the 11th of 6. by the
Belfast Post-Office is highly unsatisfactory, and contrary to the evidence
given before them (i.e. that resolution had been fairly well observed & the diffi-
culties (i.e. the war); and also protects against their recommendation that naval
and army reservists should be allowed to unfairly compete with
civilian labor."
