

hear the call of his "conscience," which the Admonition warns him to "discharge."

After all, we do not know that the matter has been found to be of much practical difficulty. We have been led to think how a Clergyman should act, in case he had undertaken to officiate for one who feels conscientiously bound to request of him to read the appointed lesson from the apocryphal books: we do not see what should hinder him from acceding to the demand, prefacing the lesson with these words: "Here beginneth the . . . chapter of . . . which is one of the books of which the Church, in her sixth Article, declares that 'it doth read' them 'for example and instruction of manners; but yet doth it not apply them to establish any doctrine.'" We have a great notion that the parties who are so eager for the apocrypha to be read, would rather dispense with the reading than have it prefaced by this quotation of the authoritative words set forth by our Protestant Church.

It may not be out of place, here, to mention that our sister Church in the United States, having liberty to legislate for herself, has removed all the apocryphal lessons from the Calendar. A few only remain in her table of lessons for Holy-Days.—EDITOR.]

The Committee of the Gospel Aid Society acknowledge, with many thanks, the receipt of a valuable contribution, for their sale, from the ladies of the Congregation of St. Thomas' Church, Montreal.

To CORRESPONDENTS:—Received M. W. will be sent;—C. B. we will try;—R. the papers to Dublin will be sent. Not. Un. to-morrow.

We beg to apprise the kind friends who act on our behalf, that we have now only half a dozen complete copies of the 2nd volume remaining over; but we have about double that number of the 1st volume. We must, therefore, decline receiving any orders for the second volume without the first together with it; but we should be glad to receive orders for the few supernumerary copies of the first singly. Of the 3rd (the current) volume we can furnish the back numbers to a larger extent, if required.

PAYMENTS RECEIVED: Messrs. A. Simpson, No. 105 to 156; W. Sewell, No. 105 to 156; John Humble, No. 135 to 186; Hon. G. Moffatt, No. 135 to 186; Lady Pritzer, No. 133 to 181; Captain Townsend, No. 134 to 185; Captain Bent, 2 copies, No. 135 to 186.

Local and Political Intelligence.

Major General Sir George Arthur continues indisposed at Southampton, where he has arrived from the seat of his late government at Bombay.

The mills in the Royal William Victualling Yard, at Plymouth, are immediately to commence grinding, night and day, Indian corn, for the supply of the distressed Irish. It is expected they will perform about 80 qrs., or about 48,403 lbs. of meal per day.

There are now unloading on the Dublin quays two American vessels freighted with potatoes from the United States. They are of excellent quality, and selling at the rate of tenpence per stone. We understand this is but the commencement of an extensive import trade of the once staple commodity of Ireland.

By royal command a Queen's letter has been issued, calling upon the different parochial clergy to preach sermons and make collections generally, in behalf of the sufferers by the late fire in Newfoundland.

IRON WAR-STEAMERS.—Government has determined to have no more iron steamers built. It is alleged that they become foul much sooner, and are more exposed to shots, than the wooden.

Sir Charles Hotham, K. C. B., has accepted the command of our fleet on the western coast of Africa, whither he will proceed immediately, hoisting his broad pennant as Commodore on board the fine steamer Devastation.

There are at the present time so many vessels, destined for the Mediterranean and elsewhere, being coppered at Sunderland, that a difficulty is experienced in obtaining the requisite supply of copper from the manufacturers as quickly as is required to supply the demand.

The new bridge of wrought iron to be erected at Menni, will be supported on four piers; the distance between the central piers will be 450 feet.

EXPLOSIVE COTTON.—At the late meeting of the British Association, Mr. Grove entered on an explanation of Professor Schonbein's invention, which was not as yet secured by a patent, and of course it could not be supposed that the ingredients which he made use of would be communicated, but it was a gratifying circumstance that he had in the first place come to offer it to the British Government and people. The principal drawbacks in the use of gunpowder were, that it produced so much smoke, and left a residuum which prevented fire-arms from being used for any considerable time without cleansing. Mr. Schonbein's gun cotton had neither of these disadvantages. It had all the appearance of ordinary white cotton, and was not injured by moisture. There were two kinds of this cotton, both similar in appearance, but one of an inferior quality which produced a small quantity of smoke, and left a slight residuum. The other caused not the slightest appearance of smoke, and left no traces whatever on the paper from which it was fired. Mr. Grove fired off some portions of gunpowder, and of the two kinds of cotton both dried and moist. In one experiment the superior cotton, when placed on gunpowder, exploded without igniting the powder, which was afterwards fired off on the application of a heated wire. This proved the great rapidity of its combustion, while the absence of smoke was, according to the opinion of Sir J. Herschell, expressed at a later period of the evening, owing to the perfect union which took place between the substances made use of.

In Simmonds's Colonial Magazine for the present month, the editor has taken up the subject of Colonial Postage Reform for British North America, and adduces strong reasons for the necessity of an immediate change in the system in Canada.

Adrianople was ravaged by fire in the night of the 24th Sept. The conflagration broke out in the populous quarter of the Israelites, and lasted twelve hours, reducing to ashes about six hundred houses, a considerable number of shops, thirty taverns, several mills, and five synagogues.

MEXICO AND THE ARGENTINE REPUBLIC.—Accounts from Mexico to the 30th Sept. mention that General Santa Anna had left the capital and was marching on Monterey, with a strong body of troops. Gen. Paredes, a short time ago at the head of the Government in Mexico, has changed places with Santa Anna, having gone to Havana, from which it is supposed he will proceed to Europe.

The principal priests delegated to represent the Mexican priesthood, have consented to raise two millions of dollars towards defraying the expenses of the war, by mortgaging their estates and other property, and the merchants in the city of Mexico have raised five hundred thousand dollars and paid it over to the government, for the same purpose, and promised an equal amount within the next fifteen days, besides agreeing to keep up a contribution of the same amount once every month.

Com. Stockton has declared the whole of the Coast of Mexico in the Pacific in a state of blockade. Commodore Stockton has established himself Governor in the capital of Upper California. It is reported that the ports of Lower California are to be taken possession of, and San Blas made a rendezvous for the squadron and their prizes.

In regard to the affairs of the ARGENTINE REPUBLIC, it is reported that the mediation of England and France has caused an arrangement of the difference between the two rival leaders, Rosas and Oribe.

By TELEGRAPH.—New York, Wednesday, 8 P. M. [Reported for the Daily Albany Argus.]—A train of sixteen cars laden with cotton, having three men on board, broke through a draw-bridge near Vicksburg, on the 16th inst., and precipitated the whole concern into a vale forty feet below the level of the road. One of the men was killed and the others badly bruised.

The American mail of yesterday, furnishes afflicting details of a dreadful gale in the Gulf of Mexico on the 12th ult. A long list is given of vessels which have suffered more or less, (many of them totally wrecked,) and among the rest are the U. S. Brig PEARL and Revenue Cutter MONNET, both of which went ashore. The town of Key-West in Florida suffered extremely: all the houses in the place were blown down except six: the Light-house and the Custom House were destroyed, and a great many lives were lost. We fear that more disastrous news may be anticipated.

GULL ISLAND, on Lake Ontario, which has been submerged for more than seven years, has lately reappeared. The lake is now lower than was ever known before.

MONTREAL.—The Herald of the 30th ult. mentions that the Hon. Chief Justice Valieres has had a very severe attack of illness which, at one time, threatened to prove fatal; but that he was much better. The following extract from the presentment of the Grand Jury deserves attention.

"The Grand Jury found, on visiting the Jail, that seven-eighths of the prisoners charged with crime, had been brought there by intemperance, practised in tipping houses, or other places of resort where no license has been obtained, and would beg to inform this Court that some means should be adopted both to reduce the number of licensed houses, and to make some example of those persons who entrap unfortunate females to drunkenness and ultimate ruin."

The MONTREAL TRANSCRIPT mentions that several of the unfortunate persons injured by the bursting of the boiler on the steamer Lord Sydenham, have died lately; and that the number of deaths caused by that catastrophe is not less than fifteen or sixteen. No proper investigation seems to have taken place; either as to the state of the boilers before the occurrence, or the immediate cause of the accident; and unless the public journals agitate the question, public attention will not be again directed to the subject until some fresh disaster shall make it painfully prominent. In the State of New York, (and possibly the same precaution is observed in other States), there is an officer appointed by the Government, whose duty it is to inspect the machinery and boilers of every steamboat navigating the waters within the state boundaries every spring; and the boats are not permitted to ply until they obtain a certificate from this official: such a practice might be introduced here with advantage, and the expense defrayed by the fees which should be paid for each survey. The public safety demands that the lives of passengers should not be left entirely subject to the caprice or cupidity of proprietors.

DESERTION.—An American, named Dillaway, was accused before the Petty Sessions at St. Johns on the 25th ult. of enticing soldiers to desert. He pleaded guilty and was fined £40.

Robert Julian, Esq., Assistant Harbour Master, has been appointed Superintendent of the CUT DE SAC; and all dock and other dues payable by craft frequenting that harbour are to be paid to him.

On Friday last, Mr. Gortley, of the late firm of Keller & Gortley, committed suicide by shooting himself with a pistol. The unfortunate man lingered till Sunday, on which day he expired.

THE QUARANTINE ESTABLISHMENT at Grosse-Isle was closed for the season last week, and Dr. DOUGLAS and the other officers connected with it have arrived here.

Mr. Frenier, Mate of the Steamer Montreal, was unfortunately drowned at Three Rivers on Saturday night.

CONVICTS.—Mr. Maclaren left for Kingston on Saturday, with five prisoners sentenced to the Provincial Penitentiary for 3 years. The prisoners are all lads or young men, convicted of larceny; and the sentence, though apparently severe, is in reality more merciful to the prisoners than a shorter confinement in jail here, where they would be exposed to the contaminating influence of older rogues.

THE WEATHER, during the past week, has been very mild for the season, and favourable to the operations of the numerous vessels now loading at the different coves. It may be considered a portion of the "Indian Summer" which is generally looked for in the autumn. On Tuesday the atmosphere was dense and foggy; it was so thick and dark in the afternoon that the steamers for Montreal were obliged to lie at the wharf all night, and did not leave until the following morning about 7 o'clock; while the mail-boat due from Montreal early on Wednesday morning, did not arrive until 2 o'clock P. M.

A large number of outward bound vessels took advantage of a westerly breeze yesterday morning, and went to sea.

Port of Quebec.

ARRIVED, AMONG OTHERS:

Oct. 29th. Brig Vigilant, Gardiner, 14th July, Newcastle, Symes & Co., coals and glass. Bark Countess of Durham, Stowe, 11th Sept. Cuba, Lencraft, sugar.

INFORMATION WANTED.

INFORMATION wanted of MARIA ANN FERGUSON McNEES, who was born at Calcutta, in India, on the 16th December, 1832. Her mother, (whose maiden name was Maria Long,) died at Calcutta, on the 1st of May, 1831, leaving her a Baby in her Father's hands. She was brought home to England by her father (Dr. McNees,) in the latter end of December in the same year. In 1835, her father having volunteered his services in the Spanish War, left her (Mary Anne F. McNees,) in care of her Uncle, John Dugan of Belfast, in Ireland. On her father's return, he found his child gone, without any trace to find her out. Mrs. Dugan (widow of the aforesaid John Dugan,) is supposed to be in the neighbourhood of Brockville, near Little River, in the District of Montreal, and the said Mary Ann F. McNees, is in care of her Uncle, John Dugan of Belfast, in Ireland. On her father's return, he found his child gone, without any trace to find her out. Mrs. Dugan (widow of the aforesaid John Dugan,) is supposed to be in the neighbourhood of Brockville, near Little River, in the District of Montreal, and the said Mary Ann F. McNees, is in care of her Uncle, John Dugan of Belfast, in Ireland. On her father's return, he found his child gone, without any trace to find her out. Mrs. Dugan (widow of the aforesaid John Dugan,) is supposed to be in the neighbourhood of Brockville, near Little River, in the District of Montreal, and the said Mary Ann F. McNees, is in care of her Uncle, John Dugan of Belfast, in Ireland. On her father's return, he found his child gone, without any trace to find her out. Mrs. Dugan (widow of the aforesaid John Dugan,) is supposed to be in the neighbourhood of Brockville, near Little River, in the District of Montreal, and the said Mary Ann F. McNees, is in care of her Uncle, John Dugan of Belfast, in Ireland. On her father's return, he found his child gone, without any trace to find her out. Mrs. Dugan (widow of the aforesaid John Dugan,) is supposed to be in the neighbourhood of Brockville, near Little River, in the District of Montreal, and the said Mary Ann F. McNees, is in care of her Uncle, John Dugan of Belfast, in Ireland. On her father's return, he found his child gone, without any trace to find her out.
