Mary Fortner, of London township, has brought a charge of assault against George White. She also charges him and his two brothers, William and John, with abusive language, and claims that for some time past they have carried on a systematic course of annoyance in various ways by throwing stones at the house and generally abusing her. On the evening of Saturday last it is claimed that the complainant's husband was outside and the White boys started abusing him. Mrs. Fortner interfered and says that then George White struck her with his fist and the others called her abusive names. The boys claim that Mrs. Fortner has used offensive expressions about their mother, who left them some years ago. The case will be tried by pressions about their mother, who left them some years ago. Grant, pastor of the Baptist Church, used strong language in reference to the unconverted membership in the churches last night. He said he could give instances in the city where ministers solicited people to become members of their churches without exacting from them any evidence that they were children of God, or that they had been born again. Ministers who did that were not ministers of heaven but ministers of hell. Referring to the work of the churches, the reverend gentleman said he would not be surprised to find at the judgment, when all is revealed, that the churches had been instrumental in sending more people to hell than to heaven."
