Ine proper rate of an Act to be framed on the principle contained in Mr. Brown's resolution would be, "An Act to encourage extravagance and improvidence in muni-oipalities," for that would be really its manual definition of the second seco circle and improvidence in muni-cipalities," for that would be really its nature. Municipalities, like individuals, should be made to feel that the most valu-able, as well as the most necessary, of all virtues, is self-reliance. A municipality which cannot get along independently has forfeited its right to existence. Besides, the

which cannot get along independently has of British Columbia, which the Government forfeited its right to existence. Besides, the has placed in their hands. forfeited its right to existence. Besides, the habit of looking to Government continually, which a measure of this kind is in-tended to encourage and strengthen, is is most enervating and demoralizing. Mu nicipalities should exercise prudence and formeited to encourage and strengthen and strengthen and strengthen and the state of redistribution in a confused and is most enervating and demoralizing. Mu nicipalities should exercise prudence and formeited to encourage and strengthen and strengthen and strengthen and strengthen and the streng

is most enervating and demoralizing. Municipalities should exercise prudence and foresight, and should learn the very useful art of cutting the coat according to the oloth, but Mr. Brown's dry-nursing resolu-tion, if it were allowed to assume the forming the impression on municipal bodies that these virtues and that art are unnecessary or obsolete. If we do not mistake the Province of Ontaria and that art are unnecessary or obsolete.

If we do not mistake the Province of On tarlo undertook the task of bringing up Vancouver. This is a world of vicissitudes, municipalities by hand, in some such way as and greater changes than this are constantly

quarters of every packet exploded, the number of single squibs destroyed in the seven days has been just about six millions.

ing in from the stone wall and under the wharves is finished, planking will be com-pleted and warehouses erected. It has been owing to the fact that it was not possible yet to handle conveniently the C. P. R. steamers, that they have not tied up at the dock. The filling in under the wharves, and the building of the pontoons has pre-vented the necessary conveniences being furnished.
