

Clark Leads by 100 on First Vote After Session Lasting All Night

Expect Long, Hard Fight
for Democratic Nomination at Baltimore

WILSON IS NEXT
TO THE LEADER

Convention Adjourned
After the First Ballot
Until Afternoon.

Baltimore, June 28.—The official result of the first ballot for the Democratic Presidential nomination was:
Clark, 441½; Wilson, 324; Harmon, 148; Underwood, 117½; Marshall, 31; Baldwin, 22; Sevier, of New York, 2.
Necessary to choice—728.
The convention recessed until 4 p. m. after the first ballot.

Baltimore, June 28.—After sitting all through the night, the Democratic National Convention reached the first ballot on the Presidential nomination shortly before 7 o'clock this morning.
There was no choice. In fact, all of the candidates were so far away from the two-thirds vote necessary to nominate that the delegates today looked forward to a long hard fight.
After the first ballot the Convention at 7:15 a. m., took a recess until 4 o'clock this afternoon. In the meantime there will be much studying of the figures on the test vote and many conferences among the leaders.

How the Vote was Divided.

Representative O. W. Underwood of Alabama got 117½ votes. William Jennings Bryan of Nebraska got one vote from the Ohio delegation. Some of his friends had expected that he would receive more scattering votes, but the fact that he did not show any strength on the first ballot did not discourage them. They still felt that in the event of a deadlock, which early today seemed more than probable, Mr. Bryan might be turned to again lead his party in the Presidential race.

Clark and Wilson Hope.

Speaker Clark's vote was less than his managers had been claiming for him, but was about what the other candidates had conceded. The Speaker's adherents were declaring that he would gain as the balloting in the Convention proceeded, and at the same time were busy with their delegates to see there were no defections.

The Wilson people, on the other hand, made claims that now that various instructed delegates had cast their votes on the first ballot in accordance with instructions, they will be free later on to switch to a second choice. They expected to gain greatly in these changes. It had been known for weeks that because of the great number of candidates and "Favorite Sons" in the fight for the nomination, that a selection on the first ballot was entirely out of the question. The voting this morning bore out these expectations to the fullest degree.

It was because the delegates knew the situation was completed that they partly sat through the night listening to many weary hours of oratory and then agreed to a test vote before recessing for sleep.

Before recessing for sleep, prior to renewing the struggle, everyone wanted to know how matters stood, and the roll call gave a definite idea of the preliminary line-up.

New York State's Vote.

The big doubtful quantity in it was the vote of New York. That delegation, at a caucus last night, decided to give its 30 votes to Governor Harmon of Ohio on the first ballot. There probably will be other caucuses in the delegation as the ballot progresses, and there is a chance that the big block of votes may be thrown at the end to Clark, Wilson or some other candidate.

In addition to the renewed talk of a possibility of Mr. Bryan's nomination, there was renewed talk of "dark horses." Most of the delegates, however, seemed content to let the fight run along in the convention, through six or seven ballots, before trying to reach agreements with opposing forces. There seemed today, to be little chance of a stampede. Any attempt to nominate Mr. Bryan would meet with stubborn resistance from some of the Southern states, instructed primarily for Underwood, and held subject to his release, and from the conservative element, including possibly some of the so-called Clark states.

The all-night session of the convention was picturesque in many ways. In all there were about eight hours of oratory and demonstrations. The Clark and Wilson forces were the principal contestants in the struggle, to see which could keep up the cheering longest. The Clark demonstration, the first big one of the evening, lasted one hour and five minutes. The Wilson people, when their turn came, declined to quiet down until after they had passed the Clark record, and added about ten minutes to it.

First Test of Strength.

During both demonstrations many outsiders invaded the delegates' section of the hall. As a rule the delegates listened patiently to the somewhat lengthy nominations and, according to reports, seemed to realize that the oratorical maze was to be threaded before the real work of voting was done, and they greeted the beginning of the first roll call with a

The Leader on the First Vote at Baltimore

CHAMP CLARK.

LOST HIS LIFE TO SAVE COMRADE

Further Particulars of Tragic
Drowning of Trueman in
Northern Ontario.

St. John, June 28.—That J. Douglas Trueman, formerly of this city, who was drowned in the Rainy River District, Ontario, while on a survey expedition for the Dominion Geological Department, lost his life in an effort to save his companion, is indicated by a dispatch received this morning. Dr. R. W. Brock, director of the department, who left for the West as soon as the news of the death was received, wired today from Antikopen further details of the tragedy.
Mr. Trueman was in a canoe with Dr. Walcott, secretary of the Smithsonian Institute, and a young man named Knox, a second year student in Toronto University, who was also an assistant. The canoe was upset while they were running the rapids in Steep Rock River, below Steep Rock Falls. The three men were thrown into the water, and as Dr. Walcott could not swim the young man went to his assistance and helped him to the overturned canoe, to which they clung. Trueman thinking the combined weight was too much for the frail craft, started to swim to the shore to summon assistance. He was strongly swimming, when suddenly his companions heard him cry for help. Knox started to his assistance, but before he could reach him, Trueman had sunk.
The tragedy occurred in thirty fathoms of swift water and from the conditions there Dr. Brock fears that the body will not be recovered for perhaps a week.

Held Picnic for Baseball Players.
An enjoyable picnic was held yesterday afternoon at the Hermitage in honor of the players of the Fredericton Baseball Club, there being about forty present. Games were enjoyed and supper was served. Among those who helped make the afternoon a success were the Misses Minnie Parker, Ethel Moore, Thelma Walker, Evelyn Roberts and Robina Co-well.

French Village Picnic July 1st.—a

whoop. The test vote was carried on with great rapidity and little or no confusion. The galleries were all but forsaken. Strangely enough, the women seemed to outnumber the men among the spectators who had spent the night at the hall, and were also much more keenly interested in the proceedings. Two or three of them collapsed. Men were asleep in groups. It required half an hour to call the roll and figure the result. Then came the motion to recess, and it was carried despite the throaty protests of some delegates, who were ready to go on with the ballot to the bitter end. The session over, the big hall was emptied in a few minutes.

SWINDLER CAUGHT THROUGH WOMAN

New York Detectives Arrest
Alleged Head of Band
in London Hotel.

London, June 28.—Nicholas P. Arnstein, who has been sought by the New York police since January last to answer an indictment charging him with grand larceny to the extent of \$54,000, was arrested here today by Scotland Yard detectives on a charge made by Detective Lieutenants Bernard Flood and James Riley, of the New York police force.
The arrest of Arnstein was due to the presence here of Jeanne McCormick, who when she engaged apartments at the Carlton Hotel on Saturday was recognized by Lieutenant Flood. This morning as the detectives watched the hotel during a heavy rainstorm the woman emerged and entered a taxicab. Flood and Riley and the Scotland Yard men followed in a taxicab to a small hotel in Kensington, where they found and arrested Arnstein. He denied his identity, but a scar on his body and the fact that his clothing was marked with an initial "A" convinced the detectives that they had the right man. Later the woman broke down and admitted that she had come here to join Arnstein.
Arnstein will be arraigned at Bow Street Police Court for extradition tomorrow.
Superintendent Frost, of Scotland Yard, tonight praised Flood and Riley for their brilliant work, saying his own men had been looking vainly for Arnstein.

UNION JACK IS NATIONAL FLAG.

London, June 28.—As a consequence of the controversy as to the national flag in Canada the Colonial Secretary has addressed a despatch to the Duke of Connaught stating that only the Union Jack should be flown on land by all British subjects.

At the Police Court.
Two drunks appeared before Col. Marsh in the police court this morning and in default of payment of the fines imposed, went to jail, one for 7 days, the other for 12 days.

CHILD DROWNED AT WINTER PORT

Had Been Rescued Once During
the Day, But Fell in
Again Later.

St. John, June 28.—A sad drowning accident occurred at Indiantown yesterday when the six year old son of J. Clark lost his life. The little chap fell into the water earlier in the day than when he went home he was dry clothes and allowed out on condition that he would not go near the water. He was last seen playing around the wharf and this morning his body was found in the river indicating his sad end. His father who is manager of a local dairy, moved here from the States only a short time ago.
Three prisoners before Judge Forbes under the Speedy Trials Act this morning, all received heavy sentences in Dorchester. Arnold Reid, seventeen years old, charged with stealing a box of chocolates, was given five years hard labor, chiefly on account of previous bad record. James Walsh, charged with theft of gold watch, was given two years. George Wadman, aged 74, a married man, was given the same term for indecent assault on a fifteen year old girl.
The Fredericton baseball team meets the Marathons here this afternoon under ideal weather conditions. The pitchers will be Brown and Tarbell. Chick Fraser, who was with the Greeks last year, arrived today and will be seen today on second base. Winkler, the new pitcher from Saranac Lake, who got lost on the way and turned up at St. John, Que., also arrived today.
A young man named Givrey, aged 28 years, attempted suicide this morning by jumping off the wharf at foot of Queen street into Courtney Bay. He was rescued and taken to the hospital where efforts are being made to save his life. Despondency over a love affair is given as the cause.

THE EXTENSION OF I. C. R. IN ONTARIO

Ottawa, June 28.—At the Department of Railways and Canals an authoritative denial is given to the story that agents of the Government are spying out a route for the extension of the I. C. R. through Ontario. Hon. Frank Cochrane, Minister of Railways, its not in the Capital, but it was stated at the department that no plans have been made for the extension of the I. C. R. as yet, although such may possibly be considered some time later on.

Miss Mabel E. Clouston, of Derby, is the guest of Mrs. James Burnett, Queen street.

A SUFFRAGETTE SHOOK ASQUITH AT A RECEPTION

The British Premier Was
Breathless When Rescued
by Male Friends.

WOMAN HURLED
DOWN THE STAIRS

New Campaign to Smash the
Post Office Windows Has
Been Inaugurated.

London, June 28.—A general campaign of destruction in the post offices throughout the country was inaugurated today by the suffragettes. They smashed the windows of the central post office and in the same city shattered those of the Reform Club. Some of the London branch offices and also those at Hitchin and Leithworth were raided. A number of women were arrested and at the police station announced that their action today was the beginning of a plan to smash the windows of every post office in England.

Premier Asquith was subjected to another assault last evening while he was attending a reception. A woman whose identity has not yet been divulged, caught him by the lapels of his coat and shook him vigorously, until the Premier was breathless. The two men among the guests present caught Mr. Asquith's assailant and hurled her down the stairs. The struggle was so violent that a sleeve came off the suffragette's dress, her comb fell out of her hair, her gold watch was broken, and she lost her diamond brooch.

EXPRESS COMPANY MAKING CHANGES

Montreal, June 28.—The approaching retirement of J. A. Boswell, as superintendent of the eastern division of the Dominion "Express" Co., after fifty-two years connection with the express business, will result in the Montreal office of that division being done away and the work of the department being attached to the office of J. J. Murray, at Toronto.

Mr. Murray has been superintendent of the Southern division and that title will now be done away with, and the Southern division and the eastern division territory be combined together under the name of the Eastern division. This practically means that all Ontario will be under his jurisdiction, while V. G. H. Vickers, superintendent of the Atlantic division with headquarters at Montreal, will have charge of the Maritime Provinces and Quebec.

INVITE THE DUKE TO VISIT CHICAGO

Chicago, June 28.—The Duke of Connaught, Governor General of Canada, is to be invited by a delegation of the Chicago Association of Commerce to visit Chicago this summer to investigate the business methods of the city.

AT MARYSVILLE.

Knights of Pythias to Have Church
Parade—Notes of Personal
Interest.

Marysville, June 28.—The many friends of Miss Helen Dunbar will be pleased to hear that she is improving nicely after an operation a few days ago.

Mrs. Coach, who has been visiting her parents, Mr. and Mrs. Elias White, has returned home.
Mr. Trueman Nason and family, who have lived several years in Marysville, moved to Bloomfield, Kings Co., yesterday, where Mr. Nason has bought a farm.
The ice cream social on the lawn at the residence of Mr. Thomas McDowell last evening under the auspices of the Main Street United Baptist Church, was a very enjoyable affair. Excellent music was furnished by the orchestra in connection with the church, which was a pleasing feature of the evening's function. Home made candy, as well as ice cream, was sold and a fairly good sum realized.

At the regular meeting of Marysville Lodge, No. 18, K. of P., held at Castle Hall last evening, it was decided that the members turn out with Marshall Co., No. 9, to attend service at the Olivet Baptist Church on Sunday morning, July 7th, at which time the church is to be reopened, after being closed for six weeks for repairs.

PERSONAL

Hon. John Morrissey, of Newcastle, N. B., Minister of Public Works, of New Brunswick, is in the city for a few days and is a guest at the Queen Hotel.—Montreal Witness.
Mrs. F. F. Day, of Fredericton, is expected here tonight to visit her parents, Mr. and Mrs. John H. Killam, Yarmouth Times.
Mr. James Robinson, ex-M. P. of Miramichi, is at the Barker House. Mr. Geo. F. Payne recently returned from a trip to Woodstock.

Has Monopoly in Wireless System

Great Britain to Build Six Great Wireless Stations, which with the Glace Bay Station will Stretch Around the Globe—Marconi Company to Receive \$3,500,000 for Installing Stations, which Are to be Fortified—Wireless Convention up Against a Snag.

New York, June 28.—A London cable says: The wireless convention now in session here, which has found its great difficulty to lie in dealing with wireless telegraphy as a commercial agent, has at last learned some particulars of the agreement between the Marconi Company and the British Government. England, like other European countries, regards wireless as a great instrument of war, and the arrangement with the Marconi company has been made with this as the leading thought.

It provides that the British Government supply the Marconi Company with \$3,000,000, with which to build five great wireless stations, Australia to supply \$500,000 for another station, the six to form a wireless circle around the globe at nine points. One station is to be in England, one in Australia, one in India and a fourth at Port Said. The other two, it is presumed, will be in South Africa and Hong Kong. There is already a station at Glace Bay, installed by the Marconi Company across the Dominion of Canada. It is estimated that if the work is begun immediately the stations will be finished in a year, and England will

then have a circulate of communication around the earth, independent of cables.

Each station is to be built as a fortress, capable of successful defence, and while the stations are to be built by the Marconi Company, they will be the property of the Government. When completed and ready for service, the Marconi interest ceases. The \$3,000,000 supplied by the government will pay only for the wireless installation. The grounds, the buildings and everything except what relates solely to communication, will be furnished by the Government.

The British Government owns all the country's telegraph and telephone systems and will now also own its own round-the-world communication. This is the reason—the Government monopoly—that the wireless convention still finds itself helpless to make rules and regulations for commercial wireless. It was believed that a knowledge of the provisions of the British Government's agreement with the Marconi Company would simplify the question of commercial rules, but despite this still appears that the convention will adjourn with nothing done to regulate commercially the wireless business.

Inspector Meagher Elected To the University Senate

Chosen as Representative of Educational Institute at this Mornings' Session—The Executive Elected Today—Generous Aid Given to Afflicted Veteran of Teaching Profession.

At the opening of the Educational Institute today the nominating committee reported the following names, ten of whom are to be elected members of the Executive Committee:—
H. S. Bridges, St. John.
G. J. Oulton, Moncton.
W. T. Denham, Richibucto.
B. C. Foster, Fredericton.
Ruth Thurber, Sussex.
L. R. Hetherington, Newcastle.
C. D. Richards, Woodstock.
J. F. Alexander, Fredericton Junction.
P. G. McFarlane, St. Stephen.
A. R. Stiles, Riverview, A. Co.
W. J. S. Myles, St. John.
H. H. Hagerman, Fredericton.
W. A. Cowperthwaite, Moncton.
Mary Graham, Millville.
Miss B. A. Wilson, St. John.
Joseph Harrington, St. John.
R. G. Mitchell, Chatham.
James Hughes, Fredericton.
Edna Golding, Fredericton.
The following were elected: H. H. Hagerman, H. S. Bridges, G. J. Oulton, Ruth Thurber, J. F. Alexander, P. G. McFarlane, Edna Golding, J. A. Starrack, W. J. S. Myles and B. C. Foster.
Senate Representative Chosen.
Dr. H. V. B. Bridges nominated Inspector Meagher for representative to the University Senate of New Brunswick. There being no further nominations he was declared elected.
Dr. Carleton took the opportunity of highly commending the excellent work of the last representative from the Institute to the Senate, W. J. S. Myles, of St. John, and called on Mr. Myles to give an informal report of his work, and also gave Inspector Meagher an opportunity of addressing the Institute. They both as well as Dr. Bridges and Dr. Carleton, pressed themselves in favor of changing the conditions so that this position would be open to any member of the Institute and not be limited, as now, to the graduates of the U. N. B. Hamilton addressed the Institute in behalf of the Summer School of Science.
Contributions for Afflicted Teachers.
On the suggestion of Miss Stella Payson, a contribution from the members was taken for a teacher who on account of age was in rather straitened circumstances, but who was not qualified for the pension. The contribution amounted to \$125. This was a striking and somewhat dramatic interruption to the regular programme.
The lady belongs in Inspector Meagher's district. Mr. Meagher and R. E. Estabrooks thanked the Institute and assured the members that the gift would be accepted as an appreciation of the members for one who by ill health is unable to continue in her profession.
Primary Educational System.
The Montessori System of Primary Education was described and its beneficial features explained. The principle is education through the senses with proper didactic apparatus. The child consists of two parts, the body and soul, and there is a material form of development, and this method should be followed and not prevented by the teacher. In fact, the word director is more appropriate than teacher. The didactic apparatus is an essential feature of this system, and opportunities of securing these are afforded teachers.

This system is the first and only one that has been developed by a woman.

Among Those Present.

The following are additions to yesterday's list of teachers attending the Institute:—
Daisy B. Ramsay, Kirkwood.
Alma L. Rankin, Canterbury Sta.
Susie M. Ray, Woodstock Road.
Emma J. Reed, Sackville.
Alice M. Reed, Port Elgin.
Isabel Reid, St. John.
Gertrude E. Reid, Stanley.
Frances C. Reid, Fredericton.
Annie I. Rice, Greenville.
Chas. D. Richards, Woodstock.
Grace E. Robinson, Upper Woodstock.
Annie G. Robinson, Jeffries.
E. A. Iddella Robinson, Watford.
Edna Robinson, Plumwood.
Miss Nettie B. Robinson, Mt. Middleton.
Margaret Y. Ross, Taymouth.
Annie E. Robinson, Prince William.
I. R. Routh, Carleton Hill.
Grace O. Russell, Millerton.
M. F. H. Rutledge, Oromocto.
Maile H. Ryan, Petitcodiac.
Geo. A. Ryan, Moncton.
G. R. Ryder, Parker's Ridge.

SPEAKER'S CHAIR BECOMES HEIRLOOM

Ottawa, June 28.—In accordance with the long established practice, the chair occupied by Hon. Chas. Macell, Speaker of the House of Commons during the last term of the Laurier regime, has been sent to the ex-Speaker and will in future adorn his house in Montreal and become a family heirloom. Hon. Dr. Sproule the present Speaker, made use of the chair during the recent session of Parliament, but when the House meets again he will occupy a new chair, which arrived in Ottawa this morning and was delivered at the House of Commons. The chair, which is of particularly handsome design and workmanship, will at the end of the present parliament become the personal property of Speaker Sproule.

Mill Property Sold.

Mr. J. Bennett Hickey, of Bathurst, has bought the large shingle mill at Bathurst, together with the rigans to cut cedar over certain properties, and a large block of timber land for the sum of \$17,000. The property, which was disposed of at public auction in front of the Court House, Bathurst, on Wednesday, was put up in two lots. The first consisted of the twelve machine shingle mill, fully equipped with the most modern machinery, and the right to cut all the cedar on 500 square miles of government lands. This brought \$16,000. The second lot sold consisted of 144 square miles of timber lands on which the Nipisiguit Lumber Co. had paid \$20,000 of the purchase price of \$40,000. This realized \$1,600.

An Inspection Tour.

Indian Agent N. J. Smith left today for Woodstock to visit the reserve there on his monthly inspection tour.
