When the expedition of which Mr Vyner Brooke was a member started June 10, it was composed of 815 boats. By June 14 the flotilla was reduced to forty boats. By June 19 over a thousand deaths from cholera had occurred, and hundreds were ill. The intensely hot weather favored the rapid progress of the disease. The remnants of the expedition, however, successfully fought the head hunters, and, including Mr. Vyner Brooke, returned safely to Singapore.

Diavolo's Great Act of Looping Interesting Information.

"An enumeration of the chances that men take with death in order to entertain the great amusement loving public, would be very incomplete without the addition of that latest and greatest sensation, viz., the looping of the loop on a bicycle," said Mr H. A. Daniels, one of the agents of the Forepaugh-Sells Circus, which is scheduled to show here in a few days Mr. Daniels gave some very interesting statistics concerning this great act, which he declares is "the greastest sensation ever presented anywhere, at any time."
