WEEKLY REVIEW. WEDNESDAY, Sept. 22. PRODUCE. et, since this day week, has been ngs small of everything except oats; the f prices varying, but the general feelng that of firmness, and values closing at an advance in most instances. New grain has connued to come forward slowly; the chiefreceipts re those of barley on the street. Still, they seem mand for shipment heard, nor is it likely the case of wheat, there will improvement until either prices ned here, or have advanced outside. Stocks show but a slight increase, and stood on Monday morning as follows:—Flour, 250 barrels; wheat, 43,574 bush.; spring wheat, 2,621 bush.; oats, 3,000 bush.; barley, 15,352 bush.; peas, 2,298 bush.; and rye, 400 bush., against on the corresponding date last year, flour, 200 bbls.; fall wheat, 20,037 bush.; spring wheat, 57,687 bush.; oats, 700 bush.; barley, 42,658 bush.; peas, 1,672 bush.; and rye, 1,200 bush. English quotaons shows a rise of 4d. on red winter and of 4d. on corn, with a fail of id. on peas. Markets have been steady during the last three days, with a continental demand for wheat. During last week also markets were firm During last week also markets were firm and tending upwards, an advance of la. 0d. to 2s. 0d. per quarter being reported both in London and in the country. The causes of this advance seem to lie in some damage done in some parts of Scotland by last week's rains; unfavourable threshing reports, and the continental demand. Supplies, however, have consed to be very large. Sales of home-grown theat last week were 178,096 quarters, and imorts were 420,000 quarters of wheat, and 100,000 to 115,000 barrels of flour, making a total supply equal to 659,971 to 662,783 quarters of wheat, gainst a weekly consumption of 454,000 quarters. The quantity of flour and wheat in transit on 16th inst. was 1,325,000 quarters, against 1,913,000 on the 2nd inst., and 1,778,000 on the correspondng date last year. The total quantity of wheat in sight on this continent and in transit for Europe on the 3rd inst. was 35,584,000 bushels, against 39,373,000 last year, and 33,787,000 three weeks ago. Mail advices state that the total net imports of wheat and flour into the United Kingdom during the cereal year just losed (from 1st September, 1879, to 31st August, (880) have amounted to 16,278,755 qrs., against 14,119,236 qrs. last year, while the total deliveries of the home-grown crop in the same period have only totalled up 5.581,994 ars, in the Kingdom, as nearly as can be computed—a miserably low yield even for a wretchedly bad season, knowing now little remains in stock. The advance of last week is not considered as premonitory of a con-tinued advance; and as to future prospects it is said that more accurate knowledge of the yield, and average condition of the home crop are needed before any conclusions can be reached. Continental advices report a marked decline on ill sorts of cereals in French markets, save rye. At Paris the offerings of both native and foreign wheat were large, and as millers bought very autiously, the business done was at a decline on he week. Barley and oats were abundant, but thicult to sell. Flour for consumption gave way in price. The country markets were well supplied with wheat, and indeed with all sorts of grain. The summary showed 3 markets firm on wheat; 17 unchanged; 9 calm; and 47 lower. lies the arrivals of wheat for the week uding August 28th were 55,000 qrs., and the stock docks increased to 32,500 grs. Business as quiet, and prices maintained with difficulty. scept for the finest sorts. The shipments from ssia have been very small, and importers have housed the arrivals thence sooner than them at ruling prices. At Nantes and nk sellers showed more resistence ein and Mecklenburg wheats, weighng 61 lb. to 62 lb. per bush., were selling at 48s. to 6d. per 501 lb., f.o.b. American winter wheat vas held at 47s. 6d.; spring at 41s. 9d. per 504 lb. delivered. At Danzig supplies of homegrown wheat were damp and sprouted, with only a local consumptive demand dvices state that at St. Petersburg there had ess passing in wheat owing to the divergence of buyers' and sellers' views as to value. Rye, on the other hand, was advancing rapidly, and so excited that it was impossible to and so excited that it was impossible to be reliable quotations. Wheat was equally stat the Black sea ports as at the Baltic, but yield in the latter provinces seems to have an much better than that in the south. At same the market was rather easier on wheat, I this was also the case at Pesth; receipts re on the increase at both places, but particulated and barley crops were very fine, and corn of the latter. In Roumania and Bulgaria iteat and barley crops were very fine, and corn of mised well. On this side we find the States arkets to have been quiet, with a declining addency at New York, where the demands sine to have been slack. In the west prices, re varied very little, but receipts have contained to come forward very slowly. The causes this are said to be that farmers are busy with this work, and refuse to sell at present prices, they have got the opinion that there must be a salvance. RYE—Cars wanted at 70 to 72c., but none offered. On the street 70c. is paid.

HAY—Nothing reported in car lots, which seem not wanted. The market has been well supplied, but with none too much. Prices have been steady at \$5.50 to \$12, with all offering wanted. PROVISIONS.

TRADE—Has been less active that before but with a good business doing.

BUTTER—The market has been less active since our last. The demand has fallen off considerably in consequence of unfavourable English advices, which have caused shippers to retire from the market or reduce their bids. Sales of ohnice selections were made in the latter part of last week at 20c, but 19c, was the very best bid beard to-day, and buyers were neither many nor anxious at that; round lots with white out would flot be likely to bring over 17 to 174c, but have been quiet; culls neglected at 12 to 14c. Offerings have been rather on the increase, and the local market better supplied, which facts have tended to assist the week feeling. Street receipts have been large been rather on the increase, and the local market better supplied, which facts have tended to assist the week feeling. Street receipts have been large and prices easier at 20 to 25c per pound rolls, and 19 to 20c for tubs and checks of fine dairy.

CHEESE—Small lots have been selling slowly, and as before at 125 to 12c, but some interior has been in the market at 11 to 114c. A 1 mgc+s011 off Tuesday 5,060 boxes of September mare sold at 13c at 13c, and 13fo.

EGGS—The market has been active with an improved demand in consequence of a shipping movement to the States. Kound lots have risen to 12 to 124c, with all offering wanted. On the street from 13 to 15c, has been paid, the latter for strictly fresh.

PORK—Unchanged; no mess offering, but small lots of prime have sold at \$17.

Bacon—Stocks have now run very low indeed, and are held very firmly, the tendency of prices being still upwards. Cumberland is held to-day at 94 to 94c, for tons and under, and long clear at 104 to 104c. The street have been quiet and carriaged at 64c, for green, and 8c, for smoked long clear sold last week at 11c., but it is now held at 114c. Shoulders have remained unchanged at 64c, for green, and 8c, for smoked and canvased, with a fair demand.

HAMS—Have been quiet and rather easier; a lot of 200 canvassed sold at 114c., and small lots have been selling at 12c; smoked are quoted at 11 to 114c.; pickled remain unchanged at 104 to 104c.

LARD—There is very little of any sort on hand;

GROCERIES.

TRADE—Rather less active but still fairly good. TEA—The previous active enquiry has been maintained; prices have been very firm at our quotations, and still tending upwards, but sales of lines seem to have failen off slightly. First Young Hysons of fine quality have sold at 57c.; good seconds at 42c,, and coarse at 34c, at 35c., and 35ic. Japans have changed hands at 37c. for good new Nagasaki seconus, and at 43c. for good new Nagasaki seconus, and at 43c. for good new Agasaki seconus, and at 43c. for good new Hysons are now held so high that firsts are thought by some to be comparatively the cheapest, sales of lines of firsts have been made at 1s. 5d. to 1s. 8d.; and of fair at 1s. Quotations are as follows, the outside figures being for retailers lots:—Young Hyson, common to fair, 33 to 40c.; Young Hyson, ordinary to choice extra, firsts, 50 to 56c.; Twankays, none: Gunpowder and Imperials, common to good, 33 to 45c.; fine to extra choice, 50 to 30c. Blacks—Congous, 45 to 55c.

Copper and the previous the still change; a couple of GROCERIES.

der and Imperials, common to good, 35 to 55c.; fine to extra choice, 50 to 30c. Blacks—Congous, 30 to 70c.; Souchong, 40 to 55c.; Scented Pekces, 45 to 55c.

COFFEE—Shows but little change; a couple of job-lots of Rio have sold at 17c. and 17ac.; other sorts as before. Quotations are as follows, the outside figures being for retailers lots:—Government Javas, 28 to 31c.; Singapore, 22 to 25c.; Rio, 174 to 21c.

SUGAR—The market has been quiet and prices generally have been rather easiet. Canadian yellows show a decline of 25c. per cental at the factories, and close easier here in consequence with sales of job lots at 74 to 9c. Granulated has been selling at 74c. for dark, and cars have gone off at 85c. for low grade and 94c. for bright. Raws seem to have been inactive; at least there is no jobbing movement reported in them. Quotations are as follows, the outside figures being for retailers lots, and all sugars now being sold at sixty days:—Porto. Rico, per 1b., 74 to 34c.; Barbadoes, 73 to 84c.; Canada refined, 14 to 94c.; ByrUrs—Rhund lots have remained inactive, with no movement reported. Prices are firm. Quotations are as follows:—Common, 52 to 56c.; medium, 55 to 58c.; and choice, 60 to 56c. Suxfarhouse molasses, none; and West India, 37 to 40c. FRUT—Old are almost off the market as stocks are nearly exhausted, and although some receipts of new have come to hand they are very small. The only jobbing movement which we have heard reported in new box-fruit is the sale of 100 boxes of Valencias at 9c., but we should say that this price would not have been accepted to-day, as Denia and Malaga advices by calle this week report advancing markets at both points. Messrs. C. Morand & Co., of Denia, report the crop to be 830,000 boxes short, and Canadian orders not filled. Currants are firm; job lots of last year's crop sold at 51 to 6c. Cable advices from Patras report prices up to 18c. dl. de. 6c. Nuts have sold at 83c. for filberts, and almonds have brought file. Curoatis are file for each of the prices being for re

ags at \$4.05, and in lots of 50 bags at \$4.10, with mall lots \$4.37 to \$4.50.

55c.
Liquors—Are held very firmly in consequence
of expectation of an advance on wines and
urandles, but prices are so far unchanged,
Quotations are as follows:—Pure Jamacis ruin,
16 o. p., \$2.30 to \$2.50; Demerara, \$2.20 to \$2.30;

CATTLE.

TRADE—Has remained generally steady.

Berves—Receipts in the latter part of last week were small but somewhat larger on Tuesday; at the same time, however, an active demand for Montreal set in and cleared off all offering. Prices have been firm all over with the tendency still upwards. The demand for shipping cattle has been maintained, and buyers seem to have been taking rather less choice qualities. Steers averaging not under 1,300 lbs. would still bring \$5.00 to \$5.25, but soarcely any can be had. Second-class, that is light steers and heifers and heavy cows, have been wanted for Montreal, and some few of the finest taken for shipment at advancing prices; the range has been from \$1.00 to \$4.50, with fine steers sometimes bringing \$4.75. Third-class have also sold well and firmer at \$3.25 to \$3.75, according to quality.

SHEEF—The market has shown very little change during the week; offerings have been small, and all taken at prices much as before. First-class have still been taken for shipment when they could be had at prices not exceeding \$4 per cental for lots averaging 140 lbs.; for the local market they have been bringing \$6 to \$6.75 each. Second-class have been more active; all offering have been endury has been more active; all offering have been wanted, and readily taken at firm prices. First-class, dreesing at least 40 lbs., have been steady at \$3.40 to \$3.75, the latter price being for picked. Second-class, in lots dressing from \$3.53, and some inferior lots, chiefly culls, have been usually bringing \$2.37 to \$2.50.

Calves—Have shown scarcely any change; receipts small, but probably sufficient, and prices much as before. First-class, dressing from 100 to 125 lbs., have been easy at \$5 to \$7.50, and dressing from 60 to 95 lbs., rather slow at \$3 to \$5.50. Third-class not wanted at any price.

HIDES, SKINS, AND WOOLS.

Calfskins—There have been few offering and these few have been selling as before.

SHEEPSKINS—No change in prices have occurred during the week; the best green still sell at \$1.00 with a good many offering; dry have been scarce and selling at from 60 to 85c.

Wool—Has remained quiet with buyers and sellers apart; fleece has sold in small lots and on the street at 27c.; but holders generally refuse to accept this price. Super has been quiet but steady, with buyers at 30 to 31c. and extra-super at 33 to 35c. There has been an active demand from the mills for imported wools, and a good deal of these has been sold at steady prices.

TALLOW—Stocks on hand have been considerably reduced by shipments, and there are now ready buyers of rough at 3c, and of rendered at 54c.
