Miss Marie Prescott intends to revive where the state of the managers to let her go on without paying rent in advance. The statement respecting the selaries of

certain members of Irving's company is in-correct. Miss Terry's salary, instead of being equal to the combined incomes of the prime minister, the chancellor of the exchequer, and the home secretary, will be something like £100 per week. Mr. Terriss is to get £60 per week.

John T. Raymond, though an invincible matcher of pennies and nickles and quarters, is not a betting man, but the other day, just for the fun of the thing, he invested in the pools on Drake Carter, and was as pleased as a child at winning some \$250. He declared he would put the amount in the bank to the credit of the Amateur, as he styles his little hopeful, but one of the boys got hold of him and won it from him by matching before he got to the hotel.

Double Tenck the Ronds.

From the New York Herald. The primary cause of the collision on the Pan Handle railway west of Pittsburg yeserday, which might have been but fortunitely did not prove disastrous to life, was that the road has but a single track. A double track on all trunk lines is one of the important improvements yet to be made in our railroad system, and since so much else has been achieved toward perfecting the system it is strange that this, which is essential to the dispatch of freight and passenger traffic as well as the safety of ie, has to a great extent been neglect is true that some roads are provided w two tracks. But it is also true that important luke of great trunk lines have but one track. This is a defect which is in striking contrast with the marvellous progress that has been made in American rail-and improvements generally. road improvements generally.

From the Weekly (Toronto) Mail, Aug. 21., Perhaps the most extraordinary success that Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for Catarrh. Out of two thousand patients treated during the past six months fully ninety per cent have been cured of this stubborn malady. This is none the less starting when it is remembered that not five per cent of patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue, Mr. Dixon at once adapted his cure to their extermination—this accomplished, he claims the extern is practically cured and the permanency is unquestioned, as cures offected by hin two years ago are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is most favorable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Mr. A. H. Dixon, 395 and 307 King street west, Toronto, Canada, and enclose stamp for his treatise on Catarrh.
