

Heart Trouble

Caused Dizziness, Weakness
and Smothering Spells.

Through one cause or another a large majority of the people are troubled, more or less, with some form of heart trouble. Wherever there are sickly people with weak hearts, Milburn's Heart and Nerve Pills will be found to be the most effective medicine on the market.

Mrs. F. Leslie Craig, 114 Erie Ave., Brantford, Ont., writes:—"It is with the greatest of pleasure I write you stating the benefit I have received by using Milburn's Heart and Nerve Pills. I suffered greatly from heart trouble which caused dizziness, weakness and smothering spells. I used a great deal of Dr.'s medicine but received no benefit. A friend advised me to buy a box of your pills, which I did, and before I had finished one box I felt so much better I continued their use by taking two boxes. I highly recommend these pills to any one suffering from heart and nerve trouble."

Milburn's Heart and Nerve Pills are 50 cents per box, or 3 for \$1.25, at all dealers, or mailed direct by The T. Milburn Co., Limited, Toronto, Ont.

Don't Wear A Truss

After Thirty Years' Experience I Have
Produced An Appliance for Men,
Women or Children That
Cures Rupture.

I Send It On Trial.

If you have tried most everything else, come to me. Where others fail is where I have my greatest success. Send attached coupon to-day

The above is C. E. Brooks, of Marshall, Mich. who has been curing Rupture for over 30 years. If ruptured write him to-day.

and I will send you free my illustrated book on Rupture and its cure, showing my Appliance and giving you prices and names of many people who have tried it and were cured. It is instant relief when all others fail. Remember I use no salves, no harness, no lies.

I send on trial to prove what I say is true. You are the judge, and once having seen my illustrated book and read it you will be as enthusiastic as my hundreds of patients whose letters you can also read. Fill out free coupon below and mail to-day. It's well worth your time, whether you try my Appliance or not.

FREE INFORMATION COUPON.

C. E. Brooks, 4770 Brooks Bldg., Marshall, Mich.
Please send me by mail in plain wrapper your illustrated book and full information about your Appliance for the cure of rupture.

Jno. J. Miller, Surrandale, Gowrie, Ont.

QUESTIONS AND ANSWERS. Miscellaneous.

INOCULATING ALFALFA SEED.

To whom should I write at the O. A. C. for information about inoculating alfalfa seed, or could you give that information through your paper? T. G.

Ans.—Apply Prof. S. F. Edwards, Bacteriologist, O. A. C., Guelph, Ont. Instructions will come with material.

NEGLIGENCE CAUSING INJURY

I hired myself to a farmer, and everything went well until we went to haul in wheat. Before we put the load up, I said to my boss "The rack-lifter isn't safe," but he only laughed. Well, the load was being pulled up, and I was to watch when the load was up to give the signal to stop. Then I had to look to see if the props were in. Just at that, the rack came down and hit me on the shoulder. Then I was laid up for two months. Can I charge the farmer for lost time and doctor's bill?

Ontario.

Ans.—We think you are in a position to sue your employer for damages for negligence, and that in arriving at the amount of such damages, the items you mention should be included.

PROPAGATING BUSH FRUITS AND GRAPEVINES.

How are red currants, black currants, gooseberries and grapes propagated?

SAM.

Ans.—Propagation of all the fruits mentioned is by means of cuttings; that is, by sections of new wood about a foot in length, completely severed from the bush or vine. These may be taken off now, and two-thirds of their lower ends buried in the ground until early spring, when they can be planted out either in nursery rows, or where they are to remain. In order to have plants of the gooseberry and currant which shall not throw up suckers, it is only necessary to cut out every eye or bud to be placed below the surface of the ground. Cuttings of these will succeed almost as well if taken off in spring, but this must be done very early on account of the season at which growth starts.

Grapevines are sometimes propagated by layering. This consists in bending down and covering with earth a part of length of young wood, leaving basal end attached to stem, and outward end uncovered. It will root readily at any buried joint. When wanted, the connection with main vine is severed, and the rooted plant dug up.

SETTING DRILL TO SOW MIXED GRAIN—JOINING LATERALS TO MAIN TILE DRAINS.

1. In sowing Mandscheuri barley and Daubeny oats at O. A. C., rates of one bushel each, how would you set a Massey-Harris drill to sow the above? Said drill is made to sow barley on one side of feed run, and oats by reversing plates. Also, in sowing rape with turnip seed-drill, so many pounds per acre are recommended to be sown. Would like to know how it is done?

2. In joining tile drains, laterals into main drains, how is the connection made? Are there any tools made to do the job with, or in what way should a hole be made? May be in the center of a tile; or, if coming in the joints between two tile. Also, what is used to cover around or over the splices; pieces of tile, or stones? Experience of others would be welcome.

R. A. P.

Ans.—1. This is one of the questions that you can answer much better than can be answered from this office. Experiment with drill, or ask the agent. Possibly some readers have had the necessary experience. If so, we shall be pleased to hear from them.

2. At many tile yards, tiles with a hole cut in the side, or those with a short branch tile attached, are made. If no special tiles for the purpose of joining laterals to mains are on hand, a hole can be cut with a trowel or chisel. Two conditions should obtain at such joints:—laterals should be joined, not at right angles to main, but on an angle heading towards outlet; and the upper side—not the lower—of smaller lateral tile should be to the outside side of main tile; in other words, the bottom of lateral tile should be at least two inches higher than the bottom of main tile.

Remember, we pay the freight in Ontario and Eastern Canada. The Catalogue is Free, for the asking. Send for it To-day.

INTERNATIONAL CARRIAGE CO.,
Dept. "A," Brighton, Ontario.

To Buyers Looking for a Good Stallion:

I have imported Percheron Stallions for years. Always bought from the best breeders in France, and beg to call the attention of prospective buyers to the fact that I have won this year at Toronto first and second aged class sweepstakes and silver medal. Also at Ottawa Fair, first and third in aged class, first, second and third in 3-year-old class, sweepstakes and gold medal. Those horses are beautiful dapple-greys and blacks, three to four years old, weighing 1,800 to 2,000 lbs., with feet and legs that cannot be beat, beautiful heads and necks, the kind that good buyers are looking for. I do not intend, and I will not allow, if I can help it, any one to give more quality breeding for a fixed price than I will. Come to the home of the champion prizewinners and judge for yourself.

JOHN HAWTHORNE, Simcoe, Ontario.

Union Horse Exchange
