Usage:—Most teachers will testify that the old fashioned slates are a great nuisance in the school room. Luckily they are now in a great measure superseded by Book Slates, like those made by the New York Silicate Book Slate Co., of 101 Fulton St., N.Y., whose advertisement appears in this number. This Company furnish an improved marking and erasing surface for lead and slate pencil. These slates are an excellent article for schools, colleges and private individuals; they are a perfect substitute for, and in many respects, have a decided advantage over the natural stone. They do not break, nor scratch the desk. They are portable, light, noiseless and durable. They have been tested for the past five years and are adopted by all the Boards of Education in the leading cities of the United States. They certainly deserve to be ranked among the "modern improvements" in writing material.
