SEEK EVIDENCE IN INDIANAPOLIS

Appeal for Articles Needed in McNamara Trial.

LETTERS, CHECK BOOKS

Marion County Court Will Decide On Thursday Whether to Give Up Important "Goods."

Indianapolis, Oct. 3.—A petition asking that Judge Joseph T. Markey, of the criminal court, grant permission to the State of California to transfer to Los Angeles County, Cal., the books, papers, dynamite and clocks confiscated in Indianapolis during the arrest of John J. McNamara, April 22, was filed today in criminal court. The petitioner is Capt. John D. Fredericks, district attorney of Los Angeles County. He was represented by Ferdinand Winter, attorney.

Will Decide Thursday.

Judge Markey will hold a hearing on the petition Thursday morning. Judge Markey ordered that all of the evidence held by Marion County be kept under guard. Prosecutor Frank P. Baker had intended returning part of the books and papers which were taken from the office of the International Association of Bridge and Structural Ironworkers to the association this afternoon, but he agreed with the court to hold everything until the position of the petition. The things Mr. Baker had planned to return to the Ironworkers' Association included nothing relating to the dynamite cases. The order of the court will also prevent Prosecutor Baker or Superintendent of Police Hyland from taking before Thursday the evidence in California, where they have been summoned to appear as witnesses in the McNamara trial. The subpoena named Baker and Hyland, and with them the evidence they possessed.

The petition sets forth that John J. McNamara and James J. McNamara are under indictment for murder in Los Angeles County, and that their trial has been set for Oct. 11. The petition asks that the evidence be kept under guard, and that some of the McNamara papers be turned over to the Los Angeles County officials.

Letters Are Wanted.

It is also pointed out that in this evidence there are letters that tend to connect John J. McNamara as a conspirator in the killing outrages. The petitioner specifically names the articles which he says are held as evidence against John J. McNamara. Sticks of dynamite, boxes containing fuses, four time clocks, check books, ledgers and correspondence of John J. McNamara are named in the petition. Dynamite which was found on the farm of D. Jones, was of Indianapolis, is named as part of the evidence wanted.

Mr. Winter said the court was not obliged to grant the petition. He said it would be an act of courtesy on the part of Judge Markey to permit the evidence to be transferred to Los Angeles. He suggested that somebody be appointed to take charge of the desired evidence, and that he be held responsible for its return to Marion if the trial is held in California. He said the State of California would bear the expense of transferring the material to Los Angeles. The attorney for the McNamara family, Mr. A. D. Coughlin, said he would oppose the petition. He said the removal of the evidence to California would be opposed.

WOOD, PULP AND "FAVORED NATION" CLAUSE

U. S. Customs Brings Up the Question of Free Entry.

Washington, Oct. 3.—The question of admitting wood pulp and paper into the United States from all countries free of duty under the "most-favored-nation" clause of commercial treaties as a result of the only operative section of the Canadian reciprocity agreement was officially raised in the treasury department today.

The surveyor of customs at Atlanta, Ga., asked the department whether Swedish wrapping paper was entitled to free entry in consideration of "most-favored-nation" treatment. It was not until after a paper shipment of such paper had been received. With the importer claiming equal privileges with the citizens of Canada, the surveyor was asked for additional information.

Under section 2 of the act of Congress, embodying the Canadian reciprocity agreement, wood pulp, newsprint paper and other paper, when imported into this country from Canada free in all cases where there is no restriction upon the exportation of these articles, shall be admitted free of duty. The act is not conditional upon tariff legislation by Canada. It went into effect immediately upon the passage of the law.

The point raised is a new one from officials of this Government. The United States has always maintained that third parties could not claim "most-favored-nation" treatment under the reciprocity agreement, as these are in the nature of bargains. Canada's rejection of the agreement, however, eliminates the consideration of reciprocity in the point raised.

THE CAMORRA TRIAL

Witness Says Vitozzi Was One of the Worst Members of Band.

[Canadian Press.] Viterbo, Italy, Oct. 3.—The priest Vitozzi, who is one of the defendants in the Camorra trial, was again attacked today. A priest named Fucce, one of the chaplains of the Naples Cemetery, and in this capacity associated with Vitozzi, testified that the latter was one of the worst characters in the Camorra. The defendant, he said, always insisted upon having the lion's share of the cemetery fees, and in fact obtained it in the habit of threatening the other priests.

Other witnesses, Malaterra, swore that De Angeles and Amodeo, two of the prisoners, had confessed to having murdered Cennaro Cuocolo and the latter's wife. It is charged by the crown that the real assassins of the Cuocolos conspired to cover their own guilt by making it appear that De Angeles and Amodeo committed the murders.

In fact, those two men called the attention of the jury to the fact that Galario was the secretary of the company which publishes a newspaper edited by Attorney Lioy of the defense. It was obvious, they said, that Lioy had suggested this testimony against them to the witness.
