The following article from the Evening Huronite, of Huron, South Dakota, will be of interest to a large number of our readers.

Visitors Like City of Huron

Canadian Guests of D. E. McMonies Comment Favorably on Huron

Mr. and Mrs. William Thompson of Waterdown, Ontario, Canada, who have been visiting for the past few days, at the home of D. E. McMonies left last evening for a visit in Lead, South Dakota, where Mrs. Thompson's brother, Mr. William Clark is in business.

Words of praise were constantly upon the lips of the visitors, they were enraptured with the beauty and progressiveness of both our city and surrounding country, the cleanliness and width, especially of our streets made a great impression upon them. The size of our stores and the beauty of the display windows called forth words of admiration. Our many industries and extent of the State Fair grounds brought forth comment and favorable comparison.

Mr. Thompson says that oats sell for 68 cents a bushel, corn \$1.25 and hogs \$12.50, in Ontario. The Farmer Government, which is in control in Ontario, Mr. Thompson says, is daily making enumerable friends by its sane, practical business methods and will at the next election sweep the province by a tremendous majority. Mr. Thompson and D. E. McMonies were old school mates.

Butter Disappears

The all important question, and one that is uppermost in the minds of guests who attended the Corn Roast held on Green's flats on Tuesday evening is "Who stole the butter." The fact remains that after full justice had been done the good things provided, one solitary pound of choice dairy butter remained, which disappeared as mysteriously as the pea under the hat in the hands of Wizard Hermann.

High School Re-Opens Tuesday, Sept. 6th

The Board of Trustees of our High School beg to inform the public that the school will re open for tuition on Tuesday next, September 6th, with Mr. W. G. Spencer, B. A., as Principal, and Miss Margaret McCoy, B. A. and Miss Margaret McDonald as assistant teachers.

Mr. Spencer and Miss McDonald come to our school with splendid testimonials, and with Miss McCoy, who has been on the staff for some months, the Board feel sure that they have a staff of teachers who will do good work and build up a reputation for our school such as it has held in former years.

Accommodation has been secured in the new Public School and the desks have been placed in position, science tables installed with water supply connections and other improvements carried out which will make conditions vastly different than in times past for the pupils.

By an amendment to the High School Act, passed at the last session of the Legislature, all school fees are abolished for pupils resident in the High School District, and this along with the generally recognized advantages of an education should be an incentive to parents to give their children two or more years tuition in a High school.

The Board hopes that many of our rising girls and boys will avail themselves of the privileges that are within easy access and thus materially enhance their chances for a useful and successful life, to come prepared to study and to be subject to the school discipline, and some day in the future when they have won their laurels will be a proud day for them.

Every member of the Board is prepared to co-operate with the teachers and pupils and do everything possible to make the "old school" hum once more.

W. R. Flatt, Chairman
 Wm. Attridge, Sec.-Treas.

Base Ball

Waterdown Juniors demonstrated their ability on Saturday by defeating Flamboro Centre on their own grounds by the score of 9 to 7, thereby making the race for the League leadership close and exciting. Poor base running on the part of Flamboro Centre attributed much to their defeat, having 3 men on bases at different times, Waterdown's infield throwing them out at the plate. Both pitchers, Arnold and Baker, pitched great ball.

Tansley again put it over Carlisle by the score of 15 to 10.
