

FARMER'S WIFE REGAINS HEALTH

Gives Credit to Lydia E. Pinkham's Vegetable Compound

Fork River, Manitoba.—"I saw in the newspapers where Lydia E. Pinkham's Vegetable Compound was doing so much good to women, and as I used to be very sick but I am not now. I live on a farm in the home-stead district and we have to do all our own work. I tell all the women I see what Lydia E. Pinkham's Vegetable Compound does for me. I think it saves me from going to a doctor and is the best medicine women can take."—Mrs. Wm. Coulter, Fork River, Manitoba.

Lydia E. Pinkham's Vegetable Compound is a medicine for the ailments peculiar to women. It is prepared from medicinal plants, with care and accuracy. It can be taken by women of any age. Women make a serious mistake in allowing themselves to become so weak and nervous that it is well-nigh impossible for them to attend to their necessary household duties. Such symptoms as pains and irregularities, all gone feelings, backache, headache, hot flashes, nervousness, with a general run-down condition, indicate some form of female trouble. The Vegetable Compound has brought relief to thousands of women suffering from such ailments. Let it help you.

BRIEF SKETCH OF RESPECTED CITIZEN

Mr. Archie McCurdy of Dalhousie Junction Talks of Old Times.

Archie McCurdy was ninety-seven on the twenty-third day of October, 1921. He lives with his son Daniel McCurdy at Dalhousie Junction, N. B. It was there that I found him and the old gentleman spoke feelingly about the long ago.

He was born in Arran, Scotland, and came to this country in 1832, when but seven years of age. His father was John McCurdy and his mother Katie Cook.

The landing was made at Dalhousie, and he remembers a woman, upon sight of the four or five houses of the place, exclaiming, "well, well, this is Dalhousie."

The family first settled at Charlottetown, but remained there for only six years, when they moved to Maple Green. Archie's brothers were Lachlan, John, William and Thomas and his sister Maggie.

At twenty-eight Archie married Elizabeth, daughter of John Caldwell.

QUEBEC PROVINCE HAS GOOD LAWS

Migratory Birds are Permitted Now to Make Their Annual Travels.

Quebec, April 8.—The enforcement of strict regulations affecting fish and game in the province have been responsible for a much improved hunting season, according to officials of the sportsmen's Fish and Game Protection Association. The spring hunting has now practically disappeared it was also stated, and the game wardens have been given strict instructions to not allow any violation of the protective legislation. The Migratory Birds Convention Act to prevent the killing of migratory birds in Canada is now being rigidly enforced. Cap Tourmente, two miles from St. Jean, enjoys the unique distinction of receiving the visit every May of a flock of ten thousand snow geese coming up from the southern states. They spent some time here, then leave for the northern region. In the month of September they again return to Cap Tourmente and after two months leave for the South to take up their winter quarters. For years this flock is anxiously awaited by sportsmen, and last year "interesting moving pictures were taken of the flock. There has been no slaughtering of those birds with the result that the flock is increasing each year.

Five boys and six daughters were born to them. Two boys, John and Daniel died young and two were later named after the deceased children. The other children were: Catherine, Margaret, Mary, William, Edith, Rebecca and Ethel.

Mr. McCurdy was evidently a strong, able man and speaking of his work in the woods and heavy timber, he said: "There were no puny that could beat me with the axe."

Of crops, he raised wheat, barley, oats, buckwheat, said he, "I had here in the house of buckwheat flour, nine barrels."

"We raised our own flour and had it ground below Black Landing. Of stock, he said: "Generally kept two horses and ten head of cattle."

"Of schools—"There was one Rogers that 'taught' school here. "I mind that I dined the school master and three him down on the floor. You see, he came and took my books and gave them to a girl, I went and took the books back and he came and took them again and I flew at him."

"I joined the church when Rev. Stevens was the minister. He used to come from Campbellton.

About smelts, "My gracious, we used to go up to the head of tide and take down boat loads of smelt and put them on the land. We now see the value of them."

About church going—"They used to come up from Black Lands to Campbellton for the sacrament. They would come Saturday and stay here over night, and go the rest of the way Sunday morning. It is twenty-two years since Mrs. McCurdy died.

Mr. McCurdy has a mind wonderfully clear and enjoys speaking of the past. He has good health and hearing. His sight is failing but he looks forward to that beautiful vision which never fails.

J. M. F.

If Stomach is Sour, Food Won't Digest

No stomach filled with sour poisons can digest food. Everything you eat turns into more poison and gas, making you nervous and weak. Simple buckwheat, bark, glycerine, etc., as mixed in Adierka, expels all sour poisons and gas from BOTH upper and lower bowels. Removes foul, decaying food-matter you never thought was in your system which caused sour and gassy stomach. Adierka is EXCELLENT to guard against appendicitis. A. McE. McDonald, Druggist, Campbellton, N. B.

STANISLAS BLANCHARD, Sheriff Antigonish Co.

BRONCHIAL ASTHMA

Choking and Gasping for Breath Relieved by "FRUIT-A-TIVES"

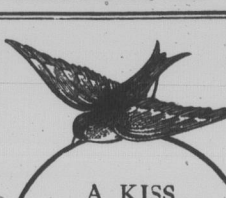

MRS. PENNINGTON

"In 1919, I was taken with Bronchial Asthma and no one knows what I suffered with it during the winter. I began having Choking Spells—gasping for breath and could not speak. I would have one of these bad spells in the evening, one during the night, and one in the morning. The doctor said he could do nothing for me."

"In the spring of 1920, I was taking 'Fruit-a-tives' and in a few days, the choking spells stopped and I have had none since. In the fall, 1920, I have wanted to tell other sufferers who have the same trouble about 'Fruit-a-tives' for I know how they must suffer."

Some thought the Asthma would come back on me as winter came on but it has not, thanks to 'Fruit-a-tives'. Mrs. J. M. PENNINGTON. No. 6 box, 6 for \$2.50, trial size, 50c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

EMILE SOUCY, Solicitor to Mortgagees.

CLEMENT ROY, Mortgagee.

March 7-8-1922.

Dry Rebuke.

Jack: "Didn't you see me downtown yesterday? I saw you twice."

Rebuke: "I never notice anybody in that condition."

BATHURST OPERA HOUSE DESTROYED

Fire was Well Under Way Before Discovery and Impossible to Save Building.

Bathurst, N. B., April 7.—The Bathurst Opera House was completely destroyed by fire early this morning, involving a loss of many thousands of dollars.

The blaze, which is believed to have started about two o'clock, was well under way before being noticed, and it was impossible to save the building. A residence belonging to Joe Branch nearby, was badly scorched on one side, but the firemen saved the building from a total loss.

The origin of the fire is unknown.

DO YOU KEEP BOARDER COWS? How do you know you do? You had them tested did you? And you know the percentage of butterfat in each ones milk? And you know how much milk each gave in a year?

And you know your "Star" cow only gave 5000 lbs.?

And you know your poorest cow only gave 2800?

And you know it takes 5000 lbs. of milk to pay a cow's keep?

And you know the champion of the world only produced 53407 in one year?

Then do you realize you are losing money with your cows?

That you are wasting good feed on poor inefficient milk machines?

That you are not getting paid for your labor?

That your cows though well cared for, do not respond to feed and care?

If so, it's time for a chance, you can still turn the table. Buy a purebred bull with production records behind it. Grade up the herd by raising heifers from your best cows. Send the boarders to the butcher.

Quit to-day running a scrub business raising scrubs.

See or write your District Representative about a good purebred bull. Address—J. E. McIntyre, Department of Agriculture, Bathurst, N. B.

Why is running a scrub cow business like or waiting an automobile?

Because the longer the run the greater the cost.

Not Enough Practice.

Aunt—Johnnie, why is it that you never remember to say "Thank you?" Johnnie (craving wistfully a box of chocolates on his aunt's knee): "I expect it's 'cause I don't get things given to me often enough to practice."
