HISTOGENETIC SYSTEM OF MEDICINE

A RESCUER RESCUED.

NATIONAL LIBRARY
 CANADA
 BIBLIOTHEQUE NATIONALE

All diseases successfully treated by the new system of pure and tasteless medicine. So-called incurable cases preferred.

THEORY—Rebuilding the diseased organs and tissues of the body with the same proximate principles and so on, which are normally prepared in the body by the glands.

"CADET" LANE'S OWN STORY.—"My sufferings for about 8 years have been very severe. While acting as nurse in an hospital I took typhoid fever, and during an unconscious spell fell out of my bed, injuring my spine and a vital organ internally. In about two months I tried to walk, but found I was very weak. Had pain in my back, internal weakness, and dragging down of the injured organs, complicated indigestion, sleeplessness and loss of appetite. I continued to grow worse in spite of all well-directed efforts (?). Pain and enlargement followed, also a scirrhus and cancerous growth. An operation was performed, with but only partial recovery. Then followed a long period of congestion, and again slight improvement. These conditions were repeated at intervals for years, with slight change in kind. About a year and a half ago

I went into Rescue work in London, and in the meantime a new complication appeared, viz., 'Change of Life,' which I am still undergoing. I often prayed to God to restore me to health, that He might use me more than ever in the glorious work of 'Rescuing the Perishing,' but I can assure you I felt discouraged often and lost faith in medicine, but kept faith in God. He had rescued my soul from error, and I believed He would yet rescue my body from disease. About two months ago I saw a book entitled 'Entire Revolution in Medicine.' I have not taken the medicine two months. Organs all healing and rapid 'waste' almost stopped. I am nearly well. I hope my friends in the 'Army' and elsewhere will try Histogenetic remedies and be convinced. I will answer enquiries."
