FREE TO MEN UNTIL

The effect of Electricity upon the weak, debilitated man is the same as rain upon the parched field in summer. He may be debilitated from varicocele, losses, impotency; may have confusion of ideas; fear to act and decide; gloomy forebodings, timid and fretful; avoid friends and company; without confidence in himself to face the slightest responsibility, and let him properly apply Electricity for but a few hours and all these symptoms vanish. A few weeks to a couple of months' use of this treatment banish them forever, and make strong, confident, manly men out of the puniest weaklings. For nearly forty years I have treated and restored weak men through my world-famed invention, and am still

doing so with greater success than ever. In fact, I do not expect to fail in any case of this kind, and therefore, as most men are more or less sceptical, I will continue to give my Herculex

Dr. Sanden Electric Belt Free Until Cured.

Not one cent is to be paid me in advance or on deposit. Call or write and get the belt, and use, say, for sixty days, and if cured pay me price of belt only-most

DR. C. F. SANDEN,

cases low as \$4; if not cured return the belt and the deal is ended. But I know what the belt will do, and will take the risk of my pay when you are cured. I also give my belts on same terms in Rheumatism, Lame Back, Stomach, Kidney and Liver Complaints, etc. As the originator and founder

of the electric belt system of treatment, my forty years' success is the envy of many, and my belts of course are imitated. (What good thing is not?) But my great knowledge to advise and direct my patients is mine alone, and free to all who use my belt until cure is complete.

What would you not give to have your old vim back again? What would you not sacrifice

to feel as you did a few years ago; to have the same snap and energy; the same gladsome, joyous, light-hearted spirit and the physical strength you used to have? You know you are not the same man, and you know you would like to be. You might as well be. It's easy. I am making men out of wrecks every day, and the above offer must convince you what I feel I can do for you.

Call or send to-day for my belt; or, if you want to look further into the matter, I have the best two little books ever written upon Electricity and its medical uses, and send them free, sealed, upon request.

TRADE NOTES.

A WORD TO FARMERS .- Farmers cannot be too particular in the quality of seeds sown. Someone has said, "That a dollar saved is a dollar made," and while this may be true in many cases, yet a small saving in the price of seeds may mean hundreds of dollars lost in the have a reputation for good seeds. Every gardener and farmer should have their seed book.

BIBBY'S FEEDING MEALS .- Messrs. J. Bibby & Sons, of Liverpool, England, are considered the largest manufacturers of cattle meals in the world. Their products are good. In Canada this firm is represented by William Rennie, Seedsmen, of Toronto, and we understand that the sale of Cream Equivalent, which is especially made for calves, has been doubled within the past year. shows that reliable goods, which have value and merit, are what stock-raisers

HOLLOW BLOCK MACHINE .- If you are going to build this season, we would suggest that you call on Mr. Erickson. at 549 Main St., Winnipeg, where he makes a perfect cement hollow block, that will build one foot of wall in thirty seconds, by a process that can be easily learned by anyone in five minutes. Numerous inquiries are made from time to time with regard to cement hollow blocks, and anyone interested should take advantage of this chance to see Mr. Erickson demonstrate what he claims to be the only process that should be used in making hollow blocks. The machine used is the Winner. The simplest and cheapest block machine on the market.

COSSIF.

At a dispersion sale of 42 head of Shorthorns and other live-stock, held on the farm of J. H. Irwin, Neepawa, at which T. C. Nortis, of Griswold, wielded the hammer, assisted by T. Donaldson, Neepawa, 36 females averaged approximately \$74, and 6 bulls, \$60; the highest-priced bull being one of W. S. Lister's breeding. Grade cows brought good prices; 12 head averaging \$46.50.

DRY HORSE STALLS.

To prevent our horses from pawing holes in their stalls during fly time or when standing idle, we dug straight across the stall, back of the horses and in front, laving stones of good size as nearly smooth and level as possible. Then directly under the horses we lay smaller stones carefully as regard to size and height. After the stones are laid. fill the interstices with sand, gravel or fine dirt, over which add an inch or two of dirt. Bed plentifully for a few days, until dirt is well packed, and you will have a comfortable bed for your horse, and one that will always be dry and level.-J. E. B.

A WOLF REMEDY.

A writer in an exchange has the fol-

lowing to say on the wolf pest: Now we come to the remedy that has solved the wolf problem for us, and that is finding how to get them to take poison. We tied a rope around a sheep's stomach and inwards, and put some decoy we got from the Northwestern Hide & Fur Co. on them, and dragged them behind the buggy along the back sides of our pasture; every twenty or thirty rods we threw out two or three baits that we had prepared by placing "Sure Death Capsules," sold by the above named company, inside a chunk of chopped mutton and lard about as large as a hickorynut. The baits should be thrown on the path made by the drag and on little knolls if possible, but don't get out of the buggy or make any tracks.

We believe that a dol'ar's worth of poison properly placed is worth more than a hundred dollars' worth of dogs to clean out wolves. We believe that a thousand dollars' worth of poison systematically and carefully placed will kill every wolf in the State and end the nuisance. It might kill some dogs, but a new supply could soon he raised.

We hope these suggestions will help our brother shepherds to avoid some of the rocks on which we have stumbled and put up a winning fight against one of our

Nine Nations

Now Use Liquozone. Won't You Try It-Free?

Millions of people, of nine different | the world to you. Its effects are ex- | Dyspepsia Millions of people, of nine different nations, are constant users of Liquozone. Some are using it to get well; some to keep well. Some to cure germ diseases; some as a tonic. No medicine was ever so widely employed. These users are everywhere; your neighbors and friends are among them. And half the people you meet—wher-And half the people you meet—wher- vegetal matter. ever you are-know some one whom Liquozone has cured.

If you need help, please ask some of these users what Liquozone does. Don't blindly take medicine for what medicine cannot do. Drugs never kill germs. For your own sake, ask about Liquozone; then let us buy you a full- less in any germ disease. size bottle to try.

We Paid \$100,000

For the American rights to Liquozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquozone destroys the cause of any germ disease.

Liquozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas-largely oxygen gasby a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food - the most helpful thing in Dandruff-Dropay

There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissues too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost help-

Germ Diseases.

These are the known germ diseases. All that medicine can do for these under no obligation whatever. troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attack the germs, wherever they are. And when the germs which cause a diseas are destroyed, the disease must end and forever. That is inevitable.
