SOLE AGENTS FOR THE UNITED STATES AND CANADA.

#### Horsemen! Better than Firing Iron.

Please send C. O. D. two bottles of your Gombault's Caustic Balsam to J. F. Comstock & Sons, 220 Canal street, Providence, R. I. I am all out of it; have used it for the past seven years, and think it a good thing to keep in stables. I have had great success with it where the firing iron has failed, and I always keep it in my training stable both as a liniment and blister. Wishing you success, I am, T. A. LEARY, Trainman, Park Farm

#### Almost Performed Miracles.

The bottle of Gombault's Caustic Balsam I ordered some three months ago came all right. I am able to order almost any time, for I am running a 2,000-acre horse ranch here and a 180-acre horse farm in Cass Co., Iowa, where I was when I ordered my first trial bottle. My first bottle almost performed miracles. It took a hard calloused leg down in five or six applications. The lump was nearly as large as the horse's knee, and I put him in races afterward, and he didn't show any lameness.—H. A. BROWN, Salisbury, Texas.

#### Veterinarians Know its Use.

Since I have practised my profession (veterinary surgeon) in this place I have had occasion to prescribe your Gombault's Caustic Balsam, contrary to my usual method of practice, which is to avoid the use or recommendation of any proprietary medicine, but experience has shown me its value. When I came here in '93 the remedy was unknown. I think I can make some arrangements with you for an exclusive agency for this community I can push the sale of the same in a way that will be highly satisfactory to you and profitable to myself. If you will come to some understanding with me, please advise me of the terms you are willing to give.—WALTER P. KELLY, V. S., Pomona, Cal., June 7th, 1897.

#### For Human Use.

Some readers may be surprised to learn that Gombault's Caustic Balsam (regularly advertised by the Lawrence Williams Company, of Cleveland, O.) is a very useful remedy for a number of human ills; notably rheumatism, stiff or lame joints, sore throat, pains or cold in chest, back, or limbs. Rub the flesh briskly with a coarse towel to cause irritation, then apply Caustic Balsam in small quantities, rubbing in with the hands very thoroughly until the flesh becomes tender. In twenty-four hours apply more Balsam, but without much rubbing. The best time to make these applications is just as you are retiring for the night, when you can put a piece of flannel over the affected parts and let it remain until morning, then leave entirely alone for the next five days; then repeat the treatment, and thereafter at such intervals of five days until the cure is complete.

#### Has Done Wonders.

I have used two bottles of your Gombault's Caustic Balsam, and find it the best and simplest remedy to remove capped locks and bunches of any kind, also I have tried it on several other people's horses in this place, and it has done wonders in every case.—W. A. NEUELL, Cotuit, Mass.

#### Cures if Properly Used.

Enclosed please find \$1.50 for a bottle of Gombault's Caustic Balsam. Send by express to Glendale, N. Y. It is an exceedingly good medicine. I cured a very bad spavin with it. It doesn't take off any bunch from a horse it is because it is not used properly.—GEORGE GRANER, Houseville, N. Y.

#### How to Make Money.

I bought a horse for \$100 said to have a spavin, but I knew better. I doctored him for hip-joint lameness with your Gombault's Caustic Balsam, and brought the horse out all right and sold him for \$300. Said horse was seventeen years old when I got him, and was afterwards burnt up in a stable at Troy, N. Y. when he was twenty-four years old, sound and all right. So much for your Balsam.—D. A. BOARDMAN, Oneonta, N. Y.

#### The Greatest Remedy He Ever Used.

Please send me one half dozen bottles Gombault's Caustic Balsam, and send at once. It is the greatest remedy that ever I used on a horse in my life.—J. L. FARRAR, Townsend, Mass.

#### Best Thing on Earth.

I see you have some pictures for druggists. Wish you would send me some. Never had any advertising for Gombault's Caustic Balsam; have a steady sale on same. Balsam is the best thing on earth.—E. L. LANGWORTHY, Linden, Mich.

#### It Never Failed to Cure.

I see you are still handling the Gombault Caustic Balsam. I wish to say, right now and here, that it is far the best liniment I ever used, and I have in years past used a good deal. I would rather have one bottle of it than a barrel of any other kind I ever used. It never failed to cure for me.—CHAS. E. ROSS, Walcott, Ind.

#### Enthusiastic Over its Use.

I have used Gombault's Caustic Balsam with excellent results on a quarter crack and above on shoulder, and I am enthusiastic about its sale here. Please tell me what you sell it for wholesale. I think I can sell several bottles. The people in Charleston have no idea what an excellent medicine it is.—NORRIS BARON, Charleston, W. Va.

#### Removed Four Ringbones and One Spavin.

I have used your Gombault's Caustic Balsam for four cases of ringbone and one of spavin, and found it to be successful in every case, and would recommend it to all dealers in horses.—G. A. CROSSLAND, Altamont, N. Y.

#### The Greatest Blister.

Regarding Gombault's Caustic Balsam, I can say it is the greatest blister in the world.—TOM JAMES, Des Moines, Iowa.

#### Beats All Liniment.

Please send me six bottles Gombault's Caustic Balsam. Ship to Fairview, Pa. Will send money on receipt of same. Parties who I have sold Caustic Balsam to say that it beats all liniments they ever used.—GEO. SORRIS, Albert, Pa.

#### Does Its Work Every Time.

I found out the virtue of Gombault's Caustic Balsam and have used two bottles. I think it one of the best remedies one can keep around a stable. It is always ready for use, and I believe if properly applied and rubbed in, will do its work every time. I have used different kinds of liniments, but this does its work quicker than any I ever used, and after all, leaves no stain, and the hair grows in same as ever. You can use my name whenever you see fit.—H. C. PARKER, Wilmington, Del.

#### Thinks it a Wonderful Remedy.

You will perhaps remember my getting a bottle of Gombault's Caustic Balsam to remove ringbones from my colt. This was in May, 1896. I used the Balsam as you directed, and the result was all one could wish. To day, after more than a year, her feet are as smooth as ever, and I am certain the ringbones will never return. I also gave some to a friend who had a horse with enlarged glands, and he removed them entirely. I think it a most wonderful remedy, and the most perfect blister I ever saw. I now have a horse with enlarged glands about the throat. Would it remove them, and how should I use it? I would say in regard to the ringbones removed that a veterinary saw her before and after, and he said that if he had not seen her he would not have believed it possible to have removed them.—H. D. BROWN, Pottsdam, N. Y.

There is nothing better for Enlarged Glands or Sore Throat.—L. W. Co.
