

WHO IS MRS WINSLOW?

As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has unflinchingly devoted her time and talents as a female physician and nurse, especially among children. She has very carefully studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic, gives rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs Winslow has immortalized her name by this invaluable article, and we sincerely believe that thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and write in calling her blessed. No mother has a higher duty than to her suffering little one, in our opinion, until she has given it the benefit of Mrs Winslow's Soothing Syrup. Try it, mothers—try it now.—Ladies' Visitor, New York City. Sold by all druggists. 25 cents a bottle.

Brown's Household Panacea.

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood, whether taken internally or applied externally, and thereby more certainly RELIEVE RHEUMATISM, chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation. It cures pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, and ALL ACHES.

THE GREAT RELIEVER OF PAIN.

"Brown's Household Panacea" should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will BREAK UP A COLD. Twenty-five cents a bottle.

MUCH SICKNESS.

Undoubtedly with children, attributed to other causes, is occasioned by Brown's Vermifuge Compound, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and is most absolutely sure in eradicating worms, so hurtful to children. Twenty-five cents a box.

DELICATE WOMEN, Palefaced, Sickly Children, the Aged and Infirm, alike are benefited by the Strengthening and Blood Making Power of Dr. Hamilton's Quinine Wine and Iron.

"It stimulates the circulation, improves the Appetite; and removes all impurities from the Blood. It is the best medicine you can take to give you lasting Strength."

THE HORRIBLE, UNSIGHTLY, BLOTCH, AND PIMPLES, and the SALLOW, COLORLESS COMPLEXION can be QUICKLY and EFFECTUALLY replaced, by a CLEAR HEALTHY SKIN. The remedy is CERTAIN and EASILY PROCURED, and is simply "Hamilton's Quinine Wine and Iron," taken according to directions. Try one bottle and be convinced. Price 50 cents per bottle; 6 for \$2.50. For sale by all druggists.

Local Matters.

Trainer.

We will print your letter in our next—probably.

In Tow.

The "Ada G." had this morning in tow a very large raft from the Douglas Boom bound for St. John.

Leg Broken.

Mr Sam McEnight was brought down yesterday from Grand Falls, with a broken leg. The accident happened driving logs above the Falls.

Billiard Hall.

By reference to our advertising columns it will be seen that Messrs Howard & Crangle intend business. They have placed in their rooms a first-class billiard table and also a pool table, and any person wishing to spend a few hours pleasantly might give them a call.

Insane of Study.

It cannot be a great incentive to academic and poetical pursuits for the student teacher who posted on the fence surrounding the Normal School as he enters every morning, such touching literary contributions from the city auctioneer as these:—

"Their will be sold to-morrow, 4 quadrants, 2 second-hand stoves, damaged furniture—sell low for cash."

Also a quantity of empty four barrels, etc. Nevertheless these incentives do exist on the said fence.

STAR BRIEFS.

The melodious hurdy-gurdies have arrived.

Owing to the sudden rise of the water, logs are coming down in great quantities.

There are some dangerous holes in the sidewalk on Queen Street, especially that one at the corner of York Street.

Road Master Grieves is to be congratulated on the improvement he has made at the corner of King and Regent Streets—it will be a special treat to the Water Street men.

The City Treasurer has issued his notices calling on the ratepayers for their taxes.

As will be seen by our Advertising columns our Gibson Correspondent made a mistake in last issue: he meant W. R., instead of P. A. Logan.

Horse Notes.

Those in Fredericton interested in breeding trotting horses will be glad to learn that Mr. Daniel McEvoy of St. John is about having his trotting Stallion "Flying Dutchman" here for the present season.

Mr. McEvoy intends standing his horse in Fredericton and vicinity and will have him fully advertised in a few days, and so those owning "milked" pedigree will be able to see that "Dutchman" traces to some of the best trotting blood in existence and it is also plain that he is himself a trotter.

"Flying Dutchman" seal brown stallion, seal black points and white strip in the face, foaled 1871, height 16 hands, weight 975 lbs.

"Flying Dutchman" was by "Black Dutchman" he by "Double-Old Black Bashaw" he by "Young Bashaw" by "Imported Grand Bashaw" (Arabian).

His dam was the thorough-bred mare "Phoebe".

"Black Dutchman's" dam was by "Dutchman" he by "Abdullah" he by "Mambino" by "Massenger".

"Flying Dutchman" has a record of 2.41 made in Amherst, N. S., half mile track in the Fall of 1871.

In the Fall of 1870, Mr. McEvoy took him to Boston where he showed a trial in 2.33 and repeated it in 2.30, being driven by C. W. Bell.

A "Star" Representative Up River.

HIS INTERVIEW WITH MR W. C. WATSON PROPRIETOR OF THE OLD PUMPELLE PROPERTY—A FORTUNE ON THE ESTATE—A PROPOSED BRANCH RAILROAD.

The Shaw Brothers' New Establishment, &c.

A travelling STAR representative called yesterday upon Mr W. C. Watson who some time ago purchased the Pumpelle property. Mr Watson is a native of Spencer, Massachusetts, where he had been a dealer in manufactured lumber.

Last summer he purchased the Pumpelle property at Shogomoc, which had cost Pumpelle \$40,000. The representative asked Mr Watson: "What are your expectations here?"

"I believe that this property I have a fortune in my hands. The past winter I put in 1,000,000 feet of logs into the mill pond, hauling them rather than submit to the risks attending the 'drive'."

Next winter I propose putting in at least 4,000,000 feet. I never need anticipate trouble here for sawing, because the water power is the best in the Province. Above the property the Shogomoc forms a chain of lakes, the water in which, in dry seasons, we can hold in reserve by damming, letting it down as we require it."

"I am making improvements here every day, and propose putting in a new gang saw and two shingle machines. I employed here the past winter 16 horses and 60 men; next winter I shall employ more than double that number."

"Will you do much here in the hemlock bark line?"

"Yes. We commence peeling next week, and propose getting 200 cords. The logs from which we get this bark we will haul to mill next year."

"After the bark season is ended what then?"

"The hemlock season ends here about August. After that we go raising pines. This pine which consists of numbers of fallen trees, grows on the granite region, and is the very best in the Province. This lumber takes a fine finish and will dispose of it chiefly for doors, sashes, &c."

"Where do you expect to find a market for your hemlock?"

"I have been down to Fredericton and have engaged schooners to take my manufactured lumber to Spencer. I have a large contract with Isaac Prout & Co. of that town, also a large contract with Chas. Herrington & Co. of the same place, all for hemlock plank. I may say that my firm represents over a million dollars cash. I expect to do a market for hemlock boards for finishing in Boston, the wood is of such a superior quality."

"It is somewhat inconvenient for you to do much of your work here?"

"Well, I can manage that. Besides there is a railway projected from Harvey station to the Antimony mines, thence to Shaw Brothers, further north on the river bank. I may say, the road once built to it, I would finish it myself to my own property."

SHOGOMOC.

The Shogomoc at this season our representative is just emerging from its winter's sleep. There are about a dozen houses there, and the largest Mr. Watson is painting and papering for the reception of his family who will come on in a few months. Mr. Watson says that the scenery about the lakes is charming, and he intends putting on a number of sail boats; that a large number of his friends will visit him this summer for fishing and sailing.

The representative then bade Mr. Watson good bye and that gentleman cordially invited him up when the trees are leaved out, and the trout takes the bait.

SHAW BROTHERS.

Our Representative visited the site of the Shaw Bros. Establishment, situated a mile below Pokok in Dumfries. There are several hundred cords of bark piled along the river's bank, and men were on the spot busy preparing for putting up the buildings. Material is arriving on the ground every day. The point of the old farm is now called Shaw's Landing.

LIME STONE DISCOVERIES.

Lime stone in large quantities has been discovered at Pindar's Mill; and Mr. H. Stairs has built a kiln, and supplies the lime for all building purposes round about.

Christian Peterson's return from Old Denmark.

THE EMIGRANTS HE BRINGS AND THOSE TO FOLLOW.

On the 9th of last February, Mr. Christian Peterson, of New Denmark, left this Province for Denmark, his trip being partially in the interests of emigration to the Colony in Victoria County, N. B., and also a visit among his friends.

Mr. Peterson passed through Fredericton yesterday on his return to New Denmark. He brought with him two young men and a family consisting of a man and wife, and two children. These left for the settlement with Mr. Peterson.

But this has not been the full result of his mission. He says during the summer about two hundred immigrants will arrive here, and that several of them are on the way by this time. The class of immigrants whom he intends to advertise their houses and properties for sale, are farmers, millmen, and mechanics; and all live in Copenhagen. Several could not get the money or they would have come on with Mr. Peterson; and very many had their properties advertised for sale.

The emigrants came by steamer from Copenhagen out the Categat, the Skager-Back, thence by the North Sea to Hull, where they take another line of steamers to Liverpool, taking to various points in the New World. All those for the Lower Provinces disembark at Halifax, and those for the Upper at Quebec.

The emigrants took up yesterday by Mr. Peterson will be lodged in the Emigrant House which they are provided with here. There are two Emigrant Houses in the Settlement, and it would seem they are destined to be well occupied through the summer.

Ranaway.

On Thursday last Mr. R. A. Eady left his horses standing at the Victoria mill; but while his back was turned they took flight, ran away, and made a complete smash-up on the wagon.

Erratum.

In reporting the remarks of Dr. Rand at the opening of the Normal School, we inadvertently made it state that there are 7,300 third-class teachers in the Province. For 7,300 read "upwards of 300."

Indian Legends of the Saint John River.

A "STAR" REPORTER INTERVIEWS GABE, WHO HAS A FUND OF INDIAN LEGENDS ON HAND.

HE TELLS HOW THE MILICITES OUTWITTED THE MOHAWKS UP RIVER IN THE LONG AGO.

A VERY INTERESTING STORY.

Our Reporter has just returned from the Indian camps on the banks of the river just opposite the city. He had a lengthy talk with Gabriel the distinguished Sachem of the remnant Milicite, and has much of interest to relate in this and future issues.

Gabriel's memory is excellent and he seems to live in the long ago, delighting to tell the exploits of his tribe when their wild war-whoop was dreaded wherever heard. The Indians are naturally taciturn, yet the stories of olden times arouse their curiosity and set them gabbling.

Gabe has many books and is a careful preserver of traditions; but, different from the rest, he delights to tell his legends to the "white faces," while the rest prefer to talk and tell them in their own weird melancholy language. The story we are now relating, is well accounted for in history, but Gabe says, "Books lie, and he tells truth," that this legend is "truer than any book story." The reporter does not give Gabriel's own name, although it is not accounted for in history, but Gabe says, "Books lie, and he tells truth," that this legend is "truer than any book story." The reporter does not give Gabriel's own name, although it is not accounted for in history, but Gabe says, "Books lie, and he tells truth," that this legend is "truer than any book story."

The Miramichi Drives.

LATEST NEWS FROM THE RIVER.

Knowing the pecuniary interest which many of the river drivers have in the Miramichi, we have been some pains to ascertain from reliable sources the state of affairs as regards this matter.

The drive on Beaulieu Brook, a large branch of the North River, is now in progress. The ice in this Brook is late in breaking up and some fears are entertained that the event may not be so successful as the Messrs Fairly, may not come out.

Mokiel Brook, on which Mr. T. Lynch operated, has not been heard from.

The logs are all out of Burnt Hill Brook, Clearwater Stream, Rocky Brook, the Sisters and Le Sueur. The Salmon Brook Drive is not quite out but is considered safe.

The Taxis drive which is large will be out by the 15th of May, by Monday night at the furthest.

Little Dunganover drive owned by Justus Fairly, Esq., is in the boom, and the Big Dunganover drive is below the Lower Falls and sure to come.

The logs are all out of the commencement of river driving the logs were thrown out of the streams and left on the banks which will necessitate a good deal of seeking them out; but on the whole the river driving on the South West Miramichi will be done at a cheaper rate this year than is usually the case.

Fred Moore's drive 5,000,000 on Aroostook, Presque Isle is "hung up" without hope.

The Aroostook logs are nearly all out, and have been running past Fredericton the last two days.

REV. MR MITCHELL BEFORE THE PRESBYTERIAN INQUIRERS.

We are quite ignorant of Presbyterian Church government, and therefore do not know how that august body tries its defecting members. No doubt the more churches are reformed and changed the better they are and in this connection the trial of a man without allowing him to examine his prosecutors is a most unreasonable and unjust proceeding. It is a mode of holy inquisition that, according to pious Scotch Presbyterians, we had been ever since the days of the Reformation. It is a mode of holy inquisition that, according to pious Scotch Presbyterians, we had been ever since the days of the Reformation.

It appears that Mr Mitchell fell heir to a large fortune, but instead of being in cash, he thought it turned out to be in land, not in money, and he was obliged to sell it. This seems to have been the cause of all his little difficulties. To him it has been a very heavy cross, and he has been obliged to sell his property not immediately productive on the one side, and a great grasping, hungry creditor on the other. Suspicion gives the spur to covetousness of loss, and the result is legal proceedings.

Perhaps it is a crime against the laws of the church to be debtors. If so, there must be quite a respectable number of criminals. Many of the most righteous have just been sent to the workhouse, and it was to uphold the purity of the church.

It must be a great comfort to Mr Mitchell to know that his brethren are about his reputation, how they have left no locker unturned, no story how the dogs which they were to keep their dogs to place him steadily in moral equilibrium; and how he must rejoice that after all this tempest in a teapot they pattingly pat him on the head and shake him by the hand, telling him they were entirely mistaken, that he is a jolly good fellow, and his only fault is in not being a better man than he is.

Four miles from the mouth of the Clearwater a large tributary of the Southwest Miramichi is a fall called Burnt Falls, where the river pitches six feet at one leap and about twenty feet in the distance of twenty feet. Below this the river is not more than twenty feet wide.

On Tuesday last Mr. Henry Turnbull's boat, which carried three falls, and his two baggage skiffs with two men each, loaded with cooking utensils, food, tents and baggage, were dropped down by the men to the head of the pitch, where they intended to take them out of the water and carry them around the falls. Owing to the current the boat was being much more powerful than the boatmen thought it was, both skiffs were in a moment sucked over the falls, and the men thrown into the flood, which was boiling white with foam. The boats were washed to pieces in a moment, provisions and baggage borne away, but strange to say the men were carried over the falls and through the gorge in safety.

Some of the five-drivers who were standing on the bar below and who had witnessed the mishap, waded out into the brook and caught hold of their comrades as the current bore them by and dragged them to the shore. One of these (Andrew McAllister) who had been under the water longer than any of the others, when his hair, ears and eyes being filled with sand, after a while he was brought to and now but little worse of his adventure. The loss in the way of tents and baggage is very considerable.

A meeting of the "Silsby" Engine Co. is called for Monday evening.

The "Alexandra" Company on Thursday evening met and elected officers: J. B. Haworth, Captain; William Lowry, 2d Lieut.; M. Lowry, Foreman of Hoop, and Wm. Sutherland, Secretary.

They have been millions of "diddle heads" eaten by Fredericton the past few days.

LAND FOR SALE

FOR Sale on reasonable terms several FARMS and LOTS of LAND in and near Fredericton. Also, a Valuable Farm near Fredericton Junction, Sanbury County, comprising a large quantity of Intervale land, apply to RAINSFORD & BLACK, Carleton St., Fredericton, Fredericton, Sept. 18, 1879.

WELLAND CANAL.

NOTICE TO MACHINIST CONTRACTORS

SEALED TENDERS addressed to the undersigned (Secretary of Railways and Canals) and endorsed "Tender for Lock, Gages, Welland Canal," will be received at this office until the arrival of the Eastern and Western Mails on THURSDAY, the 5th day of JUNE next, for the construction of Gages, and the necessary machinery connected with them, for the new locks on the Welland Canal.

Plans, Specifications and General Conditions can be seen at this office on and after THURSDAY, the 20th day of MAY, next, where forms of tender can also be obtained.

Parties tendering are expected to provide the special tools necessary for, and to have a practical knowledge of works of this class, and are requested to bear in mind that tenders will not be considered unless strictly in accordance with the printed forms, and—in case of firms—except there are attached the actual signatures, the nature of the occupation and residence of each member of the same; and, further, an accepted bank cheque for a sum equal to \$250, for the gates of each lock, must accompany each tender, which sum shall be forfeited if the party tendering declines entering into contract for the work at the rates and on the terms stated in the offer submitted.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

For the due fulfilment of the contract the party or parties whose tender it is proposed to accept will be notified that their tender is accepted subject to a deposit of five per cent. of the bulk sum of the contract—of which the sum sent in with the tender will be considered a part—to be deposited to the credit of the Receiver General within eight days after the date of the notice.

Ninety per cent. only of the progress estimates will be paid until the completion of the work.

This Department does not, however, bind itself to accept the lowest or any tender.

By Order, F. BRAUN, Secretary.

Dept. of Rys. and Canals, Ottawa, March 29, 1880.

Fredericton, 6th April, 1880.—law June 3.
