THE STANLEY AUTOMATIC HONEY EXTRACTOR

The only self-reversing, as well as the most perfect, complete and durable Honey Extractor known. It reverses the combs all at once by simply reversing the motion. There is no danger of breaking or time lost in handling combs when reversing. These machines have taken all first prizes wherever shown for the past two years. We have now made arrangements with the patentee and manufacturer, Mr. G. W. Stanley, of Wyoming, N. Y., so that we can ship them from our manufacturing establishment, Brantford, Ont., at about his prices. Every machine is warranted to work perfectly and to do more than double the work of other Honey Extractors taking the same number of combs. These Extractors are made to take 2, 3, 4, 6, 8 and 10 frames. The greatest demand is for the 4-frame machine. Send for free circulars and price list. Agents wanted to canvass every County in the Dominion.
