Announcement

In the course of a few days we hope to announce the opening of an up-to-date Optical Department.
We have installed and will use the very latest instruments for the detection of eye errors, and among them is the finest Ophthalmometer that can be procured, which is unsurpassed in the locating of astigmatism, the low degrees of which are so difficult to detect by ordinary tests. We believe this is the only instrument of its kind in the country and our foremost object in installing this expensive equipment is to give our customers that satisfaction and service in our new department that has always been in evidence in the other branches of our business.
Watch for the date of the opening of this new department, and if you suffer from eyesight trouble, allow us to give expert assistance in removing it.

Job Lot Ladies' Costumes

As we have only a limited quantity, we advise an early call.
WILLIAM FREW, Water St.

From a recent Magazine we have copied the following. We only need to add, Papers to suit all requirements can be had at our Store.
1. Thou shalt heed the call of Plain quiet wall papers and white woodwork wherever such is possible.
2. Thou shalt lighten dark rooms by the use of light-hued, yellow-tinted wall paper, that suggests the blessed sunshine.
3. Thou shalt see that thy walls and thine own personality are not to forward, but modestly retiring.
4. Thou shalt use no large-patterned wall papers against which to hang thy pictures. The one will kill the other.
5. Thou shalt have no centerpiece or cornerpieces upon thy ceiling, but only a very nearly plain expanse of light color.
6. Thou shalt have thy fill of bright tints, and delicate designs for bedrooms and boudoirs, but for drawing-rooms, dining-rooms, libraries and halls, thou shalt be compelled to use less frivolous papers.
7. Thou shalt, when the ceiling is not too high, run the paper of the side wall up to the ceiling, putting the border just below the angle.
8. Thou shalt not panel the walls of a small room, except it be above a mantelpiece, a sideboard or a bookcase, where a bit of tapestry, a mirror or a picture may be held in place by strips of moulding.
9. Thou shalt use attention-compelling cut out borders, or conventionally designed strips for divisions between walls and ceiling.
10. Thou shalt remember at all times that thy wall paper is but a background against which to show thy pictures, thy furniture, and thy friends.
