MR MACDONALD WILL NEVER READ THE WORLD AGAIN.

Indiguant - A Small Audience in Association Hall-Many Speakers, Most of Whom Were Clergymen-The Other

He came forward; but before his flow of worlds had properly began Mr. Sam Jones wanted to know if he were a taxpayer. The answer was in the affirmative. He said that he noticed one paper in the city which saw a great danger m having Toronto governed by ministers. He thought, and naturally, that it might have worse rulers.

Mr. Sam Jones again ventured a question and was again unceremoniously snuffed out. "Dr. Sutherland, continuing, said that he opposed the running of Sunday street cars for the sake of the reputation of the city and on behalf of the workingman.

Mr. Sam Jones again asked to be heard, was again refused, when he shouted out: "Are you afraid to hear the other side? Is this going to be a second edition of the Paylinon meeting?"

The New York World says: Mr. Pitou is achieving success with the adroitest theatric means. Pictured excellence here shows how much easier it is to make the ordinary man understand a print of it. Mr. Pitou leaves nothing to the image and the workingman.

Mr. Sam Jones again asked to be heard, was again refused, when he shouted out: "Are you afraid to hear the other side? Is this going to be a second edition of the Press' is an unqualified popular success. What it is not some faint voices try to utter, but they were lost in the tramp of the feet going to the Star Theatre to witness this great play.

Other speakers were Rev. W. Patterson and J. V. Smith, and Messrs. Beverley Jones, P. H. Bjirton and Alit. Hallam.

Mr. Robert Cuthbert saked to be heard but was refused the privilege of speaking. Nothing daunted, however, he waited till after the benediction had been pronounced and then mounted the platform. He denied the charge that Sunday-street car supporters were atheists and saloon-keepers. He accused the ciergy who asked the City Council to break its pledge of immerality. He saw as much propriety in Chicago parks as in Torouto. He said that the meeting at the Auditorium was an orderly and temperate one and defended The World against the accusations made against their wills. He called the street cars the people's vehicles. Mr. Cuthbert made a telling speech, but was frequently interrupted by the Sunday protectors.

CHICAGO DOOMED.

An Engineer Says It Will be Engulfed in CHICAGO, Ill., Jan. 1.—A German engineer of considerable ability prints a long article stating that Chicago will be engulfed by the lake in 1893. He says the stratum of ground upon which the city and Exposition buildings stand has been undermined by the lake and is only 16 feet thick. Hence the crust will break through, owing to the greatly increased burden in that year.

Still Another Consumptive Cured!

CLEVELAND, O., Feb. 19, 1891.

Dr. McCully:

DEAR SIR,—I have now been under treatment by you with the Dr. Koch Lymph just wo weeks. When I commenced your treatment I had been suffering from Consumption or one year, and my weight fell from 187 to 188 pounds, when you gave me my first treatment. Since using the Lymph I have gained just seven pounds in two weeks and have taken no medicines of any kind. I had high tweats two weeks ago when I came to you and they are all gone. I could eat little or no food then and had constant distress in my stomach; that is all gone, too, and I have a hearty appetite. I had asthma every storm so severe and distressing that my clothes had all to be opened, then the windows, and still I nearly suffocated. This all disappeared after the first injection, and I now feel as well during storms as at any other time. My cough was distressing and my sleep disturbed. Now I seldom wake till morning and my cough is not one-third of what it was; also my spit is in about the same proportion. I am gaining in svrength each day, and I can once more breathe full, deep breaths. To me this two weeks of treatment has been a continuous source of surprise and wonder, and I gladly attest to the above facts as being true in every particular. (Signed) Fred Leopold.

N.B.—It is but fair to ourselves to add that these results, although based on the Berlin investigations of Dr. Koch, are not from the Lymph alone. Dr. McCully has added another compound to the Lymph, or as now called Tuberculin, and he has reached these results by this addition and Medication Super added. Our experience is Lymph alone is a powerful Bacillicide. Lymph alone will not cure Consumption, but we do save life and prolong it indefinitely, and here is the proof.

"I had spells of flooding each month that continued from 14 to 16 days, the intervals being never longer than 20 days. My pain was simply extreme torture, my face and lips were white and bloodless. I had displacement brought on I was told by general debility and loss of blood. I could scarcely walk alone and would often faint if I attempted to get on my feet. I was told at the hospitals and by the medical men I consulted there was but one hope and that was an operation and the removal of the womb. Abhorring such treatment and having heard of the great loss of life and risk of such fearful operations, in my extremity I applied to Dr. of the great loss of life and risk of such fearful operations, in my extremity I applied to Dr. McCully, who cured me; I am entirely well; no pain now and all my floodings are things of the past while my health is excellent; he treated me four months and these men did me no good after years of work and expense."

These are caused by enlarged veins. Youthful folly, heavy lifting and abuse of manhood in its noblest sense are the causes of the former; in the latter, sitting on stone, iron, or cold objects, wet feet and chronic costiveness are the principal causes in the latter, but chronic diarrhosa, chronic catarrh of the bowels and chronic enteric dyspepsia are frequent causes.
