

Sound as a Dollar

That's the only way you can afford to keep them, because any lameness means less work and less profit to you.

Spavin, Splint, Curb, Sweeney, Ringbone, Swelling or Lameness need not prevent your horses from working. Simply use Kendall's Spavin Cure.

It works while the horse works—takes away the pain—reduces swellings—makes legs and joints sound and strong—leaves no scars or white hairs because it does not blister.

Kendall's Spavin Cure

has been the horseman's standby for 40 years and is used all over the world.

Burns, Ont. Sept. 10th 1909. "I have used Kendall's Spavin Cure and it cures Old Stubborn Cases."

WILLIAM H. DOUD.

Keep your horses sound as a dollar. Get Kendall's today and you will have it tomorrow if needed. \$1 a bottle—6 for \$5.

When you buy, ask for free copy of our book "A Treatise On The Horse" or write us

Dr. Stewart's Pure Condition Powders

MAKES STRONG, HEALTHY STOCK.

Horses, cattle, hogs and poultry—not a stock food, but a scientific blending of roots, herbs and barks; makes good solid flesh naturally, not artificially; does not bloat; acts directly on digestive organs. Costs less, by increasing nourishment from food given. Makes pure blood, and cleanses the system. Try it for scratches, stocking, coughs, colds, distemper, indigestion, worms, bots and skin disease.

If not satisfied, your money back.

The standard for over 30 years. Large can 50 cts., prepaid. Send for our veterinary booklet.

At most dealers, or PALMER MEDICAL CO., Windsor, Ontario.

DUNHAMS' PERCHERONS

For forty-six years renowned as the best of the breed. Six large importations since February 1, 1910 (the last arrived October 12th), insure fine selection, as each animal was individually selected for size, bone quality and excellence. If you want choice stallions or mares, write for catalogue, illustrated from life.

Imported Clydesdales. Importation of pure-bred stallions, mares and fillies and young stallions, of most valuable breeding, up to a big size with character and quality. Phone connection. ALEX. F. McNIFF, St. Thomas, Ont.

fee which the owner of the mare would otherwise himself have to pay for the services of the stallion. The intention is that these free nominations, about 1,400 in number, shall be allocated by preference to the smaller tenant farmers and others in respect of the best of the young mares in their possession.

PURCHASE OF STALLIONS.

The Board propose to expend a considerable sum on the purchase of Thoroughbred stallions for resale on special conditions with a view to securing the use in the district of a stallion of somewhat higher class than could otherwise be obtained, and of providing suitable stallions in districts where at present their services are not readily available. It is hoped by this means to secure the retention in this country of a certain number of stallions which would otherwise go abroad. The number thus purchased in any one year cannot be large, but it is believed that in the course of time a substantial benefit to the industry will accrue.

REGISTRATION OF STALLIONS.

The voluntary registration of stallions by the Board is not to be confined to light horses only, but will be extended to stallions of all breeds entered in the recognized studbooks. It is intended that registration shall be carried out free of cost to the owner, except in the case of a stallion serving at a fee exceeding £10, exclusive of groom's fee, in which case the expense of veterinary inspection will be borne by the owner. The main object of the proposal is to establish a recognized standard of soundness for breeding purposes. The owner of a mare will know that any registered stallion has been examined by a competent authority and passed sound for service. As regards the suitability of the horse from other points of view, he will still have to rely upon his own judgment, but in one important respect at any rate his choice will be made more easy.

The responsibility for the administration of the grant as a whole will rest with the Board, who will have at their disposal the assistance of the proposed Advisory Council representing all branches of the industry. In many important respects the detailed administration of the scheme will be left in the hands of the County Committees. The Secretary of State for War has stated that the War Office will be prepared to purchase annually a certain number of the remount horses at three years off, and he has promised the co-operation and assistance of the Army Council, who will be represented at the meetings of the Advisory Council. The Farmer's Gazette.

QUESTIONS AND ANSWERS. Veterinary.

TUBERCULIN TEST.

1. Could an intelligent farmer apply the tuberculin test?
2. Where can the tuberculin and necessary instruments be procured?
3. Give details of test.

D. M. M.

Ans.—1. It is quite possible, but his lack of knowledge of the nature of the test would tend to make the results indelible.

2. The instruments can be procured from any dealer in veterinary instruments, as Stevens & Sons, Wellington Street, West, Toronto, and the tuberculin from manufacturing chemists, or the Department of Agriculture, Ottawa. The tuberculin from Ottawa will be supplied only when the test is to be made by a competent veterinarian.

3. The temperature of the cattle is taken at intervals of three hours, for, say, twelve hours. Then the seat of injection (usually the loose skin behind the shoulder blade) is disinfected with a five-percent solution of carbolic. All instruments being thoroughly sterilized, about 10 drops of the dilute tuberculin is injected (less for a young or small animal). In about nine hours after injection the temperature is again taken and this is repeated every hour until twenty-four hours have elapsed after injection. If the temperature rises more than two degrees above the normal, the animal is considered positive. If it rises only one or two degrees, it is considered doubtful, and a second trial may be made in a few days.

To Buyers Looking for a Good Stallion:

price than I will. Come to the home of the champion prizewinners and judge for yourself.

JOHN HAWTHORNE, Simcoe, Ontario.

21 IMPORTED Clydesdale Stallions

My 1910 importation, nearly all 2- and 3-year-olds. They are ideal in draft character, with faultless quality of underpinning, every one will make a ton-horse and over, and they represent the best blood of the breed; they will be priced right and on terms to suit. Farm is two miles from end of street car line. A phone from Guelph will bring a conveyance to meet visitors.

The largest, best equipped and most sanitary stables in Canada. Half-mile of railway loading chutes at stable door. Quarter-mile open track for showing horses. Northwest trade a specialty. HERBERT SMITH, Manager. (Late Grand's Repository.)

IMPORTED PERCHERON STALLIONS.

We have at our stables some of the finest Percheron Stallions ever imported to this country. The large drafty kind, with plenty of good flat bone and the best of movers. Our horses range in age from 2-year-olds to 5-year-olds.

We also have three German Coach Stallions of the true type. We invite inquiries from all intending purchasers, and assure them that they will do well to get our prices and terms before buying, as we are in a position to sell below competition.
