YOUR INTEREST TO HIS OWN "

WHY NOT?

Some time ago we pointed out that on the 30th of June last a balance of over 230 thousand dollars remained to the credit of the depositors in the a great and statesmanlike measure Savings Banks at Chatham and Newcastle. If we add to this what his invested in Daminion stock, and in other Government securities we do not think we are far astray in estimating about \$300,000 to be locked up in these investments. The greater small portion five per cent., and a still smaller proportion perhaps six million dollars should be invested in rate of interest is not entirely satis-

to protect native manufactures, is bearing good fruit in other quarters. We need only point to Moncton, with its splendid sugar refinery, and the various other industries about to be started in that enterprising town. The people there do not intend to be of the tariff slip by, and invest their surplus capital at four per cent. Not Moncton alone, but various other towns throughout the Dominion are settling to work, and manufactures of various kinds are being established. The proposed cotton factory on the St. Croix when completed will give employment to as many men as are now engaged in lumbering on that river.

All the while we are doing nothing. Our whole terprise is lumbering. have nothing else to fall back upon and so we are dependent on a foreign market, and have to suit ourselves to the varying demand for our lumber in the United Kingdom.
