A MUCH NEEDED GRANT.

A matter that demands prompt attention at the next session of the legislative assembly is the condition of the Mater Misericordia hospital of this city. This extremely worthy institution has been the means of alleviating an incalculable amount of suffering among the inhabitants of Roseland and the surrounding district.

The end of the panic so created has been reached and there is in sight another era of good times that should last for at least half a century. With the augmented output of the Kootenays, which is sure to increase many fold from year to year until it will assume great proportions, added to the product of South Africa, Australia, the United States and the Klondike, there will be a steady stream of gold pouring into the several avenues of trade of all countries until it will result in a universal prosperity even greater than that which has begun by the incident of the discovery of gold by Marshall.

SINCE THE DAYS OF '49.

In September last THE MINER published the statement that the Mining and Scientific Press of San Francisco had suggested that there be a semi-centennial celebration of the discovery of gold in California by James W. Marshall at Coloma, El Dorado county, on January 19, 1848.

The news that H. Dallas Helmcken, M. P. P., will probably succeed Hon. D. W. Higgins, M. P. P., as speaker of the legislative assembly, will, it is safe to say, be received with general approval. Mr. Helmcken possesses all the qualifications necessary for the making of an excellent presiding officer of a parliamentary body.

With the permanent retirement of Hon. Mr. Higgins from the Speaker's chair, the legislature loses an exceptionally able presiding officer and one who is noted for the impartiality in his decisions. Mr. Higgins knew his May and Bourinot as to very few men. While his successor may equal him in many respects, it is certain that no man could surpass him in the dignified and graceful manner in which he made his rulings.

If THE MINER'S Victoria correspondent is correct in his surmises regarding the discord that prevails among the leaders of the local Oppositionists, there will probably be a serious split in the ranks of that party. Before those who profess to control the destinies of the Opposition attempt to make F. C. Cotton a political nomen in Provincial politics, it would be well for them to carefully estimate the chances of their ability to do so.

felt in the old as well as the new world. The sails of commerce whittened every sea for the purpose of interchanging products with the most remote points of the world. Factories that had been doing but little were called on by an increased demand to double and treble their capacities, and thousands of new industries were established. There was work, and at advanced wages, everywhere for everyone, and the prosperity of the world reached its greatest heights as a result.

The member for Vancouver is the Machiavelli of British Columbia politics. He is one of the ablest members of the legislative assembly and a very shrewd politician. He is supposed to have a large following in his district, and is able to exert considerable influence with the rank and file of the Oppositionists in the legislature. Mr. Davis is also a Vancouverite. He is well versed in politics, although he has yet to seek election to the local house. He is popular and would be a strong candidate.

DUTY, BUSINESS AND PLEASURE.

Mr. Speaker Higgins of the legislative assembly, has been very liberal with his invitations to the leading professional and business men of this Province to attend the ceremonies that will be observed at the opening of the new parliament buildings at Victoria on next Thursday.

THE SPEAKERSHIP.

From the time of the discovery made by Marshall up to the end of 1897, the output of gold in California reached the enormous aggregate of \$1,000,300,000. The entire supply of gold in the world at the present time is only \$4,068,800,000. From this it will be seen that this state has produced in half a century from the time of the discovery of the metal there a sum that is equal to about one-quarter of the visible supply of the gold of the entire world.

THE NEEDS OF TRAIL CREEK. In order that the legislative assembly at its next session may do justice to Roseland and the Trail Creek mining division, THE MINER suggests that the members of that distinguished body cut out and paste in their hats the following lists of needs of this neighborhood:

ECONOMICAL ORE REDUCTION.

The conclusions of Professor Woodhouse, which were published in yesterday's issue of THE MINER, in relation to the best methods for the reduction of the low grade ores of the camp, attracted a large share of public attention yesterday and became the subject of much debate.

Take notice that I, J. A. Webb of Roseland, July 22, 1897, free miner's certificate No. 5,558, intend sixty days from the date hereof, to apply to the mining recorder for a certificate of improvements for the purpose of obtaining a crown grant of the above claim.

And further take notice that action under section 37, must be commenced before the issuance of such certificate of improvement.

THE NEEDS OF TRAIL CREEK. In order that the legislative assembly at its next session may do justice to Roseland and the Trail Creek mining division, THE MINER suggests that the members of that distinguished body cut out and paste in their hats the following lists of needs of this neighborhood:

A redistribution measure that will make the Trail Creek mining division a separate electoral district.

An appropriation that will admit of adequate educational facilities.

A liberal appropriation for roads, trails, wharves and bridges.

An appropriation for the Mater Misericordia hospital, as already outlined in THE MINER.

Provision for a land registry office for the Kootenays, the same to be established in Roseland, and an appropriation for its proper maintenance.

THE MINER has discussed at length, and on different occasions, the reasons why each of these appropriations should be made, and has endeavored to show the amounts that should be appropri-

ated in each instance. If the Government, or any member of the legislature, require more reasons or extra data in order to convince themselves that the Trail Creek mining division is only making a reasonable request, THE MINER will be only too pleased to furnish the information without delay or expense to the applicants.

If Trail Creek is to be neglected at the approaching session of the legislature it will not be her fault.

THE coming summer will witness more genuine prosperity in Kootenay than in Klondike.

THERE is every reason to believe that the force of miners at present employed in the Roseland camp will be doubled within the next ninety days.

HON. C. H. MACKINTOSH having secured "the keys to the treasure house of the camp," the people of Roseland are anxious to see him proceed with the unlocking act.

THERE is excellent material in West Kootenay for the making of a first class cabinet minister if the Provincial government is really desirous of giving a ministerial portfolio to a man from this district.

The annual general meeting of the shareholders of the above company will be held at Toronto, on Monday, the 21st day of February next, at 3 o'clock p. m.

Shareholders' Meeting. A special general meeting of the shareholders of the Kootenay Consolidated Mining & Development Company, limited liability, will be held at the office of the company, Roseland, B. C. on Friday, the 4th day of March, A. D. 1898, at the hour of 2 o'clock in the afternoon.

THE head office of the company is situated in the City of Spokane, State of Washington, U.S.A. The amount of the capital of the company is two million five hundred thousand dollars, divided into two million five hundred thousand shares of one dollar each.

The head office of the company in British Columbia is situated in the Town of Roseland, and Charles R. Hamilton, solicitor, whose address is Roseland, aforesaid, is the attorney for the company in the Province of British Columbia.
