

COMMON SENSE IN MEDICINE.

(Montreal Star, January 5, 1881.) Dr. M. Souville, the Parisian physician and inventor of the Spirometer for the scientific treatment of diseases of the lungs and air passages, who recently took up his residence among us, seems to be meeting with excellent success. Already the doctor has given his system a trial and so far as we have learned, with both satisfaction and benefit. Doctor Souville makes a departure from the usual methods of treating diseases of the air passages. He contends that the proper mode of treating them is by inhalation and absorption, not by pouring drugs into the stomach, and thus upsetting and disarranging one part of the system in the hope of benefitting another. This argument certainly has the advantage of being common sense, which is always the best kind of sense. The doctor certifies that he has the courage of his opinions and confidence in his system, for he gives a standing invitation to physicians and sufferers to visit him and test his instruments free of charge. His office is at 13 Phillips Square, Montreal.

It matters not how often your advisers tell you that diseases such as bronchitis, asthma and catarrh are incurable; read the following notices and judge for yourselves:— MONTREAL, January 13th, 1881. DEAR DOCTOR.—I have great pleasure in making public my experience of the beneficial effects I have derived from the use of your Spirometer and remedies for the cure of Catarrh and Bronchitis, which I was afflicted with for several years. My health is now wonderfully improved since using your remedies. Your truly, G. HILL, Dorechester street, To Dr. M. Souville, 13 Phillips Square, Montreal.

MONTREAL, January 21st, 1881. MY DEAR SIR—I am very pleased to bear testimony to your mode of treating throat diseases. My little girl, eleven years of age, has had various attacks of bronchitis. Last fall she had one of those attacks and was confined to the house for some seven or eight weeks. After using one of your Spirometers, with catarrh and bronchitis, which I was afflicted with for several years, my health is now wonderfully improved since using your remedies. I am, yours truly, R. L. GAULT, To Dr. M. Souville, Montreal.

MONTREAL, January, 1881. Dr. M. Souville Montreal. DEAR SIR—I am very pleased to give you this testimony of the benefit I have received from the use of your instrument, the spirometer, and the remedies accompanying it for my disease. I was three years troubled with catarrh of the larynx, loss of voice and bronchitis, and I am happy to say that I am now quite cured, and have to thank you for it by the use of your Spirometer and remedies. Yours respectfully, S. HILTON, Montreal.

LUBY'S. A lady, an actress, who took great pride in her magnificent chevelure, found it suddenly turning grey. She was disconsolate, but fortunately found out in time the virtues of a certain remedy which made the Grey Hair disappear as if by magic, and beside served as a rich perfume.

FOR THE HAIR! How common and at the same time how painful it is to see young people prematurely bald or prematurely grey. It is a source of humiliation to those deficient of hair and a source of anxiety to their friends.
