To the Boys and Girls

Dear Friends,—Well its time to buy school books. Holidays are over and play is ended. Now its "down to work for a long stretch." But to come to the point, our reason for writing you is to tell you about our great values in Scribblers, Exercise Books, and other little things. You know we have always had the best and nicest book in town. Well, this time we have done better than ever. We have beautiful Scribblers and Exercise Books. The covers are highly colored, and really are works of art, and the paper is the best we ever had. You must see them. We cannot begin to tell you how pretty they are, and we have all the other school supplies, such as dainty pen holders and pretty Pencils. Best Rubbers, colored Crayons, Pens, Slates, Inks (unspillable bottles) etc., etc.

AND SCHOOL BOOKS.—We want you to buy them of us. We have all the new kinds, and will see that you get them. We have those Geography notes, History Notes, Etc. Be sure and come to see us.

Yours truly,

MAN AND HIS MONEY.

THE VARIOUS WAYS IN WHICH BILLS ARE CARRIED.

Now the Man Who Uses a Rubber Band Around His Wad Fixes Up His Roll—Coola Cranks, Who Like to Handle New Money—Wealth in Every Pocket.

A great many men have cranky ideas about preparing their bills for ready handling. One plan is to fold each bill separately, keeping the denominations apart in the various divisions of their pocketbooks. This method facilitates the search for the desired sum when making a purchase. This is almost a sure guard against passing out a bill of the wrong denomination.

Then there are men who make a neat roll of all their bills. The first is rolled by itself to about the size of a lead pencil, the next is lapped about it, and so on to the end. Then a rubber band is placed about the entire lot. When it is desired to use one of the bills, the rubber is removed and the end of the first bill caught between the thumb and forefinger of the right hand while the roll is held between the thumb and forefinger of the left hand. Then the bill is quickly unwound, none of the others being disturbed.

A great many men never carry a pocketbook. One reason for this is that a well worn purse more easily slips from the pocket than a roll of bills. Then, again, the bulk of a pocketbook is annoying. It takes up too much room, especially where the pantaloon are made snug. When pocketbooks are not carried, a favorite receptacle is the watch pocket. When this is used, the bills are made up into a little, hard bunch. Their presence is always felt against the body. In a crowd there is no danger of losing them, and when travelling with any considerable sum this is a safe depository.

Some men have a fad of carrying a lot of new bills in an envelope that is kept in one of the inside pockets. Now and then a man is found who keeps a few bills in every pocket. He goes on the theory that if he is robbed of one lot a sufficient amount will remain to last him until he reaches home. He starts out feeling that he is going to be robbed and makes provision to meet every possible emergency. He usually makes three folds of his bills and tucks them away in the corners of his pockets with extreme care. He does not feel surprised if he finds upon making an inventory after arriving home that a part of his funds has disappeared, as he expected to be robbed.

Any number of men are found who keep only a little working capital in their trousers pockets, the bulk of their funds being concealed in broad, flat wallets in the inside pocket of their waistcoats. These bills are always of large denominations and folded once. When a man brings forth his reserve funds, it will be found that all the bills have a smooth, bright appearance. They have been with him so long that they are as flat as a sheet from a letter press.

Very few men in this country carry coins in purses. In England purses are common. The material is generally pliskin, but undressed kid is also used extensively. The former has two compartments, one for small gold coins and the other for silver. It is sometimes amusing to watch a man with a little undressed kid bag pay his fare on the street cars, especially if he is wearing thick dogskin gloves. Only conductors with great patience can watch the proceeding with complacency. A woman can pick out five pennies from beneath a roll of bills in considerably less time than it takes the man with the kid purse to bring forth a nickel. One reason that the kid purse is not popular is because it feels like the half of a small dumbbell in the pocket when fairly well filled. In London it is the proper thing to carry a pliskin over the shoulder, and the circulation of sovereigns. It is essential to keep the gold and silver separate in order to avoid mistakes.

There are coin cranks as well as paper money cranks. Some years ago there lived a little, round faced man over in the Back Bay who came into the business district every week day morning at precisely 9 o'clock. In paying his fare he always passed up a bright, new nickel that looked as if it had come to him fresh from the mint. Where or how he got them was a mystery to the conductor, but he finally decided that his customer was connected with some banking institution and that the new money was used to escape the chances of contracting disease through the handling of money that had been in common use.

There are any number of people who cannot let go a new coin without experiencing a pang. They will hold on to a new half dollar until the last extremity. Then there are those who visit the subtreasury every few days and get a pocketful of new 10 cent pieces. They experience a special delight in passing them out, as they feel that those who receive them will wonder "who that man is."—Boston Herald.

Toronto's All-Canada Exhibition.

"Educational and Entertaining, Aggressive and Progressive," are the very appropriate watch-words adopted by the Toronto Industrial Exhibition this year, which will be held from August 27th to September 8th. This is the twenty-second successive year of Canada's great Exposition at Toronto, and each year has not only seen an improvement in the arrangements as compared with the years that have gone, but the quality of the stock is very far ahead of what it was at the beginning, thus proving the inestimable value of Fairs such as that held annually at Toronto. It is an old story to say that the exhibition immediately approaching will be superior to all predecessors, but it can safely be said that arrangements have been made, and negotiations are pending, that warrant the statement that the Toronto Fair of 1900 will fully maintain the reputation it has gained of being the best of all that are annually held. A good deal of the space has already been taken up, and a number of entries have already been made, but there are so many divisions comprised in the prize list, with 131 classes and \$25,000 in premiums, that there is ample provision for all; and, talking of these divisions, it is interesting to note that there are no fewer than 55 in class 128, knitting, shirts, quilts, clothes, etc.; 254 in class 54, poultry; and an average of 16 or 17 in each of two dozen classes devoted to horses and cattle. This will give some idea not only of the scope of Toronto's Great Exposition, but also of the opportunities offered to secure a prize. It is a little early to refer to what is promised in the way of entertainment, but when it is stated that \$30,000 is spent annually on this department, visitors have ample guarantee that they will be abundantly provided for, and the admission to the Toronto Exhibition with its myriads of attractions is only 25c. Entries close on August 4th, and prize lists may be had by addressing H. J. Hill, Manager Industrial Exhibition, Toronto. As last year, so this, the exhibition will be inaugurated on Tuesday evening, August 28th, with a brilliant Military Tattoo. Reduced rates will be given and excursions held on all lines of travel.

The Investors' Fund.

Invest Your Money Where it will make Money.
4 per cent. per month.
Invested in the High Grade Railway and Industrial Securities.

WHAT IT IS—The "Investors Fund" is the combined capital of large and small investors in all parts of the Dominion, and is operated in the standard Railway and Industrial Securities as listed on the leading Exchanges.

WHAT IT DOES—The "Investors Fund" pays 4 per cent. out of the Gross Earnings of the "Fund," and credits the Investor with 60 per cent. of the Surplus Profits, which are distributed or reinvested quarterly. A Reserve Fund being created out of a portion of the Surplus Profits, to assure the regular payment of the monthly dividend.

WHAT IT HAS DONE—During the past year the "Investors Fund" has paid investors in addition to the regular monthly dividend of 4 per cent. Surplus Profits amounting to 0.18 per cent. per month on each \$100 invested, and the conservative manner in which it has been conducted has given satisfaction to all. It makes no extravagant promises of enormous earnings. The money is made to earn just what is possible for it to earn without taking the undue risks that inevitably attend the more reckless class of investment.

A large combination of capital enables each subscriber to enjoy the same advantages as the larger concerns and individuals who operate in the legitimate fields of investment.

The past success of the "Investors Fund" and the careful manner in which it has been conducted are arguments that recommend it to all thinking persons.

OUR PLANS OF INVESTMENT—Are arranged so that the advantages of the "Investors Fund" are placed within the reach of all. Under the regular plan any amount from \$50 upwards is received for investment and certificate issued with monthly coupons attached. To meet the requirements of those who do not find it convenient to invest the minimum amount of \$50 under the above plan we accept amounts of \$10 with monthly payments of \$5.00. Profits to be added meanwhile until the total amount reaches the sum of \$100 when certificate will be issued under the regular plan.

It is a universally recognized law of economics, that money should be made to earn money. The individual of limited means finds himself greatly handicapped by the necessarily small amount of capital with which he has to work, and it was to overcome this difficulty that the "Investors Fund" was created. Write us for free booklet which explains everything.

GLENCOLIN

Mrs. S. Young engaged a visit this week from Mrs. E. Pickering and her sister, Miss M. Peacock, of St. Thomas. Pau' Thomas, who has been very sick, is much better.

Mrs. F. Thomas is on the sick list.

Mr. P. Abbott was out to see his brother, of Harrietsville, who has blood poison in his arm.

Owing to the anniversary at Springfield there will be no preaching at Trinity next Sunday.

Mrs. Wm. McKenney expects to accompany her father, Geo. Bates, to Toronto where they will visit Mr. Bates' only sister. They will also attend a portion of the Toronto Exposition.

Mr. and Mrs. Chas. Smith, of Bayham, spent Sunday with Mr. and Mrs. Loop.

Seward Young has secured a position on H. Chandler's grocery wagon.

Mr. Loop is able to be around again after an attack of pleurisy.

The people of Trinity enjoyed a sermon from Mr. Wood, of Mount Vernon.

Prayer meeting at Mr. Philmore's on Thursday evening.

Mr. and Mrs. Toller attended the funeral of Mrs. Tunison. Mrs. Toller is a half sister.

A gloom was suddenly cast over this neighborhood when the sad news of the death of the fourteen-month-old baby of E. B. Brooks. Funeral took place at 1 o'clock on Tuesday. Rev. Staples officiated.

CONTRADICTION.

I have been informed that a report is being circulated by some parties in the neighborhood of Dunbaine that Mr. J. C. Haggan was one of the persons found watering his milk. This report, I wish to state, is entirely false, as my report left at the factory will show.
