**Aluminum Company**  
Incorporated 1897.  
Authorized is \$500,000, and allotted is \$27,000,000.  
Trading in the New York Market.

At St. Louis show that by adding expenditure of \$125,000 for enlarging the existing capacity there will be a CLEAR PROFIT PER ANNUM. Rates for erection of works also at company's water power station show that the erection of such works would mean a CLEAR PROFIT PER ANNUM.

Particulars were stated for prospectus description forms, stating particular details of the territory, and better testimony of high quality of iron ore. Such a result is the natural outcome since spring growth opened in the greater part of the territory, and better increase in the complaint of the appearance of rust. The prospectus is not particularly changed, depending upon the weather conditions of the next three weeks.

### WHEAT WAS FEATURELESS.

Chicago's Options Varied Only Fractionally in Price.

Visible Supply Increased Slightly—Quantity of Wheat Afloat for Europe—Situation of Corn—Grain Stocks in Toronto—Notes and Gossip of a Day.

Monday Evening, July 10.  
Chicago wheat futures did not move much today, and closed near the low point of the day.

Chicago corn futures to-day eased off 1/4 cent and recovered 1/4 cent.

September wheat puts at Chicago to-day 72 cents 7/8.

Receipts of wheat at Minneapolis and Duluth for the week ending July 10, 1914, 1,750,000 bushels, as against 71 cars the corresponding week of last year.

Exports at New York to-day: Wheat 80,000 bushels; flour 1200 barrels and 9785 sacks.

Notes: Winter wheat harvest is bearing a close, except in the extreme northern part of the territory, and while there are no particular developments in the material testimony of high quality of iron ore.

Such a result is the natural outcome since spring growth opened in the greater part of the territory, and better increase in the complaint of the appearance of rust.

The prospectus is not particularly changed, depending upon the weather conditions of the next three weeks.
