# THE STUDY OF ANATOMY.

THE STUDY OF ANATOMY.

The following are Hon. Mr. Mousseau's resolutions of which he has given notice of motion for the beloved wife our esteemed fellow-citizen. Mr. James

THE STUDY OF ANATOMY.

The following are Hon. Mr. Mousseau's resolutions of which he has given notice of motion, respecting the study of anatomy:—Resolved, lst, That for the purposes of the study of anatomy the Province of Quebec be divided into two sections. which shall be known as "The Quebec section," and "The Montreal Section," which sections shall respectively comprise a just judicial district as the Lieutenant-Governor in Council may be pleased to specify, and that it is all be lawful for the Lieutenant-Governor in Council to appoint during his pleasure an in-It is with profound regret that we chronicly to day the sudden demise of the beloved with of our esteemed fellow-citizen, Mr. James O'Brien. The deceased lady was the second daughter of Edward Quinn, Eaq, of Liongue Pointe, and was in the forty-fifth year of her age. Her illness was of very short duration, and was a painful blow to her tamily and a large circle of warm and attached friends. The day previous to her death, Mrs. O'Brien had vietted her aged mother at Longue Pointe, and was apparently in the best of spirits and health. On returning to her home, however, she complained of illness, and retired to her bed. Medical assistance was summened and Drs. Hingston and Harkin attended. Their efforts were, however, in vain, and on the following day (Thersday) at 4 o'clook in the afternoon, she breathed her last. It would be almost unnecessary to speak of the many good qualities which endeared the deceased lady te all those with whom she came in contact. A kind mother, a good wife and a generous giver to the poor, her loss will be keenify leit by all. Her social qualities, enhanced by mental endowments of rnore than ordinary brilliancy, together with a warm and affective for the max and and server of the peace, by the inspector of anatomy of the judicial district, except those of Quebec and Montreal, in which the drile will be liked by the inspector of anatomy of the judicial district, except those of Quebec and Montreal, in which the drile will be liked by the inspector of anatomy of anatomy of the judicial district, except those of Quebec and Montreal, in which the drile will be liked by the inspector of anatomy of anatomy of the judicial district, except those of Quebec and Montreal, in which the drile will be liked by the inspector of anatomy of the given and as ub-inspector of anatomy of the judicial district, except those of Quebec and Montreal, in which the drile will be liked by the inspector of anatomy of the judicial district, except those of Quebec and Montreal, in which the drile will be liked by the

By our rode as Minister of Foreign Affairs; and until code all dewers created since 1865 had to be a few years ago continued to occupy a very registered, but those created before that date prominent place in Russian politics. were not subject to that formality. That state of things is now, changed; by an act of Partiament sanctioned at Quebec, 30th June, 1881, it was enacted that all dowers created before 1865 should be registered within two years, failing which they would not affect the properties of the husband and father if transferred to third parties. I have no doubt that in hundreds of instances this necessary registration shall not be made, and thousands and thousands of dollars shall be lost to widows and orphans. I think it is the duty of the newspapers, not only to publish this throughout the country to warn the public of the existence of this law before it is too late, but also to publish the manner of affecting this regis-

### ST. PATRICK'S SOCIETY. The adjourned monthly meeting of St.

piece of workmanship, and we doubt if there

The programme for the grand concert to be held on the evening of St. Patrick's Day, in Nordheimer's Hall, was read and adopted.

The following artists, under the direction of Mr. Wm. Bohrer, are to take part; Mrs. Page Threwer, Mrs. Pariatt, Miss. Morrison-Fiser, Miss Wyse (Quebec) Miss Stanley, Miss Bohrer, Miss Melville, (Point St. Charles) Herr G. Feist, Major Hopper and Mrs. H. Wyse, (Quebec) J. Rowan, and Max Bohrer, planist. Mr. J. J. Hawkins, M.P.P. Bothwell, and other gentlemes, including the New York delegate will deliver addresses.

During the evening a discussion ensued on the propriety of erecting a monument to the memory of the late Mr. B. Devlin, a former President of the Society. The suggestion was most enthusiastically received. It was also suggested that a suitable monument tims of the ship fever of 48. This suggestion was also received with favor.

Notice of motion was given for next meeting that £25 be sent in the name of the Society for the destitute people in Ireland. The meeting then edjourned, after which

the Committee of Management proceeded to make the necessary arrangements for the due celebration of St. Patrick's Day.

ST PATRICK'S CHURCH, BELLEVILLE. In company with Mr. Richardson, frescoe painter, of Belleville, we had the pleasure a few days ago of inspecting the decoration work of St. Patrick's Church recently performed by that gentleman, and which has transformed the edifice into one of the most chaste and elegant places of worship in the district. The bases of the walls are warm drabs of various shades, with panels, the centre of which are of azure blue. The celling is divided off in circles with decorated borders, and the spaces between the circles are filled in with angel shields bearing various emblems of the Cathol's Church. The Buckle Railway, in connection with the Great. circles are filled in with angel shields bearing various emblems of the Catholic Church. The centre of the circles are of azure blue, as are also those of the core of the celling. Elegant gilt centre pieces surround the gazaliers and lend a richness to the general effect. But it is upon the sitar that the finest work has been done. A painting of the Crucifixion in oil, the execution of which is of a high character, occupies a position over the alter, surmounted by the inscription, Gioria in Excelse 1823. The only defect in the painting is in the background which has been slightly discolored by the action of frost, but this will at once be remedied. On each side of the alter are panels of azare blue, surmounted by decorated crosses. The table is beatifully ornamented, and underneath are five niches containing small statutes of apostles and bisnops of the Church. It is hardly possible to give an idea of the general effect produced by the chaste designs and harmonious combination of colors in the whole work—the edifice has to be seen to be admired. On Sunday evening last by gaslight the church looked a model of decorative art, and the congregation were delighted by the transformation. All that is now required to pat \*\*. Fatrick's Church on a level with the other churches of the town is a bell, and they, rather McDonagh, to whom a legen measure of credit is due for Church on a lever with the other churches of the town is a bell, and they, rather McDonagh, to whom a large measure of credit is due for the great improvement effected in the building assures us that this much needed addition will soon be made.

The adjourned monthly meeting of St. Patrick's Society was held last evening in St. Patrick's Hall, the President fn the Chair. A communication from the Irish Societies of New York requesting the Society to send a delegate to that city to take part in the celebration of the national day, was received, and it was unanimously resolved that Mr. P. O'Meara, Assistant City Clerk, the named. This gentleman being present accepted the position, and is to proceed to that city at once.

May his soul rest in peace.—Com.

Mr. James Gordon, whose sudden death occurred yesterday, march 7th, was a gentleman whose decease is deeply regretted by many of our fellow citizens. He was born in Edinburgh and thirty seven years ago arrived in this city, connecting himself with the then was have deceased in the city of the will know distillerly firm of Handyside & Co. and marrying a daughter of Mr. Adam Handyside. Subsequently he commenced business on the leading position, and is to proceed to that city at once. from business his son, Mr. James Gorden as-sumed it, and has been carrying it on with con-siderable success. Mr. Gordon was fifty nine years of age, and up to within an hour of his death was considered as being in excellent health. Indeed, he was on the streat yesterday morning, but cited suddenly while sitting at lunch at his residence on Lincoln Avenue. He had a large number of friends in business and social life who will deeply regret his sudden removal. removal.

Mr. Thomas Macfarlage Bryson, an old and respected cluzen of Montreal, died on Tuesday, March 6th, at his residence, 14 Belmont street, in the 64th year of his age. The deceased gentleman was the fourth and last surviving son of the late Alexander Bryson, who came to this country from Ireland about the year 1820. He was born and has always resided in this city. At footleen years of age he entered the employ of the late Sugh Mathewson as dry goods clerk, and was subsequently employed by J. Connal & Company. He then went into business for himself as a grocer at the corner of St. Lawrence and St. Catherine streets, where he continued for some three or four years. After an interval of two years he again went into a similar business on St. Joseph street, and six years later removed to the corner of St. Sacrament and St. Peter streets, where he confined intonself to the wholesale branch of the trade until 1860, when he retired from mercantile life. He was a life Mr. Thomas Macfarlane Bryson, an old and wholesale branch of the trade until 1850, when heretired from mercantile life. He was a life governor of the General Hospital, and took a deep interest in it, and of the House of Industry and Refuge he was one of the most active supporters. He was a director of the Sun Life Insurance Company, and was connected with other commercial companies, From its foundation he was a trustee and leading member of the Dominion Square Methodist Church, and was one of the principal promoters of the church extension movement, resulting in the building of a number of the Methodist churches of the city. His painful illness conflued him to his residence for over five months.

Bockie Railway, in connection with the Great North of Scotland Rathway, was cut on Saturaday in the vicinity or Portsoy. During the day numbers of townspeople visited the works.

FATAL BUENING ACCIDENT IN DUNDEE—A girl named Maggio Moss, daughter of Mrs. Moss, a mill worker, residing in Watson street, was so severely burned on Friday week that she died in the Infirmary early on Saturday. Deceased, who was four years of age, was, along with a younger brother, left by her mother in bed. On the latter going to her work at six o clook in the morning, and about two hours later, the neighbors, alarmed by loud screams, entered Mrs. Moss house, when they found the girl with her clothing in flames, and before these could be extinguished the girl was severely burned about the head, face, ned, and arms. It is supposed that she had been amusing herself by burning paper at the fire, and that her dress had ignited.

ALLEGED HEARTLESS CONDUCT BY A FATHER. FATAL BUENING ACCIDENT IN DUNDRE --

dress had ignited.

Alleged Heartless Conduct by a Father.—On Monday a respectably attired man named Albert Gordon Porteous, alice George Person, appeared at the Edinburgh Police Court on a charge of abandoning and exposing his child Evelyn Meya Pearson in Belfast. It is alleged that the prisoner, who resided at Tuiristane Road, Edinburgh, on the 2d November last had been on a visit along with his wife to Belfast, and before leaving for home packed the little one in a wicker hasket and sent it to an address in the country. Fortunately, however, the child was discovered before it had sustained any injury. On Sunday the prisoner was apprehended by the Edinburgh Police on a warrant from the Royal Irish Coustabulary. Accused was handed over to one of the Irish officers who was in attendance to convey him to Belfast. tendance to convey him to Belfast.

MELANCHOLY DEATH OF A WOMAN IN EDIN-MELANCHOLT DEATH OF A WOMAN IN EDINBURGII.—On Sunday afternoon a married
woman named Anne smith, residing at 19
Home street, reducingly, died in Einburgh
Royal Infirmary under the following paioful
circumstances. On Friday night the deceased
retired to rest in ner usual health, neglecting,
however, to take out her false teeth. About
three o'clock on Saturday morning she was
awakened by a choking sensation, and thrusting her fingers into her mouth to remove the
teeth, which were set in a gold plate with a
hook at each end, she unfortunately pushed the
hooks firmer into her throat. After vainly endeavoring for some hours to extract them, sirs,
smith was taken to the Infirmary on Saturday
ferenoon. Professor Annandale, under whose
care the patient was placed, was unable to re
lieve the unfortunate woman, as the hooks had lieve the unfortunate woman, as the hooks had got too deep and secure a hold in the throat ars. Smith lingered on in great agony fill Mon-day afternoon, when she expired The deceased leaves a family of four children.

# A PROFESSIONAL CONFESSION.

The Unusual Experience of a Prominent Man Made Public.

The following article from the Democrat and Chronicle of Rochester, N.Y., is of so striking a nature, and emanates from so reliable a source, that it is herewith re-published entire. In addition to the valuable matter it contains, it will be found exceedingly interesting:

To the Editor of the Democrat and Chronicle:-Six,-My motives for the publication of the most unusual statements which follow are, first, gratitude for the fact that I have been saved from a most horrible death, and, secondly, a desire to warn all who read this statement against some of the most deceptive influences by which they have ever been surrounded. It is a fact that to-day thousands of people are within a foot of the grave and they do not know it. To tell how I was caught away from just this position, and to warn others against nearing it, are my objects in this communication. On the first day of June, 1881, I lay at my

residence in this city surrounded by my friends and waiting for my death. Heaven only knows the agony I then endured, for words can never describe it. And yet, if a few years previous, any one had told me that I was to be brought so low, and by so terrible a disease, I should have scoffed at the idea. I had always been uncommonly strong and healthy, had weighed over 200 pounds and hardly knew, in my own experience, what pain or sickness were. Very many people who will read this statement realize at times that they are unusually tired and cannot account for it. They feel dull and indefinite pains in various parts of the letter. The welfare of those who may posbody and do not understand it. Or they are exceedingly hungry one day and entirely without appetite the next. This was just the way I telt when the relentless malady which had fastened itself upon me first began. Still I thought it was nothing; that probably I had taken a celd which would soon poss away. Shortly after this 1 noticed a duli, and at times a neuralgic pain in my head, but as it would come one day and be gone the next, I paid but little attention to it. However, my stomach was out of order and my tood often failed to digest, causing at times great inconvenience. Yet I had no ides, even as a physician, that these things meant anything serious or that a monstrous disease was becoming fixed upon me. Candidly, I thought 1 was suffering from Malaria and so doctore:

myself accordingly. But I got no better. I next noticed a peculiar color and odor about the fluids I was passing—also that there were large quantities one day and very little the next, and that a persistent froth and scum appeared upon the surface, and a sediment settled in the bottom. And yet I did not realize my danger, for, indeed, seeing these symptoms continually, I finally became accustomed to them, and my suspicion was wholly disarmed by the fact that I had no pain in the affected organs or in their vicinity. Why I should have been so blind I cannot undecatand.

There is a terrible future for all physical neglect, and impending danger always brings a person to his senses even though it may then be too late. I realized, at last, my critical condition and aroused myself to overcome it. And, oh! how hard I tried! I consuited the best medical skill in the land. I visited all the prominent mineral springs in America and traveled from Maine to California. Stil I graw worse. No two physiagreed as to my malady. One clans said I was troubled with spinal irritation; at other, nervous prostration; another, malaria; another, dyspepsia; another, heart disease; another, general debility; another, congestion of the base of the brain; and so on through a long list of common discusses, the symptoms of all of which I really had. In this way several years passed, during all of which time I was steadily growing worse. My condition had really The slight symptoms I at first experienced were developed into terrible and constant dis orders-the little twigs of pain had grown to oaks of agony. My weight had been reduced from 207 to 130 pounds My life was a torture to myself and friends. I could retain no food upon my stomach, and lived wholly by injections. I was a living mass of paid. My pulse was uncontrollable. In my agony I frequently fell upon the floor, convulsively clutched the carpet, and prayed for death. Morphine nad little or no effect in deadening the pain. For six days and nights 1 had the death-premonitory biccoughs con-tently. My urine was filled with tube casts and albu

men. I was struggling with Bright's Disease of the Kidneys in its last stage. While suffering thus I received a call from my pastor, the Rev. Dr. Foots, rector of Sc Paul's Church, of this city. I felt that it was our last interview, but in the course of conversation he mentioned a remedy of which I had heard much but had never used. Dr. Foote detailed to me the many remarkable oures which had come under his observation, by means of this remedy, and urged

me to try it. As a practising physician and a graduate of the echools, I cherished the prejudice both natural and common with all regular practitioners, and derided the idea of any medi cine outside the regular channels being the least beneficial. So solicitous, however, was Dr. Foote, that I finally promised I would The Louisians State Lottery, under waive my prejudice and try the remedy he so highly recommended. I began it use on the 1st day of June and took it according to direc-

food upon my stomach. In a few days I noticed a decided change for the better se also did my wife and friends. My hicooughs ceased and I experienced less pain than formerly. I was so rejoiced at this improved condition that, upon what I had believed a few days before was my dying bad, I vowed. in the presence of my family and friends, should I recover I would both publicly and privately make known this remedy for the good of humanity, wherever and whenever stating in full the symptoms and almost bepelessness of my disease and the remarkable means by which I have been saved. My improvement was constant from that time, and in less than three months I had gained 26 pounds in flesh, became entirely free from drew \$2 000—sold to parties living in New pain, and I believe I owe my life and present York, New Orleans, Washington, D.U., Huntscondition wholly to Warner's Safe Kidney and Liver Cure, the remedy which I used.

Binca my recovery I have thoroughly reinvestigated the subject of kidney difficulties and Bright's disease, and the truths developed are actounding. I, therefore, state deliberately and as a physician, that I believe that more than one-half the deaths welch occur in America are caused by Bilent's disease of symptoms of its own (indeed, it vorces in Connection in a year, against 91 in often develope 4% without apy 20 pein 1849. An analysis of the state o

whatever in the kidneys or their vicinity), but has the symptoms of nearly every other known complaint. Handreds of people die daily, whose burials are authorized by a physicians c-rificate of "Heart Disease." "Apoplexy," "Paralysis," "Spinal Complaint," "Bheumatism," "Poeumonia," and othercommon complaints, when in reality it was Bright's Disease of the Kid-Few physicians, and fewer realise the extent of this people. lisease or its dangerous and insidious nature. It steals into the system like a thief, maniiests its presence by the commonest symptoms, and fastens itself upon the constitution. before the victim is aware. It is nearly as hereditary as consumption, quite as common and fully as fatal. Entire families, inheriting it from their ancestors, have died, and yet none of the number knew or realized the mysterious power which was removing them. Instead of common symptoms it often shows none whatever, but brings death suddenly, and as such is usually supposed to be heart. disease. As one who has suffered, and knows by bitter experience what he cays, I implore every one who reads these words not to neglect the slightest symptoms of Kidney difficulty. Certain agony and possible death: will be the sure result of such neglect, and no one can afford to hazard such chances

I am aware that such an unqualified statement as this, coming from me, known as I am throughout the entire land as a practitioner and lecturer, will arouse the surprise and possible a imesity of the medical profession and astonish all with whom I am acquainted, but I make the foregoing statements based upon facts which I am prepared to produce and truths I can substantiate to the which sibly be sufferers such as I was, is an ample inducement for me to take the step I have. and if I can successfully warn others from the dangerous path in which I once walked. I am willing to endure all professional and personal consequences.

J. P. HENION, M.D.

## (Continued from First Page.) THOMAS PAINE.

Seeing that Fr. Kohlman had completely failed ic maiting any impression upon him, and hat Paine would listen to nothing that came from him, nor would even suffer him to speak. I him, nor would even suffer him to speak. I finally concluded to try what effect I might have. I accordingly commenced with observing: "Mr Palne, you will certainly allow there exists a God and that this God cannot be indifferent to the conduct and action of His creatures." "I will allow nothing, sir." he hastily resided. "I shall make no concessions." "Wolf. sir if you will listen calmly for one moment," said I, "I will prove to you that there is such a Being, and I well demonstrate His very nature that he cannot be an idle speciator cfour conduct." "Sir, I wish to hear nothing you have to say. I see your object, gouttemen, is to trouble me I wish you to leave the room." This he spoke in an exceedingly angry tone, so much me I wish you to leave the room." This he spoke in an exceedingly angry tone, so much so that he foamed at the mouth. "Mr. Paine," I continued, "I assure you our object in coming inther was purely to do you good. We had no other motive. We have been given to understand that you wished to see us, and we are come accordingly, because it is a principle with us never to refuse our services to a dying man asking for them. But for this we should not have come, for we never obtrude upon any innave come, for we never obtrude upon any in-

have come, for we never obtrude upon any individual."

Paine, on hearing this, seemed to relax a
little. In a midder tone than he had hitherlo
used ho replied: "You can do me no good now; it
is too late. I have brief different physicians,
and their remedies have all failed. I have
nothing now to expect? this he spoke with a
sigh) "but a specty dissolution. My physicians
have, indeed, told me as much." "You have
misunderstood me," said I immediately to him.
"We are not come to prescribe any remedies for
your bodily complaints; we only come to make
you an offer of our ministry for the good of your
immental soul, which is in great dang, rof being
forever cast off by the Almighty on account of
your sine, and especially for the crime of having villified and rejected His word and uttered
biasphemios against His Son." Patac, on hearing this was roused into a fury; he gritted his
teeth, turned and utsted bimself several times
in his bed, uttering all the while the bitterest
imprications. If firmly believe such was the
rage in which he was at the timethat if he had a
pisted himself more like a madman han a rational creature. "Begone!" said he, "and ducted himself more like a madmauthan a ra-tional creature. 'Begone!" said he, "and t ouble me no more. I was in peace,' he con-tinued."until you came." "We know better touble me no more. I was in neace, he continued, "until you came." "We know better than that," replied F. Kohlmai; "we know better than that," replied F. Kohlmai; "we know that you cannot be in peace—there can be no peace for the wicked; dod hath said it." "Away with you. and your God, too; leave the room instantly," he exclaimed; "all that you have uttered are lies, filely lies, and it hat you have uttered are lies, filely lies, and it hat you have in ore time! would prove it, as I did about your impostor, Jesus Christ." "Monster! exclaimed F. Kohlman, in a burst of zeal, "you will have no more time; your time has arrived. Touk rather of the awful account you have already to offer and implore pardon of God. Provoke no longer His just indignation upon your head." Painchere again ordered us to re-lie, in the highest pitch of his voice, and seemed a very maniac with regeard madness. "Let us go." said I to F. Kohlman; "we have nothing more to do here. He seems to be entrely abandoned by dod. Further words are lost upon him."

Upon this we both withdrew from the room a dieft the unfortunate man to his thoughts. In ver before or since beheld a more callous man. This you may rely upon, it is a faithful and correct account of the transaction. I remain your affections a brother,

main your affections e brother, † Reneptor, Bp. of Baston.

MARDI GRAS AND ITS DOINGS IN NEW OBLEANS

New Orleans in its spring verdure clad wit-nessed a gay scene at its last grand day of dissipation. Never was there a Mardi Gras so brautifully observed or largely attended ince the days of its Spanish founders. A. lew days after, on the 13th February, another incident occurred, one now not unusual, however. Over \$265,000 were scattered over the world in prizes at the 153rd Grand Monthly Distribution of the sole management of Generals G. C. Beauregard of La., and Jubai A. Early of Va. Ticket No. 57,012, sold in fifths at tions. At first it sickened me; but this \$1 each; drew the first capital, \$76,000—
I thought was a good sign for Charles Rightly of Maysville, Ala, our fifth; me in my deblitated condition. I continued to take it; the sickening sensation departed and I was able to retain Bank of Louisville, Ky. The second capital (\$25,000) was won by No. 61,996-one-fifth held by Goo. Kohler of Zaleski, O., collected through the First Nat'l Bank of Cincinnati: O. The third capital (\$10,000) was drawn by No. 22605-one fifth went to George E. Harris of the Surgeon-General's (U.S Army) Office, Washington, D.C.; another to L. R. Davis, No 232 Washington street, New Orleans, La.; another to Samuel Cook, of No. 1508 Tenth street, N W., Washington, D.C; and another to P. Luscy, 520 Burgundy I had an opportunity. I also determined st, New Orleans, La. Nos. 49,778 and 99,023 that I would give a course of lectures in the cach drew the \$6,000, the fourth prizes, and Corinthian Academy of Music of this city, they went to Henry Mendel, collected through they went to Henry Mendel, collected through Mesers. Sensongood, Sons & Co., of Cincin-nail, O.; another was collected through the Nodaway Valley Bank of Maryville, Mo.; G. Z iss of Putisoniphia was another. Ticketa Nos. 6.051, 37.654 65.986, 81,440, 83.974, each

La, will be fully informed. In a lecture at New Haven, Conn., on Saturday night, R.v. Mr. Dyke, Scoretary of the kidneys. This, may sound like a resh statement, but I am prepared to fully verify the New Ko land Divorce Beform League, it. Bright's disease has no detinotive said there was now an average of 440 disease.

ville, Ala., Allegheny, Pa., Omaha, Neb.,

Presscott, Ark., and Toronto Canada. Many

parties dislike their successes published, hence they are omitted. Next opportunity will be on Tuerday, April 10th, of which any
