

MR. GREENWAY IS WANTED

SIR DONALD IS ANXIOUS THAT HE SHOULD GO TO OTTAWA.

It is said the Cabinet yesterday considered the advisability of sending for the Manitoba Premier, Mr. Greenway, to Ottawa, but he has declined to do so.

Ottawa, March 6.—(Special.)—Against the talk of compromise was the report of the lobby to-day; again report was current that Mr. Greenway will be here soon. From all that your correspondent can learn, it seems likely that the division on the second reading of the Remedial Bill will not take place until the week after next, if then. By that time the Manitoba Legislature will have concluded its labors, and Mr. Greenway will be free to leave Winnipeg. If the Remedial Bill receives its second reading, then it is more than likely that Mr. Greenway will come to Ottawa and talk compromise.

The foregoing statement is confirmed by a private telegram received from Winnipeg this morning, which says: "The impression prevails here that Premier Greenway will go to Ottawa, but he will say nothing yet. It is understood that the Legislature here will conclude its business within two weeks."

The Cabinet was in session all forenoon, and none of the Ministers were able to attend the meetings of the different committees. It is said they were considering the advisability of sending for Premier Greenway, and some other members of his Cabinet, so as to have a conference regarding the Remedial Bill. This view has been strongly impressed upon the Government by Sir Donald Smith.

There were only two speakers in the Remedial debate to-day—Mr. Moncrieff from Lambton and Mr. Martin from Winnipeg. From the stand of the Government, Mr. Moncrieff made an excellent speech. Mr. Martin was as emphatic as of yore, and with great vigor pressed the point that the bill was unconstitutional and ultra vires.

On the second reading of the bill, Major Hughes will move for the repeal of section 93 of the B.N.A. Act, and section 22 of the Manitoba Act, and to substitute therefor the following: "In and for the Dominion there shall be one system of national education, embracing (1) the intellectual by which, including mathematics, history, geography, English and French, (2) the principles of morality, and (3) political and sanitary science, and for each province the Legislature may exclusively make laws in relation to the same, subject to the following provisions: Religious instruction shall not officially form part of national education, but nothing in this shall prevent those legally controlling school buildings and premises from granting the use thereof for religious purposes of any denomination, or for the exercise of the day."

The meeting of the Railway Committee this morning was characterized by some lively proceedings. Hugh Sutherland's familiar proposal to amend the Bay Railway bill was the first order taken up, and after some discussion was ordered to be reported. The object of the bill is to extend the time for constructing the road. The next measure considered was a scheme for opening up navigation from Winnipeg to Hudson's Bay by a series of canals, and utilizing the Hudson River. Mr. Martin strongly opposed the bill. During the course of the discussion Mr. Martin and Mr. Cochrane fell out and some high words passed between them. The latter called Mr. Martin a "liar," and had to apologize. Mr. Martin had to take back an imputation against him that he was making the question a political one.

It is said to be the intention of the Government to amend the Act respecting the Supreme and Exchequer Court. The first clause gives the Chief Justice of Canada the title of Chief Justice of Canada. The second clause enables four judges of the Supreme Court to hear a case by the consent of the parties. The present quorum necessary before a case can be heard is five. The Premier has intended a bill respecting the revision of the statutes which enables the Governor-General-in-Council to appoint three assessors to consolidate and revise the statutes of the Dominion since the last consolidation and revision in 1885.

The Bill was Dropped. The project known as the Equitable Benefit Association will not do any business this morning. The opposition encountered by the promoters in the Banking Committee this morning the bill for incorporation was withdrawn by Mr. Chapman of Minneapolis, head pusher of the enterprise.

Special Infantry Instruction. The deputation from Kingston and Ottawa, which waited upon Senator Desjardins on Tuesday have to thank the Minister for promptly acceding to their request for the establishment of a special class of instruction for infantry officers in the militia. Two classes of this character are to be formed, one at Kingston on March 17, and one at Montreal, on March 24. The course of instruction will last for three months and the special certificate will be awarded, based on result of examination.

The Country's Revenue. The revenue for the past month shows a gratifying increase of \$30,000, compared with February, 1895. A quarter of a million of this is due to customs and \$50,000 to excise. The total revenue for the eight months of the year is exactly two millions ahead of the same period last year, while the expenditure is one million less, a net increase of three millions in the eight months. Correspondingly, the expenditure on capital account has decreased \$300,000, less than for the same period last year. The net debt in February, decreased \$875,000.

Some General Notes. Mrs. Lewis, wife of the Bishop of Ontario, delivered an address in the Speaker's Chamber on the subject of the establishment of the Home for Canadian Girls in Paris. Their Excellencies, Lord and Lady Aberdeen were among the large number present.

Promoter Proposes to Establish a Car Building Factory—Will the C.P.R. Get There?

Hamilton, March 6.—(Special.)—Mayor Tucker has received a communication from a promoter stating that he is seriously considering the advisability of establishing a car building factory in this city. The promoter is the old (Wanzer) factory would employ 100 men. The company, he says, employs 25 hands and has a number of nearly every location in the city. He is seeking a location here is to hold this trade and save the duty of 30 per cent. on a car.

A report is current to-day to the effect that the C.P.R. is coming to Hamilton by way of the Grand Trunk company's tracks from Toronto. The report has it that a deal whereby the latter may use the former's tracks between Toronto and Hamilton, and the C.P.R. of the city. The idea of the C.P.R. is to build a short track from the Valley Inn to connect with the Grand Trunk. Thus coming through the city on the T. & E. tracks. The report is said to have come from an authentic source.
