Demand Being Limited, Prices Remained Stationary on Wholesale Market.

NO CANADIAN PEACHES

Only American Fruit of This Category on Sale—This Rose Slightly.

Grocers here had a shipment of plums from J. C. Ashburner of St. Catharines, which were readily disposed of.

The American peaches were a slightly higher price, with the prospect of going still higher.

LONDON EXCHANGE HAS VIOLENT RISE

Increase in New York Due to Expiring of Many Bills Shortly.

Canadian Press Despatch. NEW YORK, Sept. 28.—By reason of its important bearing upon the international money market today's violent rise in exchange on London overshadowed all further financial developments.

The increase was occasioned by an advance in London bills, many 90-day bills expiring shortly.

The general expectation was that these maturities would be met by new grain and cotton bills, but the supply of the latter has been especially small, because of the embargo on exports of that staple.

Moreover, the \$100,000,000 gold pool was counted on to relieve the exchange situation, but delay in the consummation of that project has added to the general confusion of the market, which was burdened with large short interest.

Profusion of the gold fund, the local currency in charge was in active communication today with banks at other reserve centres, urging the speedy payment of their share of the pool.

The fact that a portion of the \$100,000,000 will be available for use before the end of the week.

Apart from the flurry in foreign exchange, which reacted slightly later, most of the day's news was of a constructive character.

Business in the western states holds steady, as indicated by traffic returns. Chicago reported enormous shipments from farms, with freer markets in the southwest.

Another significant development in the middle west is the easier tone of the money market.

It is noteworthy that money eased here some four months or over year ago, and that the new city notes received higher quotations, with a better enquiry for other securities.

There were some foreign sales of United States bonds and notes under the new arrangement of the stock exchange, but no figures were available.

It is known, however, that practically all these transactions were at moderate concessions.

WHEAT ADVANCED ON NEW RUMORS

Chicago Pit Excited by Reported Russian Ultimatum to Turkey.

Canadian Press Despatch. CHICAGO, Sept. 28.—Rumors of an ultimatum from Russia to Turkey had considerable effect today with causing an advance in the price of wheat.

Closing quotations were steady at 1/2c to 1 1/2c above Saturday night.

Corn suffered a net decline of 3/4c to 1c, but on a finished with a gain of 1/2c on provisions, the outcome varied from unchanged figures to a rise of 1/2c.

According to an unconfirmed report, Russia's demand was that Turkey eject the Greeks from the Balkans states, many wheat speculators who were short made haste to cover, fearing an excited and higher market in case Turkey complied.

Some sport buyers, together with prospects of a sharp falling off in primary receipts, gave additional impetus to the bulls.

Advisers from both the southwest and northwest indicated that a majority of farmers were holding out for higher prices.

Only a temporary dip resulted from a record-breaking increase of the visible supply of wheat.

It was general belief that the increase had been foreseen as a probability several days ago, and discounted in the main.

The fact that the Liverpool market was lower had scarcely more than a momentary influence here, being virtually lost sight of soon after the start.

Fine weather for maturing corn made the market for that cereal relatively weak.

A good deal of buying was done, however, in sympathy with the strength of wheat.

Oats hardened owing to gossip of big export sales. On the other hand, there were signs of freer offerings from the country, especially Iowa.

Packers buying helped to lift provisions. An advance in the hog market was also a distinct aid.

Winnipeg Wheat FIRMER AT CLOSE

Good Buying by Exporters—Grain Movements on Prairies Heavy.

Canadian Press Despatch. WINNIPEG, Sept. 28.—Wheat opened easier on weaker Liverpool cables, but firmed up later on good buying by exporters and fair general demand for cash wheat. Oats held fairly steady.

While the cash demand is active, the amount of business transacted is light, the spreads being too wide, causing few offerings to be put on the market.

The weather over the prairie provinces is ideal for the movement of grain, and predictions are for a combination. In sections totaled 2405 for Saturday and Sunday, against 2372 last year, and in eight 1150 cars.
