Ottawa, Ontario.

My dear Eugene:

I have yours of 12th and have read
carefully the newspaper clipping enclosed. I
managed to hold my own right to the end.

The principal impression left on
me was that if Professor Brown had remained a
while longer with Mr. King, he would really have
got to know him. Plainly he was on the way.
Further, there is no difficulty at all in com-
prehending the man. He is one of the easiest
to size up that I have known.

Would truly like to see your treat-
ment of this review.

Yours sincerely,

AM/E.
