Minard's Liniment is the Hair Restorer.

### MISCELLANEOUS.

An English writer declares he saw two salmon fight a duel. The fish plunged at one another for two hours, and night came on, and the end of the battle could not be witnessed.

### THE CHOLERA SCARE.

Fear kills more than cholera. Severe diarrhoea, purging, colic, cramps, etc., are often mistaken for choleraic troubles. A few doses of Dr. Fowler's extract of Wild Strawberry will remove both the disease and the terror it inspires.

A philosophic observer believes there is something wrong in the social system that permits more than 10,000 sewing girls and women to toil for 15 hours a day in New York "sweat shops," in order to earn 50 cents.

Dangerous Summer Complaints.—Cramps, dysentery, cholera morbus, diarrhoea, and, indeed, all bowel complaints, require quick relief, or the result may be serious. At this season these troubles are common, and no family should be without a supply of Perry Davis' Pain-Killer, a safe, sure, and speedy cure, for all the troubles named. This medicine was discovered many years ago, and time has proved its excellence. Every reputable druggist keeps a supply on hand, and each bottle is wrapped with full directions. 25c. New Big Bottle.

The other day a burglar at Silvertown was tracked in a queer manner. Not content with valuable booty, he carried off a bag of corn. From a small hole in the bag, some grains dropped at intervals, sufficient to make a trail, which a sharp detective followed right up to the thief's resort, and there arrested the criminal with the property in his possession.

Constipation, and all troubles with the digestive organs and the liver, are cured by Hood's Pills. Unequaled as a dinner pill.

Soups furnish a curious instance in which Germany differs from other nations in the preparation of food. Milk soups, sweet and savory, chocolate soups, almond soup, and wine soup, frothed lemon soup, and beer soup, are among the number. While soups made of apples, pears, strawberries, currants and cherries are not uncommon. There are also a large number of fish soups which bear a strong resemblance to the fish soups of the Russian kitchen.

An Extended Popularity.—Brown's Bronchial Troches have been before the public many years. They are pronounced universally superior to all other articles used for similar purposes. For relieving Coughs, Colds, and Throat Diseases, they have been proved reliable. Sold only in boxes. Price, 25 cents.

The attempt in Baltimore to run a boys' and girls' school very near each other, and prevent flirting, will prove a failure. To have young girls and lads within signalling distance of each other, and avoid the indulgence of this delightful and very natural diversion, is simply impossible. We have many new things, says a shrewd student of mankind, but not new human nature.—Baltimore Sun.

### THE TESTIMONIALS

Published on behalf of Hood's Sarsaparilla, are as reliable and as worthy your confidence, as if they came from your best and most trusted neighbour. They state only the simple facts in regard to what Hood's Sarsaparilla has done, always within truth and reason.

Bismarck says that when we read a medical book, we fancy we have all the maladies it describes. But when we read a book on morals, we at once discover that our neighbours have all the faults it points out. "In the tete-a-tete," he remarked on another occasion, "a woman speaks aloud to a man who is indifferent to her, low to the man she is near loving, and keeps silent with the man she loves."

### B. B. B.

Burdock Blood Bitters Is a purely vegetable compound, possessing perfect regulating powers over all the organs of the system, and controlling their secretions. It so purifies the blood that it

### CURES

All blood humors and diseases, from a common pimple to the worst scrofulous sore, and this combined with its unrivalled regulating, cleansing and purifying influence on the secretions of the liver, kidneys, bowels and skin, render it unequalled as a cure for all diseases of the

### SKIN

From one to two bottles will cure boils, pimples, blotches, nettle rash, scurf, tetter, and all the simple forms of skin disease. From two to four bottles will cure salt rheum or eczema, shingles, erysipelas, ulcers, abscesses, running sores, and all skin eruptions. It is noticeable that sufferers from skin

### DISEASES

Are nearly always aggravated by intolerable itching, but this quickly subsides on the removal of the disease by B.B.B. Passing on to graver yet prevalent diseases, such as scrofulous swellings, humors and

### SCROFULA

We have undoubted proof that from three to six bottles used internally and by outward application (diluted if the skin is broken) to the affected parts, will effect a cure. The great mission of B. B. B. is to regulate the liver, kidneys, bowels and blood, to correct acidity and wrong action of the stomach, and to open the sluice-ways of the system to carry off all clogged and impure secretions, allowing nature thus to aid recovery and remove without fail

### BAD BLOOD

Liver complaint, biliousness, dyspepsia, sick headache, dropsy, rheumatism, and every species of disease arising from disordered liver, kidneys, stomach, bowels and blood. We guarantee every bottle of B. B. B. Should any person be dissatisfied after using the first bottle, we will refund the money on application personally or by letter. We will also be glad to send testimonials and information proving the effects of B. B. B. in the above named diseases, on application to T. MILBURN & CO., Toronto, Ont.

Cartridges are made in England with compressed air for the explosive. They are good only for short range, and are used for rifle practice.

The University of Pennsylvania will contribute to the folk-lore department of the World's Fair, a collection of the games of the world. The origin of playing cards will be traced from the primitive knuckle bones up to the Chinese cards of the present.

Professor Dewar, whose experiments in producing intense cold and thereby reducing air and other gases to liquid form, and which have recently attracted so much attention, placed the vessel containing these condensed products in a vacuum chamber, to prevent heat from reaching the inner stopple. He thought that he thereby stopped the process of radiation, and proceeded to develop from his supposed discovery some remarkable theories about the passage of heat through interstitial space. The editor of "Power," however, declares that radiation goes on just the same, vacuum or no vacuum; and that it is but convection and conduction that was stopped. If so, the Professor's reasoning about interplanetary ether is groundless.
