therefore with diminished profit. When the water is low and the fire almost away, when the crowd saw him. out, the engine is, a source of loss to the owner. On the other hand the fire may be brisk, and the boiler well apand hauled up to the bar, all the while may be brisk, and the boiler well applied, but some screw is loose, or a part rubs another too closely and the friction thus produced neutralizes much of the force. So in the animal machine, all the parts must work harmoniously together, or in other words there must perfect health to obtain the test results. An animal may have the best results. An animal may have the best of food in sufficient quantity, and still pass a hard winter, and without profit to its owner. Food of the best profit to its owner. kinds without shelter, is in the animal economy like fuel in an engine that is rusty and loose and out of order. Both are expensive methods of arriving at desired results. It takes too much force to run the machine in both cases. As it is cheaper to have a good engine didn't go. As one glass after another results and you have your old woman all thetime. Fill 'em up again,' 'Yaas I got her all der time, but exposin' she go bad, I don't got her asy more somedimes. Its better to go mit der toctor seldom right away.' But he didn't go. As one glass after another results and you have your old woman all the time. Fill 'em up again,' 'Yaas I got her all der time, but exposin' she don't come but once a year, and you have your old woman all the time. Fill 'em up again,' 'Yaas I got her all der time, but exposin' she go bad, I don't got her asy more stockers and out of order. Both are expensive methods of arriving at desired results. It takes too much force to run the machine in both cases.

kept in good order, so it is to have an animal in health and comfort. The thoughtful farmer will see many other points of likeness between the animal points of likeness between the animal the constructed by points of likeness between the animal machine and the one constructed by human hands, but this is enough to suggest the importance of keeping farm animals in a healthy and comfortable condition by means of warm stables. Thus he was found by his son late that night. The boy grasped him by the condition by means of warm stables. EMOTY'S Bar to Port Moody, with clean floors and pure air.—Ame- night.
