INSTRUMENTS for PHYSICAL DEFORMITIES,

WORKER IN

BRASS, STEEL AND IRON,

OF EVERY DESCRIPTION,

**36 VICTORIA SQUARE,
Montreal.**

F. GROSS'S ARTIFICIAL LEGS,

Distinguished in their superiority for combining in the highest degree Scientific and Anatomical principles with the articulation of the natural limb, and possessing great strength, with lightness and durability. They are perfectly adapted to all forms of amputation. Every limb is made first-class, of the best material, and fully warranted. They are recommended by the leading Surgeons, and universally approved and recommended.

F. Gross's Chest-Expanding Steel Shoulder Braces.

Manufactured at the Canada Truss Factory, 36 Victoria Square, Montreal. This is an entirely new and superior article for Ladies and Gentlemen who have acquired a habit of stooping. This Brace is certain to answer the purpose of keeping the Chest expanded and the body upright; the two Steels on the back running over the shoulder-blades, giving a gentle and even pressure, they will prove conducive to health and gracefulness; and being strong and well made, will last a long time and always feel comfortable. For Gentlemen, this Chest-Expander will enable them to do away with the common Suspenders (which are injurious to health) by simply cutting holes in the leather of the Belt around the waist, and thereby keeping up the pants.

CAUTION TO PARENTS.—Parents, look to your children! Gross's newly-invented Steel Shoulder-Braces are almost indispensable for children, as they are liable to contract the habit of stooping and shrugging their shoulders at school, causing them to grow narrow-chested, and laying the foundation for consumption and lung-diseases. Parents should bear this in mind, as wearing our Braces will counteract this bad habit.

I beg to call particular attention to the London Belt Truss. This Truss—for the cure and relief of every species of Hernia admitting of a reduction within its natural limits—will be found to afford to those laboring under this common bodily infirmity instantaneous relief, and is so simple a contrivance that it may be worn with ease in any posture of the body, during sleep, or when taking violent exercise, and, when properly fixed on, is not perceptible. The pressure obtained is gentle and continuous, and may be increased or diminished at pleasure.

F. Gross can produce a great number of certificates from doctors and others to show that in all cases this Truss has given great satisfaction, and been applied with complete success.

ORDERS PROMPTLY ATTENDED TO.
