AND POPS UP AND SINKS. of a Submarine Volcanie

narkable phenomenon has rec oast of South Africa. The bay commodious and spacious in-giving access to the two chief es of that part of Africa. It its name to the numerous ols of whales that formerly

led there.
bay is largely cut off from ocean by a peninsula extending hward: The end of the peninsula alled Pelican Point, and it was the waters near this point that people living on the shores of bay saw a very strange sight en they arose one morning. They we lifted above the waters near Point a new island. I and rose to a height of sixteen

boats filled with men "from some poats filed with men from e shore approached this new bit of ad and found that it was composentirely of mud so still in texture at the men could walk easily on e surface. It was mud, pure and mple, but the surface was rapidly rdening. The people gave it the me of Mud Island. The island destined to a very short exist.

The day after it was discovit began to sink, and seven days it had entirely disappeared from

An article on the appearance and lisappearance of Mud Island has just been printed by the South African Philosophical Society of Cape Town. F. W. Waldien, the author, says there is 'no doubt that the appearance of the island was due to a submarine mild volcano in the neighborhood of Pelican Point. The phenomenon was accompanied by unusual expendicular of sulphurous gases, which have often been observed in that heighborhood. He believes that the leighborhood of the believes that the gree mortality of fish in Walfish Bay, observed from time to time, is the to these exhalations.

The island was due to enormous

the island was due to enormous antities of mud issuing through fices on the sea floor. The mud rifices on the sea floor. The mud-nas spread around and piled up-ntil it finally appeared above the later as an island. With nething ut a mud foundation to support the great weight the lower part of the eruptive matter gradually spread, ut and the large and lask ut and the large mud bank gain below the surface.

A MODEL CHAIRMAN.

How seldom does a speaker get a chairman who has the wisdom to make just the right introductory speech, but here is a model. The chairman, in introducing the speaker.

to the same church as I do. As a pure cifizen I respect him; as a personal friend of years I have the warmest regard for him; as a neighbor whose vegetable garden adjoins mine why—why. I watch him. He is a square, true man in honest politics, and I must say he occupies rather a lonesome position. So broad, so bountiful is his character that he has never turned a trampempty-handed from his door, but always gave him a letter of introduction to me. Pure, honest, incorruptible, that is the speaker of the evenings. Such a man in politics is like ingi. Such a man in politics is like a bottle of perfumery in a glue factory—it may moderate the stench, but it doesn't destroy it. I haven't said any more of him than I should say of myself. Ladies and gentlement, our friend will now proceed to talk to us."

A man who thought his race was run made a food find that brought him back to perfect health.

"One year ago I was unable to perform any labor in fact was told water, cooking, and green fruit, is sure young physicians that they could do nothing further for me. I was fast sinking away, for an attack of grip, had left my stomach so weak it could not digest any food sufficient to keep me alize.

HAUNTS OF FISH AND GAME, Attractions for Sportsmen on the Line of the Grand Trunk.

The Grand Trunk Railway Company has issued a handsome publication, profusely illustrated with half-tone profusely illustrated with hair-tone engravings, descriptive of the many attractive localities for sportsmen on their line of railway. Many of the regions reached by the Grand Trunk seem to have been specially prepared for the delectation of mankind, and for the delectation of mankind, and where for a brief period the cares of business are cast aside and life is given up to enjoyment. Not only do the "Highlands of Ontario" present a facilities for both hunting shing and camping, but the 30,000 Islands of the Georgian Bay. Thousand Tribunds and the many attractive localities in Maine and New Hampshire, present equal opportunities for health, pleasure and sport. All these localities are reached by the Grand Trunk Railway System, and on trains unequalled on the continent. Abstracts of Ontario, Michigan, Quebec, New Hampshire and Maine fish and game laws are inserted in the publication for the guidance of sportsmen. The Grand Trunk Railway has also issued descriptive il-

sportsmen. The Grand Trunk Rainway has also issued descriptive illustrated matter for each district separately, which are sent free on application to the agents of the Company and to Mr. J. D. McDonald, District Passenger Agent, G. T. R., Union Station, Toronto. Keep Minard's Liniment in the House.

The counsel for the plaintiff had been bullying the witness for an hour, when he finally asked "Is it true that there are traces of insanity in your family?" "Very likely," answered the witness. "My grandfather, who was studying for the ministry, gave it up to become a lawyer."
