Fredericton Oct. 3.—There was a sale of land in the market, the result of which demonstrated, that the present in this Province is too high—

Some lots of superior land, as we understood it to be, sold at from 1s. 6d. to 1s. 10d. per acre, at a credit of three months.

We hope the subject will be taken into consideration by the Executive at an early day; as we are satisfied a greater revenue to the country and its more rapid and extensive settlement, will be a reduction in the price of land. In connection with this were large blocks surveyed, and roads marked off, upon each side of which would be one hundred acre lots with a proper front, it would be a great accommodation to Emigrants arriving in the Province. And were every alternate lot sold for actual settlement;—and land should be sold by government in no other way;—the improvement that would be made in a short time, would produce a fair remunerating price for the intermediate lots; and, emigrants would thus be able to get their relatives out, and to settle them in their neighbourhood.—*Sentinel.*

LARGE POTATOES.—That our soil and climate brings to maturity Potatoes of a quality not exceeded in any part of the world, is generally admitted; but on instance of such extraordinary produce, in point of size, as that we have now to notice, seldom, we believe, occurs.

Mrs. Sinnot, a widow woman residing in Waterloo-street, near the contemplated site of the new Catholic Chapel in this City, has a lot of *Christies*, of her own planting, which exceed anything of the kind we have ever seen. At one stalk were found seventeen Potatoes of an extraordinary size, one of them weighed upwards of two pounds and three quarters, was nine inches long, and ten inches in circumference; and a number of the others were nearly as large. They were planted only ten weeks ago, and are alike creditable specimens of the rapidity of vegetation in this climate, as well as of the quantity and perfection which is soon attained.

Mrs. S. is well deserving of a reward from our Agricultural Society, and with such a proof of her skill in husbandry, we should think would not long remain in widowhood.—*Cour.*

### ARRIVAL OF THE CALEDONIA.

The Mail Steamer *Caledonia*, arrived at Halifax on the 1st inst. in 11 1-2 days from Liverpool. We have made copious extracts from the British Journals to the 18th September, which will be found in our preceding columns.

The Steamer *Great Western* arrived at New-York on the 27th ult. in 15 days from Bristol. She experienced heavy weather for the first few days. On the third day her bowsprit was carried away.

By the latest accounts from Paris, it appears that the insurrectionary riots had assumed a very formidable aspect. The revolted workmen made repeated attempts to construct barricades, by overturning wagons, omnibuses and other vehicles. The Municipal Guard had been called out, and having charged the rioters, succeeded in dispersing them. The National Guard had been called under arms, and although the alarm thus occasioned was great, the prompt measures adopted by government were executed to effect a speedy restoration of tranquility.

### LITERARY SOCIETY.

We take the liberty of reminding the friends of Science, that the season for exertion in the Literary Society, is at hand. The first of November was the time mentioned for the re-opening of the Club, but the present month would probably answer better. However, it is time the members and friends of the institution, were preparing to make the ensuing course as profitable and entertaining as possible. It is very desirable, that an uninterrupted series of lectures, should be maintained; and in order to do this, some effort is indispensable. The Society will meet under more favourable auspices, than those attending its organization last season; and we therefore trust, that no exertion on the part of its members, to render its efficiency more complete, will be wanting. We feel deeply interested in its success, and are happy to imagine, that

our views and feelings on the subject, will be justly appreciated by every lover of science and literature in the community.

It may not be generally understood, that a good lecture from any person, whether a member of the Society or not, will be thankfully received.

FLOGGING.—We think it our duty as a public journalist to express our disapproval of a practice alike disgraceful to a christian community, and painful to the feelings of common humanity—public whipping. We mean no censure upon any individual, it is the practice we condemn. Years back, when neither science nor yet religion had shed their mild and soothing influence, there was some excuse but at the present period we know of none. This inhuman practice has been abolished in the British Army, and it is seldom enforced by the civil law in Great Britain. Why not punish in some other way that would have equally as good a tendency and benefit the town—viz. by hard labour on our streets or roads. Are we not correct?

### MARRIED.

At Stillwater (Orono) Maine, on the 25th ult. by the Rev B. Tappan, jr. of Hampden, WILLIAM BARCOCK, Esquire, Merchant, of Saint Andrews, N. B., to Miss ABBY BARCOCK of Augusta.

On Sunday last, the 4th inst. by the Rev. Dr. ALLEY, JOHN PARKINSON, Esq. to MARY ANNE, eldest daughter of Dr. W. C. MACSTAY of this Town.

### DIED.

On Monday morning last, in the 19th year of her age, MARY, wife of Mr. ROBERT ACKESON, of Saint Patrick, and second daughter of Mr. John Rogers, of this Town. Thus in the bloom of youth has this amiable young woman been carried off, leaving an infant, and kind husband to lament the loss of an affectionate mother and wife.

At Saint Stephen, on Wednesday the 30th ult. in the 35th year of her age, Miss MARY ANNE WATSON, daughter of the late Robert Watson, Esq. of that place.
