New Glasgow, Nov. 7.-A most singular accident happened here this morning at 2 a.m., when a whole span of the Intercolonial iron bridge collapsed under the weight of a freight special, dropping seven cars and the tender of the engine into the water of the East River without loss of life or injury to the train crew. The special had been made up at Stellarton for Mulgrave just after midnight, and was in charge of Conductor Frank Black. It con sisted of engine No. 228 with driver Hugh Campbell, seven cars and a van. About two o'clock as the were cross ing the iron bridge at New Glasgow. at a speed of eight miles, the whol train was on the bridge and the engine was just entering upon the Northern span, that is the one nearest New lasgow, when Driver Campbell felt his engine settling down on the right hand side, and at the same instant the iron work of the bridge crashed in to the cab window on the left. On the instant he gave his engine steam, and Gaetz. Miss Longley presided at the like a living thing she tore herself out of the vawning chasm. She was piano.
