lished, of the attempted assassination of the King of Italy have been received. It appear-ed that the King in some degree owed his life to the fact that he wore under his unirm a thick wastcoat made of English cloth broke the force of the blow that although skin was bruised it was not actually cut This interesting fact ought to lead to an increased demand for English cloth in Italy.

Two important points in African discovery -namely, whether Mr. Stanley's Beatrice Gulf is an arm of the Albert Nyanza, or ar map, and whether there is direct commun cation through a chain of swamps between the Albert and Victoria lakes, are likely soon to be settled, as the Church Missionary ciety have finally resolved upon despatching an expedition to the south-western end of the Albert Myanza, and it has been pro-

A ridiculous telegram has appeared i Several American journals, dated from Ottawa, to the effect that Col. McNeill has been ordered to return to England in con-sequence of the order in connection with dresses and medical certificates issued in Montreal. There is not a particle of truth it the statement. Col. McNeill returns to Eng-land to resume his duties as equerry to her Majesty, having fulfilled the special com-mission entrusted to him of seeing her Royal Highness the Princess Louise established in

A communication from the Admiralty de clares that there is no truth whatever in the report of an interview with the Duke of Edinburgh while at Halifax, published re-cently in a New York journal, in which his Royal Highness is made to say that he looked upon the author of England's new peace-with-honour policy with feelings of the utmoet diagust; that the acquisition of Cyprus was in no sense a gain, and that the 101st there, and had lost a great many men in con-

General Kozloff has caused quite a sense

The Bishop of Norwich was in a somewhat comical strait the other day. He set his palace at the disposal of the sufferers from the recent floods in that city. One of the refugees turned out to be an old woman who had been bedridden for twenty years; and when the waters had subsided and it was time to send her home, it was found she did not know wher she lived, nor whence she came: the old creature stating also she had neither friends nor relations in the world.

Thus, as the workhouse was full, in common that the common t not know where she lived, nor whence she came: the old creature stating also she had neither friends nor relations in the world. Thus, as the workhouse was full, in common with all other converient receptacles of the kind, the worldy Bishop could do nething else than lodge and accommodate the dame in the place, and for anyth famour as the Bishop's guest.

The pupic schools have been closed for the two who were nursed on the spot, in the two who were nursed on the spot, in the two who were nursed on the spot, in the two who were nursed on the spot, in the charge and the other converting with all other convenient receptacles of the kind, the worldy Bishop could do nething else than lodge and accommodate the dame in the place, and for anyth famour as the Bishop's guest.

The pupic schools have been closed for trople. Cottage Sanatorium, with ample staff of over the Thin schampionship course, and the other convenient spot, in the Christmas vacation, which will extend to the Christmas vacation, which they will be the Christmas vacation, which they over a side each match, in from three to six may be counted in a thickness of 4,515 feet. The age of the trees is proved by their size, some being four feet in diameter on the common with all other convenient receptacles of the kind, the worldy Bishop could do nething else than lodge and accommodate the dame the common with all other convenient receptacles of the trees is proved by their size, some being four feet in diameter on the common with all other convenient receptacles of the two who were nursed on the chi

A Prophecy Revived.

A whip with ten lashes and buckshot in he end of each is used on the refractory innates of the Indiana state prison.

It costs the people of Great Britain \$13, 5000 per year to support and maintain the yould family.

The General was also buckshot in the end of each is used on the refractory innates of the Indiana state prison.

Every year furnishes additional proofs that Manitoba and the Red River Valley dis-trict will ultimately become one of the greatest wheat growing sections of the earth. The crops grown in the Red River Valley this year amount to about three million bushels, while the land broken and ready for crops next spring, is over three hundred thousand acres, and should produce upwards of five million bushels of wheat. This is the country for exensive farms. At one of these, 3,500 acres extent, 42,000 bushels of wheat and 9,000 bushels of other cereals were harvested last season, the machinery used comprising forty ploughs, sixteen seeders, forty har sixteen harvesters, three steam threshers and three portable engines. Another farm conains 6,000 acres, of which 5,600 are ready to be sown with wheat next spring. The largest farm in the valley contains 39,000 acres, having a frontage of four miles on Red River. Over 4,000 acres were in crop this year, and prod leed 100,000 bushels of cereals, two thousand bushels of potatoes and twelve nundred tons of bay. Both in Manitoba and

Dakotah increased attention is being given of th to stock raising.

The Edmunds Bill which has passed the United States Senate is framed with a view The Agriculturist.
