Cartney's.			

Leave Hamilton by King street west, until Hamilton and Dundas R.R. is passed, then south to Ancaster over good stone road, rather hilly; thence west to Brantford, road fair. From Brantford to Woodstock is fairly level, mostly good gravel with some sand, and after rain. Leave Woodstock by Dundas street to Woodburn Mills, then west to Ingersoll and London, over good gravel roads. Leave London by York street bridge and along Wharnccliffe road to Lambeth and south to St. Thomas, good gravel. Thence *via* Talbot road to Port Talbot and north-west to Wallacetown, the latter part of the road being hilly. Very heavy sand between Wallacetown and Clearville, with many hills, then road improves in surface and hills disappear, becoming finally a regular race track for the last 45 miles. See also route Wallacetown to Blenheim.
