

power. In the event an antenna, directional in the horizontal plane, is proposed, the directional pattern and other pertinent information shall be submitted.

(3) Each country shall have 15 days from the date of notification in which to protest the proposed assignment.

(4) If, within the 15 day period prescribed in (3) above, no objection is raised, a notified assignment shall be considered final. Wherever possible assignments made within 250 miles of the border should be in accordance with Appendices I and II.

Finally, the same note states that no allocation plans have been adopted as yet for assignment of stations in the band from 88 to 92 megacycles, which has been designated for use by non-commercial educational broadcasting in both countries, and that when such a plan has been formulated, the procedure specified above shall apply.

I have the honor to inform you that an agreement in the sense of the foregoing paragraphs is acceptable to the Government of the United States, and that this Government agrees to consider the Embassy's note No. 7 of January 8, 1947, together with the present reply thereto as placing on record the understanding arrived at by the two Governments on the above mentioned subject, it being agreed that the present allocation plan should not prejudice any subsequent agreement regarding frequency modulation channels which may be accepted by both Governments at future International Telecommunications Conferences.

Accept, Excellency, the renewed assurances of my highest consideration.

For the Secretary of State:

GARRISON NORTON
