A CELEBRATED CASE.

A Balance Due for Boom Poles Exciting the Oranocoto Community.

The election is over in Sunbury, and around Oranocoto there is not much to interest the man who whittles on the corner or seats himself at the grocery store to hear the latest news and gossip. A recent hearing, however, has developed recently in a law case which has been three times tried before a magistrate and will probably have to be tried again. The amount in dispute is small, but no doubt concealed somewhere about the case is a grand principle of law or justice, which in due course may become apparent.

At the third trial yesterday, at the Record office at Burton, a crowded court greeted the justice lawyers, and clients, and the spectators much enjoyed the various sallies between the lawyers Hughes and Duffy. The legal gentlemen, notwithstanding the sharp retorts in the court, enjoyed an excellent six o'clock dinner, together at Mrs. Stocker's popular table, and drove home together behind a spanking team from the Queen hotel stables. Chas. Ward vs. Frederick Wisely, an action to recover a balance of \$11.50 due the plaintiff for boom poles, was tried before Justice White at Oranocoto, about a month ago, and a verdict rendered for the plaintiff, which verdict was afterwards set aside on review before Judge VanWart. The matter came on for trial again a week ago, before Justice White, but the Justice had been subpoenaed by the defence as a witness, and the case was adjourned till yesterday, when it came up before Justice Cecil McLean.

Mr. Geo. A. Hughes appeared for the plaintiff and Mr. C. E. Duffy for the defendant, and after hearing the evidence, the jury brought in a verdict for the plaintiff for the full amount. The defence who had set up a settlement of the claim, applied for a copy of the proceedings and the case will again be reviewed.

A HOULTON WEDDING.

At which Prof. Bristowe, of this City, Furnished an Attractive Programme of Music.

The pretty Roman Catholic church at Houlton, Me., was crowded Wednesday morning to witness the marriage of Miss Madigan, daughter of the late Hon. Jas. C. Madigan and sister of the well known firm of adigan & Madigan, conciliators-at-law, to James H. Doherty, conciliators-at-law, formerly of Houlton, and now residing at Springfield, Mass. The ceremony was performed by the Rev. Father Longman, P. P. of Houlton, and during the service the following programme was played on the organ by Prof. Bristowe, of Fredericton:

- 1. Ten minutes overture. 2. Hymn. 3. Blessing of the bread. 4. Recession. 5. Folk's Song. 6. Sortie, wedding march.

During the ceremony Father Longman gave a very fitting discourse, and after the gospel Prof. Bristowe played "The Flowers are Falling" from the "Creation" in an able manner. After the wedding ceremony the happy couple repaired to the handsome residence of the bride, where a bountiful wedding breakfast was served, after which they left on an extended tour through the principal cities of the States.

Lumbermen Meet.

A number of prominent lumbermen, including Hon. A. F. Randolph, Wm. H. Murray, John A. Morrison, C. F. Woodman, D. H. Keswick, W. C. Purves and W. C. Hunsbury of the Fredericton Boom Company, met at the Messrs. Randolph's office Thursday, to discuss the log situation, and to determine if possible some means of bringing the lumber hung up down to the mills, in case the water does not rise sufficiently. The matter was discussed at length, and was finally decided not to incur any special expense in the work.

There is at present 25,000,000 feet hung up on the St. John river and its branches, and about 5,000,000 feet of that amount is between here and Woodstock. It is said that a rise of two feet in the river would bring most of this latter amount down, and the lumbermen are therefore earnestly desiring heavy rains.

Good News for J. H. Carr.

In 1892 James H. Carr was dismissed from the position of search officer and tide water in the customs department in this city, and ever since that time he has been making persistent and strenuous efforts to secure a superannuation allowance. He was able to interest several influential citizens in his behalf, and at last their efforts have been rewarded. Last night Mr. Carr received a letter from the deputy minister of finance, stating that it had been decided to place him on the retired superannuation list with an allowance of \$198 per year, to date back from the time of his dismissal. In other words he is to receive \$520 down, and \$16.50 per month as long as he lives.

The Aberdeen mills, Fraser & Sons, proprietors, will be closing this week. They have cut in the vicinity of 6,000,000 feet of lumber this season. The Victoria mills, Hale & Murchie, proprietors, will also finish sawing this week. They have sawed in the vicinity of 10,000,000 feet of lumber this season. The West End saw mill, R. A. Estey, proprietor, will saw about two weeks longer; then he intends closing down to put in a new engine. The ladies and gentlemen composing what is popularly known as the Nighthawks' whist club, had their first meeting for the season at Mrs. C. C. Tabors' on Tuesday evening. There were about thirty present, and Mrs. Tabors and her family's well known hospitality was enjoyed by all. Mrs. Geo. J. Bliss and Dr. J. W. Bridges won the leading prize, and these were presented in felicitous terms by George W. A.

LIBERALS WILL WIN.

So Says Laurier After Concluding His Tour of Ontario.

After an absence of nearly twenty days, Hon. Wilfrid Laurier returned to Montreal Monday morning from his Ontario tour, on his way home to Arthursville, accompanied by his Quebec lieutenant, J. I. Tarte, M. P. Both were in splendid health especially Mr. Laurier, who looked in fine trim after a very lengthy and fatiguing journey.

The leader of the Opposition expressed himself delighted with the reception which was tendered him and his friends at every place they called. Mr. Laurier spoke at Morrisburg, Prescott, Brockville, Kingston, Renfrew, Merrickville, Delta, Sydenham, and was in the evening at Ingersoll and twice at Woodstock, on the Mr. Laurier added that he had been very much pleased at the receptions given by Mr. Tarte and that they would have the result of dispelling many prejudices which existed concerning him. It is understood that Mr. Laurier is to address meetings shortly in Prescott, Labelle and Laval counties. J. Israel Tarte remarked that when he left to go to Ontario he had an impression that he would have to contend against strong prejudices against him, "but," he said, "I was more than agreeably surprised at the broad liberality prevailing which was truly consoling to us. We found this not only in the public meetings, but among the hundreds of people whose acquaintance we formed. The immense bulk of the population of Ontario is most favorably disposed towards Quebec. Mr. Laurier is personally strong in the afternoon and evening of Saturday last. "The Liberal party," he said today, "is thoroughly united in every part of the country. As to what the result of the elections will be, I do not forget what the late Sir John A. Macdonald once said, that there was nothing so uncertain as an election, a horse race or a cock fight, but in this instance if I had any advice to give my friends, I would tell them that they can put their money on the Liberals winning this time."

On the question of his suggested commission to inquire into the Manitoba school question, Mr. Laurier stated that he intended returning to Montreal in about ten days to deliver an address there and others in adjoining counties, and that he would take advantage of these to explain his position fully.

"When do you expect the session?" "I am not in the secret of the gods and therefore cannot say." "Every district which we visited and the warm and enthusiastic receptions given to him in every quarter was most pleasing to all of us. Conservatives and Liberals alike joined hands to do him honor. "Are the people there favorably disposed towards remedial legislation for Manitoba schools?" "As far as we have been able to ascertain the great majority wish to see the minority in Manitoba fairly treated, but they are resolutely opposed to all Federal intervention which would be of a nature to prolong a condition of affairs which has already lasted too long and which has tended to raise much prejudice."

CANADIAN BUTTER IN ENGLAND.

The Canadian foreign butter trade, for which Professor Robertson fought so hard last spring before the Butter and Cheese Association, has turned out, in spite of the opposition to the project, to be a decided success. Where tons and hundreds of packages left port last year, hundreds and thousands are now being shipped to Europe on the outgoing steamships. The past three months has seen an advance of from 25 to 30 shillings per hundred weight, or about 5 cents per pound. To-day butter is bringing from 22 to 23 cents per pound in Montreal and from 110 to 120 shillings per cwt. in Bristol, England. The shipments from Montreal for the past week amounted to 5,588 packages.

Waldo Skinner, son of Chas. Skinner, St. John, was badly hurt in a football match at Montreal on Saturday.

RIFLEMAN MEETS, AND OVER THE OYSTERS DISCUSSES THEM AND SHOOTING.

The oyster supper on Friday evening by the 7th Canadian Rifle League team to their friends, was a decided success. Among those who gathered around the festive board at mine host Lindsay's were Major Loggie, Major Lipsett, Surg. Bridges, Capt. Perkins, Lieut. Hawthorn, Lieut. Oliver, Lieut. McFarlane, Messrs. H. V. B. Bridges, E. H. Allen, F. H. Risteen, J. C. Wilson, W. J. Duncan, R. Gardner, R. T. Mack, Dr. Seery and C. E. Neill.

Major Loggie occupied the chair and Dr. Bridges the vice chair. After the oysters had been disposed of and Her Majesty the Queen honored by the singing of the national anthem, Major Loggie proposed the health of the Minister of Militia, coupled with the names of Mr. E. H. Allen, who he said was the only man in the company that was at all liable ever to be connected with that office in any way. Mr. Allen said that stranger things had happened, and that some day he might be in a position to more fittingly respond than at present. He did not think the militia of the first team, and Lieut. Hawthorn should be ever get the opportunity he would do all in his power to have the evil remedied.

Capt. Perkins read the scores of the members of the two League teams, showing that private C. E. Neill had won the badge for the first time, and Lieut. Hawthorn the medal for the junior competition. Inspector Bridges in presenting the Badge to Mr. Neill said that he was glad to note the success of the York Co. Rifle Association during the past season, notably the younger shots. He protested against the members of last year's inter-maritime team being chosen from St. John, and he said that the scores of the men at Sussex went to show that there were better men in the province than those who shot on the team. He had always taken a great interest in rifle shooting, and was proud of Pto. Neill's success.

Mr. Neill thanked the members for their kindness to him. He felt proud to have won this badge as he had won it from men who were marksmen of the first rank. He hoped that the successes of the past year would greatly stimulate the members of the York Co. Rifle Association, and he thought that next season there would be a much larger number of competitors in the matches. He was sincerely thankful to the association and to the citizens of Fredericton, for the interest they had taken in the success of the team.

Dr. Bridges in presenting Mr. Hawthorn's medal, said that it went to prove that good living and early hours were necessary to rifle shooting. Mr. Hawthorn had proved himself to be an Extra Good Marksman.

In winning this medal from such fine shots as himself and Dr. Seery, Mr. Hawthorn made a very feeling reply. He said that he owed his success during the past season to the care he had taken of himself. He had won his first medal, but hoped that there were many more to come from the same direction. He thought that rifle shooting was in the increase in Fredericton, and that next year there would be a greater number of cranks than ever on the range.

Mr. C. E. Neill then proposed the health of his comrade, Bombardeur Risteen, and Mr. Risteen replied in his usual humorous way. In the course of his remarks he said that he and Mr. Neill had shot side by side both at Sussex and Ottawa. They had done their best to uphold the honor of the grand old York County Rifle Association, and hoped that next year they would have more company at both places. His shooting was rather of the agricultural stamp, but he generally made the boys blush.

Inspector Bridges, at this stage, sang the "Mississippi" boat song in his usual fine style.

Mr. E. H. Allen presented Major Loggie with the P. R. A. medal.

Mr. Loggie thanked Mr. Allen for his kind words, and said that he was pleased to show them the medal, as it went to prove that the older shots were still holding their own.

He, however, was sincerely pleased at the success of the younger shots. They were a credit to the association that had brought them out, and when the old men were shot out, would uphold the fine reputation of the York County Rifle Association.

Mr. Allen proposed the health of the older shots of the association, coupled with the names of Messrs. Lipsett, Perkins and McFarlane. Mr. Lipsett in response said that he could claim to be the oldest shot present. He admitted that he had seen his best days as far as shooting was concerned. He had upheld the honor of the old association as early as the sixties, and he thought then the present generation of shots were going to uphold the best record of the old boys. Messrs. Perkins and McFarlane also responded in their usual happy manner. Mr. Perkins by special request sang that justly celebrated song, the "Righteous Daniel," amid thunders of applause.

After short speeches by Sergt. Duncan, Dr. Seery, Mr. Mack and others, the gathering broke up, being voted by all present a most enjoyable affair.

Angus McLeod, class B, champion of Canada, Saturday rode an unpaired mile on St. Clare river road from a flying start in phenomenal time of 1:33.25. McLeod rode a wheel geared to 96, and the distance was accurately measured and time taken by Frank Mitchell, official time C. W. A., and two assistants.

HOLMES MURDER TRIAL.

Evidence for the Prosecution all in.

And the Case may go to the Jury To-night.

(Special to The Daily Herald.)

RAN INTO A CULVERT.

Bad Accident on the Chicago and Grand Trunk Railway.

The eastbound Chicago & Grand Trunk passenger train, due at South Bend, Ind., at one o'clock Saturday afternoon, was wrecked at a culvert on the Kankeakee marsh, shortly after noon. The marsh was on fire and the train rushed full speed into burning culvert which the engineer did not see as account of dense smoke. The engine left the track, and the train, consisting of mail, baggage, express car and four coaches, was telescoped and the burning culvert soon set fire to the wreck. The wind swept the flames and in a short time every car was reduced to ashes. There were only fifteen or twenty passengers on the train, and only two escaped injury from the burning cars. Several of the train hands were also injured. The loss of the railway company is probably \$30,000.
