BORROWINGS OF CANADIAN CITIES

Many New Municipal Loans Making Their Appearance at London.

LONDON, Feb. 9.—The new loan for the City of Toronto, referred to last week, will not make its appearance for some little time. While the market is undoubtedly in a vigorous condition, it is worth while noting by those Canadian municipalities who are obliged to come to London sooner or later to raise existing obligations, that the present eagerness shown to subscribe to new issues is unlikely to last for an indefinite period. Those cities, therefore, who are holding back in the hope of securing even better prices a little later will, perhaps, meet with disappointment, if they delay unduly. There is a big rush in the market just now from foreign quarters, and the other dominions.

Quotations today include: British Columbia bonds, 1917, 4 1/2 per cent, 100-102.
