Re: Printing of Federation Speech.

Attached is a set of proofs, another set is being checked at the Office against the manuscript.

You will note that although the sub titles ~~covered~~ were in the same line in the manuscript they have been placed one below the other in the printed copy. At the top of page 18 there is a light change in the sentence I have marked lightly in pencil. After you spoke to me I substituted the phrase "to advise" for the phrase "to have told".
